

STORM KILLS 70, SWEEPS TOWARDS OHIO

FRENCH AND GERMAN FORCES CLAIM FURTHER GAINS

ATTACK OF
KING'S MEN
HAS ENDED

Berlin, Oct. 1. (By Wireless to Tuckerton, N. J.)—The British have ceased their attacks and the Germans have made further progress north of Loos, the war office announced today.

All French attacks east of Souchez, north of Neuville and in Champagne failed.

Paris, Oct. 1.—In the great battle in the Artois district the French have made further progress by means of attacks with hand grenades on German trenches. Announcement to this effect was made today by the war office.

In the Champagne a German counter attack near Maisons de Champagne was checked. The Germans violently bombarded French trenches near Soupir, north of the Aisne but made no infantry attack.

London, Oct. 1.—The French are bearing the brunt of the fighting now in progress on the western front. They are hammering at the second German line in Champagne, in the direction of the Grand Pre railway, and at the same time dropping bombs on the line and stations to prevent the Germans from bringing up reinforcements. Absence of news from the British front apparently indicates that these forces are occupied with consolidating their positions in the strip of territory recently won.

The British forces now in France are estimated at a round million men which will be increased by 500,000. Daily lengthening of the obituary columns of the London newspapers is beginning to measure the price paid by the British for their recent offensive.

There is no notable change on the battle front of the east.

Vienna announces that the third Austrian war loan will bear interest of 5 1/2 per cent.

Means Much to Americans.

You'll Find It In--
SATURDAY'S TIMES

You're Invited To The Korn Carnival

The Times, and all of Portsmouth invites you to attend the third annual Korn Carnival on next Wednesday, Thursday, Friday and Saturday. Your entire family, and the families of your neighbors are also invited, and you all are assured four days of wholesome fun, such as can be dispensed only when King Karnival reigns.

His Majesty is in the city now, has been here with his court for the past week preparing for Portsmouth's

greatest showing, and the result is going to be one of the finest exhibitions ever given in the state of Ohio. The boosters and business men of Portsmouth have outdone their efforts of 1913 and 1914 and the 1915 Karnival will surpass anything that has ever been attempted here.

There's going to be something day and night for both young and old, and if you miss coming you're missing something that you will miss for the re-

mainder of your three score and ten. Business and commercialism is going to take a secondary place to King Karnival during the latter part of next week, and The Times and the entire city of Portsmouth wants all the neighbors to join in the festivities.

From early next Wednesday morning until the stroke of twelve on Saturday evening you're going to be entertained and entertained in a royal manner, befitting King Karnival and his court. You

will find on another page of this edition the full program of the events in the order of their appearance. Just glance over the list and if you don't find something therein that you actually want to see let the committee know and you will see it.

That's the spirit that has made the former Korn Karnival the most pretentious of fairs of this kind ever held in Southern Ohio, and that's the spirit that is going to make the 1915 Korn Karnival the

finest exposition held during 1915, not excepting the Panama-Pacific fair at San Francisco.

There will be ample accommodations of every kind. The railways are going to run many special trains and there is no reason why you and your family shall not enjoy Portsmouth's big week.

Kum and you will find a cordial welcome. Remain away and you'll always regret it.

DAMAGE IS
PLACED AT
MILLIONS

Washington, Oct. 1.—The tropical storm today was sweeping through the upper Ohio Valley in a northeasterly course and a secondary storm had developed over southeastern Virginia, which also was moving northeasterly.

Both disturbances are accompanied by rains and northeast gales, and the weather bureau today ordered storm warnings displayed on the Atlantic coast from Norfolk to Portland, Me., and on the Chesapeake Bay, and also on the Great Lakes from Port Huron to Oswego.

Baton Rouge, La., Oct. 1.—The death list resulting from the hurricane which swept New Orleans, its vicinity and the Mississippi Gulf Coast now is expected to reach sixty-five or seventy. Property damage from latest estimates will mount into the millions. The losses so far as now known distributed as follows:

New Orleans, 19 dead, 200 injured; property loss more than \$2,000,000.

Mississippi coast, 13 dead, scores injured or missing; property loss estimated at \$2,000,000.

Frederic, Ind., 25 dead, about 30 injured, heavy damage to railroads.

Automobilists arriving here from New Orleans early today reported work of restoring order in the city was progressing rapidly. Streets are being cleaned of debris. Buildings left in a dangerous condition are being torn down. Railroad traffic from the west into the city has been partially resumed, and telephone and telegraph companies are working day and night to restore wire communication to the outside world.

PRINCE HENRI DIES
IN FIERCE BATTLE

Paris, Oct. 1.—Captain Prince Henri Marie Joseph of Polignac was killed in the fighting in Champagne on September 25. He was 37 years old and was an officer in an infantry regiment.

Prince Henri Marie Joseph was the second son of Henri, fourth duke of Polignac, the head of the French house of Chalon. Prince Henri was born in Paris in 1878. In 1904 he was married to Diane, countess of Polignac. The prince was a captain in the 103rd infantry regiment.

London, Oct. 1.—Captain Harold T. Cawley, member of Parliament for the Haywood division of Lancashire, has been killed in the Dardanelles fighting. Captain Cawley is the third member of parliament who has been killed in action.

RACES POSTPONED

Columbus, Oct. 1.—Because of track conditions following heavy rains last night the Grand Circuit races carded for today were postponed.

Van Invites Pests
To Korn Carnival

Hear ye all ye pests. Van is imbued with the Karnival spirit, has been for several days consequently, he has been "off of you." He desires to extend to all of you individually and collectively the invitation below. He extends it knowing whether he did or not that you would be on hand, but he urges you to be good and take the following to heart, and bids ye welcome:

List to this if you're a pest,
We're giving a show that is the best,
If you're real good or want to be,
Kum and see this show with me.

But have a care while you are here,
Leave your "pesty" manners here,
For King Karnival's here for a week,
So if you come you're to be real in

Van's spared you all for several days
When you know why you will amaze;
He's got the spirit of the Karnival,
He's going to show you he can be a pal.

He hopes the sights will do you good,
Make you forget your being good
He extends a welcome to you all
Just come to the Korn Carnival.

FRANCE AND
ENGLAND TO
AID SERBIA

Paris, Oct. 1.—The Temps announces that France and Great Britain already have taken military measures to defend Serbia and Greece against Bulgarian aggression.

WORKMAN BURNED

Burlington, N. J., Oct. 1.—Two workmen were killed and three others were burned, one probably fatally, when 2,400 pounds of powder burned at the Haskell Powder Works here yesterday. Superintendent Lynch, of the works, said he thought the fire was caused by static electricity.

TURKS SINK
ENEMY BOAT

Berlin, Oct. 1. (By Wireless to Tuckerton, N. J.)—An official communication issued in Constantinople under date of Sept. 27, as received here today by the Overseas News Agency says:
"Turkish coast batteries sank a torpedo boat of the enemy near Kerevigadire."

SIX MIDDIES
ARE FIRED

Washington, Oct. 1.—Dismissal of six midshipmen, suspension of four others for one year without pay and the demotion to the next lowest class of fifteen others was announced by Secretary Daniels today as the result of the recent hazing investigation at Annapolis Naval Academy.

TELEGRAMS GO
TO BULGARIA

London, Oct. 1.—Foreign Secretary Grey announced this afternoon that German and Austrian officers were arriving in Bulgaria to direct the Bulgarian army. The secretary said this was a fact which the allies regarded with "the utmost gravity."

U. S. MAY DEMAND
VON PAPEN'S RECALL

Washington, Oct. 1.—Unless Captain von Papen, the military attaché is voluntarily withdrawn by his government, indications today are that within a short time the United States would request his recall.

All the papers carried by Jas. F. J. Archibald, the American correspondent involved in the case of Dr. Dumba have been received by the state department. In the list of the papers now in the possession of the state department are four cipher letters. One it is believed to be from Count von Bernstorff, although on the latter point official confirmation was lacking.

The state department's description of the correspondence is as follows:

"Memorandum of the German ambassador containing his defense made to Secretary Lansing of reported activity of the embassy of fields in violation of the American neutrality."

"The assigned memorandum 'A Hungarian Editor' suggesting a means of interfering with American industry."

"Captain von Papen to the German war office mentioning the Bridgeport Arms company already made public."

"Captain von Papen to the German war office on the purchase of tonnage."

"Captain von Papen to his wife in which he refers to 'idiotic Yankees.'"

"Captain von Papen to the German war office on matters of routine."

"Three cipher letters, two to the German and one to the Austrian governments."

"Austrian ambassador to his foreign office, criticizing the president."

"Austro-Hungarian Consul Schwegel at St. Louis reporting a conversation with Mr. Meeker, representative of Chicago packers."

"Count von Bernstorff to Jas. F. Archibald."

"Captain von Papen introducing Archibald."

"Four letters from Count von Bernstorff, introducing Archibald."

Three Riggs Bank
Heads Are Indicted

Washington, Oct. 1.—Charles C. Glover, president of the Riggs National Bank, Wm. J. Flather, vice president, and H. H. Flather, cashier, were indicted today for perjury in connection with the bank's recent suit against Secretary McAdoo and Comptroller Williams.

STORM WIPES OUT
TWO ENTIRE TOWNS

Nashville, Tenn., Oct. 1.—As were found standing, and at Dunbar according to railroad officials here, the damage was almost equally as soon that German and Austrian officers were arriving in Bulgaria to direct the Bulgarian army. The secretary said this was a fact which the allies regarded with "the utmost gravity."

The Times is all dressed up today and so am I. Both of us are making a splurge on account of the Korn Carnival which by the way is gonna be the biggest Korn Karnival in Korn Karnival history. And as I'm gonna be seen in this edition by a lot of folks who never saw me before I thought I'd better tog out in my Sunday best. Here's a hint on tomorrow's weather:

Ohio—Rain tonight, Saturday partly cloudy.

Fair tonight except rain in extreme east portion; fair Saturday.

West Virginia: Rain tonight; Saturday cloudy.

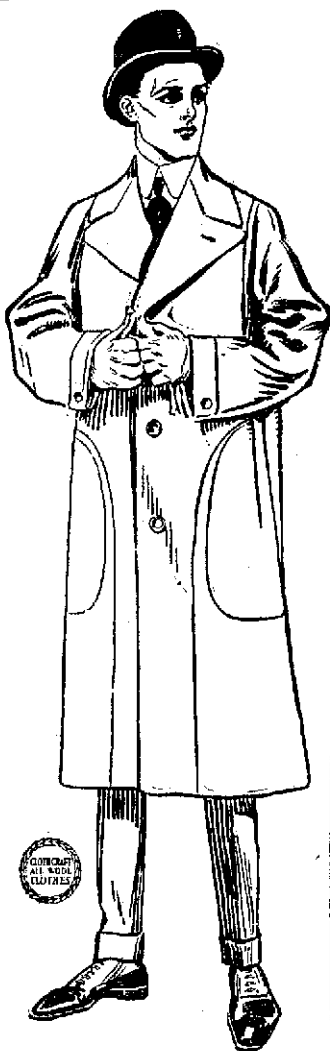

EVERY man and young man who knows good clothes when they see them, and every woman who is interested in seeing men well dressed, is invited to come in during the Korn Carnival and inspect the correct things in Fall and Winter Styles for men at this live store.

And please come prompted by the same spirit that would lead you to attend any other great exposition---to see and to learn.

You need not bring a penny with you. It is our desire to first prove the superiority of this store's merchandise and methods before bidding for the favor of your patronage.

\$15.00

That's Where Real Clothes Satisfaction Starts---and there's 150 New Fall Cloth-craft Suits and Overcoats Here at that Price That Proves It.

Be it a hat, some warm underwear, a shirt or two---whatever you need in dependable wearables for men and young men---they're here in greater variety, and at a greater saving than you'll find anywhere else in town.

Hand-Tailored Clothes From The House of Kuppenheimer

And we've just said enough to convince you that our prices, your money and Kuppenheimer Clothes make a great combination. At \$18.00 and \$20.00 there is a selection of handsome fabric patterns in these famous suits and overcoats that will make you say "that's mine" before you have tried on very many of them.

You'll do well to come in and give them closer inspection. There's safe---sure satisfaction awaiting you in the men's wear carried at this Live Store.

Just a word about our SWEATER Department. We are showing this season an almost endless variety in Men's, Women's, Boys' and Girls' Sweaters at prices in many instances lower than present wholesale prices.

LEHMAN'S

CLOTHING THE LIVE STORE SHOES

W. O. W. LOG ROLLING CONTEST WILL BE A KARNIVAL FEATURE

To the many big attractions planned for Korn Carnival week by the Karnival committee has been added another all day feature that will wind up the exhibition in a blaze of glory.

The Tri-State Woodmen of the World Association will hold its annual Log Rolling in this city on Saturday, October 9, the last day of the Karnival and between 3000 and 4000 Woodmen of the World from Ohio, Kentucky and West Virginia, will swell the closing day's immense throng.

Every Woodmen Camp within a radius of 100 miles from Portsmouth has been invited to attend, and favorable replies have been received from many of them. Several camps will send their degree teams to compete in the prize drills that will be held on Saturday afternoon. Prizes in the drill contests aggregate \$250.

The steamer Homer Smith has been chartered by the West Virginia officers, and it will leave Parkersburg on Friday afternoon stopping at all points along the river. Large delegations will be taken on at Pomeroy, Point Pleasant, Gallipolis, Huntington, Catlettsburg, Ashtabula, Winton and Greenup. It is reported. Over 2,000 are expected on the boat alone.

A special train will be run from Columbus. It present plans materialize, bringing delegations from Troy, Piqua, Dayton, Columbus, and intermediate points.

The day's program will start with a monster parade at 10 o'clock Saturday morning with General Stoffel of Cleveland as grand marshal and prominent Woodmen of Ohio, Kentucky and West Virginia as his aides.

At one o'clock addresses will be made by Sovereign Commander W. A. Fraser, the Texas Cyclone and J. G. Briehl, of Cincinnati, the State Commander.

Competitive drill work and floor work will be staged after the speaking in which every camp

in the three states is eligible. Cash prizes will be awarded to the winners.

Arrangements for the day's program are in charge of the officers of the association: Roy McElhenny, of Portsmouth, general overseer; George L. Muhn, of Parkersburg, George A. Ditty, of Portsmouth, and Hugh Teal, of Ashland, Ky., assistant overseers; Norman, state manager of West J. A. Meredith, of Ashland, Ky.; Virginia W. W. Smith, of Hantrebe treasurer; E. M. Enright, of Ohio; George L. Muhn, of Parkersburg and John D. McElhenny, of Huntington, managers.

For W. Va.; J. M. Stevens of Ashland, Ohio; Commander W. A. Fraser, land and S. L. Edgington, of Portsmouth, managers of the Tri-State South Portsmouth, managers of the Tri-State.

Kentucky: Joseph T. Micklethwait, of Portsmouth and Samuel Uniformed Rank -- Field World.

Davis, New Boston, managers for Ohio.

The full program for the day is as follows: 10 A. M.---Monster parade of Woodmen of the World; General Stoffel of Cleveland, grand marshal; aides, Major J. H. Boggs, of Parkersburg; Col. J. H. Brewer, of Ashland, Ky.; Alexander Ashland, Ky., assistant overseers; Norman, state manager of West J. A. Meredith, of Ashland, Ky.; Virginia W. W. Smith, of Hantrebe treasurer; E. M. Enright, of Ohio; George L. Muhn, of Parkersburg and John D. McElhenny, of Huntington, managers.

For W. Va.; J. M. Stevens of Ashland, Ohio; Commander W. A. Fraser, land and S. L. Edgington, of Portsmouth, managers of the Tri-State South Portsmouth, managers of the Tri-State.

Kentucky: Joseph T. Micklethwait, of Portsmouth and Samuel Uniformed Rank -- Field World.

First prize, \$100; second prize, \$50; third prize, \$30; fourth prize, \$20.

3 P. M.---Competitive Floor Drill---Degree Teams. \$50 loving cup to degree team scoring most points.

Other prizes are: To camp having largest number in the parade (local camp excepted), Tri-State Silk Banner.

Portsmouth Chemical company will sell you your fertilizer. 12

Visited City Walter Havener, of South Webster, was a business visitor in the city Thursday.

NEW BOSTON

William Canter, Gallia pike grocer, has received a large shipment of Columbus Packing Co.'s fine California picnic hams which sell at 15 cents per pound.

The Bills with Bill Jenkins as chairman held a short meeting on Thursday evening as the rain kept a large number from turning out. A meeting will be held Saturday night.

Mrs. Charles Bentley and Miss Gertrude Giles of Ashland, Ky., are the week end guests of Mrs. Marie Storer of West Rhodes avenue.

Mrs. Joseph Belford underwent a successful operation at Hempstead hospital, Friday morning.

Mr. and Mrs. Frank Keatley are the proud parents of a ten pound son who arrived several days ago. Miss Leona Antis of Detroit, Mich., who is visiting Mrs. H. C. McCormick of East Stanton avenue, is suffering with tonsillitis.

Miss Edna E. Geist, Oak street school teacher, cut the index finger on her left hand several days ago with a knife.

Munn's Run was higher Thursday night than it has been for years. Water overflowed the Frank Wolfe land.

The bathing beach in Millbrook lake was completely wiped out, the diving float being torn from its moorings.

All members of the Christian church choir are requested to meet at the Christian church tonight (Friday) at seven o'clock. They will then go to the Baptist church where the two choirs will practice songs for the union service to be held Sunday evening at the Christian church.

The W. O. W. members decided at their meeting Thursday to march in the Korn Karnival fraternal parade.

Marshal Will I. Davis resumed work Friday. He killed five squirrels, the limit, Wednesday, while hunting back of Wait's Station.

Charles Keller and Clyde Cochran started on a hunting trip Wednesday afternoon but that was all the farther they got. Near Franklin Furnace the automobile left the side of the road and four hours were spent in getting it back onto solid ground, the two coming home exhausted.

Tom Justice spent Friday squirrel hunting in the hills back of the village.

Henry Hams and family, who motored to Jackson, Thursday, had an "awful" time getting home through the driving rain, according to Hams, who was telling his experience, Friday.

THE TEMPLE THEATRE
Early run pictures from the world's best producers.
Eleventh, near Lawson

WILL EXHIBIT PIGEONS

Carl N. Hansen expects to have a exhibit of some of his fancy pigeons in front of Hansen Bros' furniture store on Second street, during the Korn Carnival.

W. R. Buckley of Long Meadow addition, Sciotoville, is able to be up after an attack of typhoid fever. His daughter Wilma who is suffering with fever is still bedfast.

Sister M. Euphrasia, principal of St. Mary's parochial school, has been ill for several days.

We Are Boosting The Two Mile Dinner

Our store will be closed during the Dinner WEDNESDAY, OCTOBER 4, from 11:30 to 12:30.

HAS 200 NEW PENNIES TO SPEND

Master Charles Pace, of Eleventh and Gay streets, has been carried away by the Korn Karnival spirit and expects to spend a few of the 200 brand new pennies sent to him in an Honest Scrap bag by the P. Lorillard Company.

Rev. Horst To Be Guest Of Men's Class This Even'g

Rev. George P. Horst, the new pastor of the Second Presbyterian church, will be the guest of honor at the get-together banquet of the Men's Fellowship Bible class, which will be held this evening in the basement of the church. The banquet will be served by the members of Judge A. Z. Blair's

violin solo by Miss Ladara White. The program is as follows: The Social Side of the Class---C. E. Dowling. Organization and Relation to the Sunday School---W. W. Gates, Jr. The Spiritual Side of the Class---B. F. Kimble. Our Relations to Our Church and Pastor---Rev. George P. Horst. Musicales Entertainment---Miss Edna Marting. A social hour with the pastor.

PLAN TO SAVE

In order to make a success of anything you must have a definite plan to follow. The man who gets ahead puts system into his time and his work. The more system you put into your money affairs, the sooner you will reach the point where you will begin to rise above your present conditions. Study your expenses. Cut off a few cents on each item and lay it aside as a dividend on your earnings. This company furnishes a safe place to keep the money you save; and we pay you four per cent interest on your savings, compounded quarterly.

Entered at Postoffice at Portsmouth, O. as Second Class Mail Matter.

ABOUT OURSELVES.

The Times tonight presents to its readers its annual Korn Carnival edition, printed on yellow paper, typical of the Carnival which is to be observed during the coming week.

We are proud of the edition, proud of the enterprising business men who are represented in it, because they helped to make it possible as they have helped to make Portsmouth what she is, and are daily helping the town to grow great and prosperous. And also we are proud of the fact, and pardonably so, that the work represents the energy and skill of our own organization. The work on this edition was done by Times people in The Times office, and it represents our best efforts in the way of executive and mechanical excellence.

Elsewhere in these columns space is devoted to Portsmouth, her enterprises, her merchants, her prosperity which will be exemplified in the Carnival, her future which is fair and bright. Here we want to tell you a little bit about The Times itself, about the newspaper which has always stood for Portsmouth and for Portsmouth people against the world, and which has grown steadily with the town, ever trying to do its part in upbuilding and uplifting the community. Sometimes we may not have reached the limit expected by some of our friends, certainly we have never been fully satisfied with our own efforts, but we have always done the best we could, and each time we have tried to do a little better than we did before. And above all, day in and day out, we have devoted our best efforts in a determination to give Portsmouth a great little city newspaper, one that could be depended upon to print the news fairly and honestly. We feel that we have succeeded, in a measure, as our steady growth in circulation and business indicates. Still we are not satisfied with what has been done. We do not want to stand still and we do not intend to do so. We hope to keep on growing and improving with the town and when Portsmouth reaches the 50,000 class, we hope to be there with a newspaper equal to any published in a 75,000 or 100,000 population city in the country.

The Times is in its 22nd year, the first issue of the daily being issued March 23rd, 1894. Before that there had been a weekly edition which dates back to 1860 and from the first issue of the weekly there have been four men in active ownership of the paper, James W. Newman, who started the weekly, J. L. Patterson, who started the daily edition, and Vallee Harold and Harry E. Taylor, the present management. Most of the staff have been with the paper for years, growing up with it and by their splendid work helping to make the paper what it is today.

When The Times was in its first year, it had a staff, in all departments of 12, with eleven newsboys. Today, in all departments there are employed steadily 34 adult persons, while in the newsboy department to care for the evening edition there are 103 newsboys, and on the Noon Edition there are an average of 50 boys selling on the streets every day. In wages alone the paper pays an average of \$44,000 a year, so that you can see that The Times is a factor of its own in the industrial activity of the town, small it is true, compared with some of our great industries, but it is doing its share.

It has been the policy of The Times to get high class men and women in every department, and our wage limit is equal to that in papers located in towns many times the size of Portsmouth. It has ever been a source of greatest gratification that extreme loyalty has characterized every department of the paper, all working together in harmony and with the most cordial feeling for each other. We have been getting along together like a happy little family and it is a condition of affairs that we hope will continue so long as we have anything to do with the paper.

One of the features upon which The Times has prided itself, has been careful attention to the local news field. We have a competent, high class staff of news writers, careful, considerate and enterprising. We believe that any one of them could hold a job on any newspaper in the land, and they see to it that every item of local interest is gathered in. Sometimes the boys may get an item too that is not published and occasionally we may be criticised for that. We use our judgment in this, and we may make a mistake once in a while. There never yet was a newspaper that printed everything that came to it, and there never will be. One thing sure is that no unworthy influence ever has or ever will keep an item out of The Times. Consideration of the possible effect upon innocent people, upon the wives and the little ones, have been the dominating influences in the cases where there has not been publicity, and in the years we have been running a newspaper there are not many families in the community who would not have been touched if we had printed everything that came to us in a news way.

We have tried to print everything of public moment, there is no deviation there, but in private matters we have exercised some latitude, where we thought good might come out of it. It may have been a mistake, in the opinion of some to ignore the pleadings of women whose husbands had gotten into police court, and to have added to their burdens and those of their families by publicity, but we do not think so. And it is from the police court that come the appeals to "please give me another chance, keep my name out just this time."

The telegraphic department is another big feature of The Times and through which patrons of the paper are kept in close touch with world events. One year ago, in our Carnival edition, we announced the installation of the Associated Press leased wire service. This has not our greatest expectations. It gives us the Associated Press news over our own leased wire, with our own operator in the office. We are on the wire from 7 o'clock in the morning until 3 in the afternoon with newspapers in the big cities of the state and nation, and in cases of emergency the wire is kept open as long as desired. We get a daily average of from 15,000 to 16,000 words and this is handled and edited by an expert telegraphic department so that The Times readers are always sure of getting the news while it is news. The Times is the only paper in Southern Ohio, outside of Dayton and Springfield and Cincinnati, that receives the full leased wire service. It is an expensive proposition, but it gives the news and that is enough for us.

In addition to the news service, The Times has a number of general features that add to its attractiveness. There is the delightful and unique Polly Wise column, our daily cartoon feature by our staff artist who with his Billy Butt in, The Times weather man, is

A ROYAL WELCOME AWAITS YOU.

as much an institution locally as the paper, the "Polly and Her Pat" comic strip, and the illustrated news service of the Central Press Association which supplements the wire service with pictures. A daily pattern service and a weekly embroidery pattern service also appeal to women readers, while the Doc Koko column appeals to those who enjoy a little fun.

Then too, there is the attractive daily New York Letter, which is so thoroughly enjoyed by readers, and the weekly feature article which was added only a short time ago. All of these go to round out the paper and make it attractive from every standpoint.

In our mechanical departments we have the latest machinery designed to get out a modern newspaper, linotype machines, perfecting press, up-to-date stereotyping machinery, etc. It is a plant equal to emergencies, and it insures subscribers getting their papers on time all the time. When you subscribe for The Times you can rest assured that you are going to get your paper, that our circulation department will serve you to the best of its ability, and that every one on the paper will do his best to see that you get your money's worth.

The Times is housed in its own building at the corner of Front and Chillicothe streets, having been on this corner for the past 17 years. Following the 1913 flood, the building was remodeled, a concrete building being constructed inside the walls of the old structure, and an extensive addition also erected. This gives us plenty of room and room to grow, if occasion requires. Our office is comfortable and commodious and our machinery is so located that it cannot be touched by floods, unless we have a few feet more than we had the last time. This insures the operation of the paper in flood time as well as in fair weather and under normal conditions.

We do not often write about ourselves and we hope you will not be inclined to find fault with us for talking now. We would like to have you come down and see us, during the Carnival and at any other time you care to come. We are always glad to have visitors and pleased to show a newspaper in the making.

We hope to merit the patronage of the reading and advertising public and above all to continue to have what an expert auditor of circulation, sent here by Eastern advertisers, said was "One of the very clearest and best circulations he ever had the pleasure of auditing."

And in concluding, just always bear in mind that Portsmouth is a good old town, a growing town, a town with a future. It is the one town in this section that is sure to find in the 100,000 class. It is a town of home owners, a town of workers. Everybody works here, and everybody is happy and contented. We are building for the future as well as for the present, paying, saving, expanding in every direction. Shipping facilities are of the best, and in every way Portsmouth looks out promise to the investor and to those seeking locations.

We are proud to be located in and to be a part of Portsmouth. We hope the town will keep right ahead and that its growth will be beyond reaching.

Years ago we christened this town "Painless Portsmouth". We stand by that. It is a good name, a significant name. All good friends and boosters Portsmouth.

But off to Teller and Hartman. It has the champion gum chewer in its section, according to a correspondent of the Vanceburg Sun who says: "We stand ready to back our opinion that we have in our town the champion gum chewer in the county. She chews not only at home, but on the street and in the church, and evidently never gives her poor jaws a rest. Who is she?" Being desirous of a little excitement we checked on the correspondent to name names. We are sure that the "her" will make things interesting if he does.

That's all right. This little rain will just make a good foundation for the fine weather we are going to have the latter part of next week.

NEW-YORK-DAY-BY-DAY.

O. O. MCINTYRE.

New York, Oct. 1.—The latest news from the front has been posted in Mouquin's two French restaurants. When the war broke out thirty-three waiters and cooks from the two cafes returned to France to fight for their country.

Jean Marie Tapie, who used to be the wine steward at the downtown restaurant, has passed on. He was killed in action. Alphonse Pourans, one of the waiters, has lost both arms in the fighting. Two others, George Benoit and Jean Riviere are missing.

When Elie Danless announced that he was going to the front he was urged not to do so. He had lived in America for fifteen years and had a wife and two children who needed him. Nothing could dissuade him.

"I hope the Germans will capture you," Jules, the head-waiter, told him. Jules got his hope for Elie was captured during his first charge and is now a prisoner in a German camp in Hanover.

It is sometimes difficult to create the proper "atmosphere" in a play, especially if one of the scenes is laid in a barber shop. When the curtain rises on the barber shop scene in "Hit-the-Trail Holiday", George Cohan's new farce comedy, the audience catches the scent of bay rum and other commingled barber shop odors.

"By jove, it smells like a real barber shop, doesn't it?" a score of men remark to each other. Of course it does. For just before the barber shop scene the air is sprayed with bay rum from a giant hidden atomizer.

What's the use anyway of having a barber shop on the stage if it doesn't smell like one?

This is the story of how Paul T. Lawrence fell for the fill-aus. When he came to New York he had thirty-four suits of clothes, a private haberdashery, a full grown savour faire, \$15,000 a year and some ambish. He went to work in the Eastern agency of his rich father's business and had

a big mahogany desk to rest his patent leathers on.

But he was not content—a restless soul is Paul. So he sought to relax and that is how he became an actor for the movies. Paul dropped into the studio one day with a friend. A director saw his face, liked it and he went right to work.

Now he is acting as leading man with Ethel Barrymore in a feature film. When his father hears of the change of jobs there is likely to be some fireworks and the screen will lose a young leading man.

There are twelve page girls in the Martha Washington Hotel. They all dress alike in white aprons and little caps and when not answering to the call of "Front" they sit in a row near the information desk and chat in an undertone just like the hall boys do.

Paging women is in some respects more difficult than paging men. Of course the girls do not have to go through bar rooms and cafes, but they do have to go down the corridors to the mailmen, the dressmakers, the hair-dressers and the manicures.

They page by room number and name in the Martha Washington. Using the two together helps fix the identity quicker than to use only the name.

This is the open season for lithe limbed, athletic youths who know how to skate. Theatrical managers are potting them. While the mercury hovers around 90 skating ponds are being frozen in New York theatres.

It looks like it will be a busy season for young men who can cut the Philadelphia twist, the Pittsburgh stogie, the Cincinnati pretzel and do other stunts on the ice in the shadow of canvas Alps and glaciers.

The ice palace idea has broken out simultaneously in several places in New York and seems to be spreading.

A Matter of Position. Photographer—Why don't you bring your candidate up here for a photograph? Manager—He says he won't stand for a sitting.

Photographer—I believe he's lying.—Farm Life.

We are glad to hear that the friends of Hon. Roy McElhenny have leaped at our suggestion that since the Republican executive committee has offered to back him for anything he wants outside of the liquor license board, he now proceed to get a handsomely engraved and beautifully embellished endorsement for congress and start out on his merry way to the national law making body. Thus will the Scioto county G. O. P. get together and present a united front to the enemy in the other counties of the new Tenth.

Oh well, by this time next year we will be able to show our visitors miles and miles of the best paved county roads you can find anywhere. They can travel from the Little Scioto bridge beyond Seinterville to Lucasville, a distance of 18 or 19 miles on paved roads. They can also travel over our new Scioto bridge, out along the tow path and across the hill road down the Buena Vista pike paying too, that is if the tow path and the hill road contractors keep awake on the job.

The man who stands on the First National Bank corner every day in the year, holidays included, wishes to assure his friends that he proposes to be right on his chosen spot during the Carnival, and if they want his space for booth room they will have to build the booth around and about him. He does not propose to be shifted right at the time when opportunity is best to get a good look at the Portsmouth girls with the roll stockings.

There's a lady with whom we are on speaking terms who says that she bets when the women get to be registrars for elections they will see that a voter has red hair and blue eyes at a glance and not have to ask right out loud before every one else present, "color of hair please?" And in our necktie manner we also suggested that they would also probably see whether or not the applicant for the inalienable right to vote had on a new gown.

The presence or absence of a few technical words may invalidate an indictment, but we notice that it did not save those poor devils who got blown to pieces by dynamite a few weeks ago. The man who planted the dynamite wanted action. He got it. Now what the rest of us want is action, that the guilty dynamiter, whoever he may be, is made to pay the penalty of his crime.

President Wilson's conception of public and official life is shown in the language he used in addressing the survivors of the Grand Army of the war of the rebellion, at Washington this week. It is in striking contrast to the "man on horseback" idea prevailing in Europe. The president said:

"So I stand here, not to welcome you to the nation's capital as if I were your host, but merely to welcome you to your own capital, because I am, and am proud to be, your servant. I hope I shall catch as I hope we shall all catch, from the spirit of this occasion, a new consecration to the high duties of American citizenship."

The more we think about those early Gallipolis settlers opening casks of wine and going in bathing with Indian maidens, the more convinced are we that it must be an awful wear and tear on the moral fibre of a high minded, strictly temperate and virtuous gentleman like Colonel Sidney to live in such an environment of tradition and keep straight.

We take this opportunity here and now to bid for a place for our name on the monument George White plants on the tow path when it is completed, to perpetuate the names of its builders. Goodness knows, we have worked hard enough trying to get that road built-on time.

It is said that the real new head of the Russian army is General Kuznetsov, an able and experienced general, who has not been killed in nearly ten years and so may have forgotten how to run.—Detroit Rapids Press.

The hunter who, out for the first fall season's hunting in West Virginia yesterday, accidentally killed his own hound hunting dog, shot off three of his own toes, lost his carriage belt and fell down and broke his arm, surely had a full day's sport—of the kind.—Pittsburgh Dispatch.

The Hands of Womankind. O childish hands of womankind, So greedily now for play, What will you seek, what will you find

Through life's dragging day? Ah, little hands, in many hands, New treasures wait for you, When mother hands and teaching hands

Shall cast the ballot too. O plighted hands of womankind That ring on eager souls The filmy links of love and bind To base or worthy goals, New duties crown the heights that sing

This message unto you: The hands that wear the wedding ring Should cast the ballot too.

O mother hands of womankind In travail sorely wrung, Twisted in pain, in prayer entwined, In agony updrag, The yearning heart of mother earth

Foresees a balm for you, When hands that guard the gates of birth Shall cast the ballot too.

O toiling hands of womankind That shape a world to be And from the everlasting mind Build up a destiny, The brooding justice overhead Will pay this debt to you: The hands that earn the daily bread

Should cast the ballot too. O toiling hands of womankind That lift for Christ to see, By sorrow lined, by pain defined, A new Gethsemane, The touch that shall old age assail Drives nearer unto you, When hands that lead and love and toil

Shall cast the ballot too. —Exchange.

Notice to K. Winter, J. Frost, Geo. Bortens, Et Al. Furnace cleaned. Coal bin full. Fruit cellar full. Go ahead and do your darndest. —Detroit News.

Not as Green as He Looked. A farmer went into a hardware store in Canal Dover to buy some tools. Before he got away, the enterprising young salesman tried to sell him a bicycle.

"I consider I'd rather put the money in a cow," the farmer decided.

The clerk chuckled. "You'd look sweet, ridin' around on a cow, wouldn't you?"

Diamonds Do Not Slump

See the war stocks jump! You may be one of the fortunate ones who bought right, but play safe and invest some of your profits in DIAMONDS. Diamonds are always a safe investment—stocks are not.

The cause of the rise in the price of diamonds is economic, which, of course, is not always the cause of the advance of certain stocks.

A diamond indicates prosperity, lasts forever, and always pays a satisfactory dividend. We have some special values in Diamond Rings at \$25, \$50, \$75 and \$100. Orders up to \$500.

See them in our window.

A good time now to select one for Xmas.

Ask about our easy payment plan.

The Markets

NEW YORK STOCKS

New York, Oct. 1.—United States Steel and Coppers and Utilities were the dominant features of today's feverish opening. Steel's initial sale comprised 12,000 shares at 79½ to 79, the stock soon advancing to 80½, the first time it has broken through 80 since 1912. Inspiration Copper opened with 6,000 shares up to 44¼, a maximum gain of 1½. Mid-ami with 3,000 shares rose a point to 30, while American Smelting, Guggenheim and Ray were 1 to almost 2 points higher. Philadelphia company, selling ex-dividend rose 2½ to 91½. United Railways, preferred, 3¼ to 47½ and Pacific Telephone 3¼ to 45¼. Some war shares were a point or two higher while railways continued their irregular course.

Steel continued to rule the market throughout the early sessions, sales by midday approximating 150,000 shares at the further advance to 81½. Realizing caused recessions in other part of the list, but another buying movement in specialties, notably Westinghouse, General Electric and American Can, the latter making the new record of 66½, at a 2 point advance, infused fresh energy. General Motors also rose 20 to the new record of 33½, allowing for the recent 50 per cent dividend. Railroad shares like Union Pacific, Reading and New York Central were also higher.

Bonds were also strong. Steel rose to 81¼, with further gains in numerous specialties, before heavy realizing caused recessions, 1 to 2 points. The closing was strong.

Under U. S. Steel's leadership today's market surpassed all recent records for activity, every quarter of the list except railways participating in the advance.

High Shoe Day

Saturday, October 2nd And All Next Week.

Now that the good old summer time has given way to King Fall with his chilling blasts it's high time for the entire family to be thinking of high shoes. Chilly and rainy days go hand in hand with colds and pneumonia, so don't delay getting into high shoes that will give you the proper foot protection.

Important

The first matter of importance in buying shoes is to be properly fitted and that's the one essential point we are long on, fitting feet. Then comes STYLE. This season we are able to offer you the correct styles and also the necessary widths to fit your feet. No bluff or splutter about fitting. We know how and do it.

Q-U-A-L-I-T-Y

Considered last by most people is really the first important point with us, selecting such leathers that will wear and at the same time look well.

The St. Regis and Sultana Shoes For Women and "The Bungalow" and "Baker's Home Run" have made decided hits and "tuned miles into smiles"

Be Convinced

that we know what we are talking about and come in and be fitted.

Frank J. Baker

FOOTFITTER OF CORRECT STYLES

<p>Cruible Steel, 104½. Albis Chalmers, 49½. Great Northern Ore, 48½.</p> <p>LOCAL STOCKS</p> <p>For Sale</p> <p>300 shares Vulcan Last Company preferred. 100 shares Beeve Manufacturing Company, common. 38 shares Mitchell Manufacturing Company, common. 8 shares Portsmouth College of Business. Other good stocks we do not advertise.</p> <p>McCLURE AND CRAWFORD Room 25 First Nat. Bank Bldg Portsmouth, Ohio.</p> <p>CHICAGO GRAIN AND PROVISIONS</p> <p>Chicago, Oct. 1.—Fresh strength developed in the wheat market today owing to reports of excited demand at Liverpool from British millers. The bullish effect of security in England, however, were in a measure offset here by the publication of estimates from crop experts showing an immense surplus in the United States. The total domestic yield was represented as breaking all records. Opening prices ranged from 1½ to 3½ and 7½ higher with December at 55½, but were followed by a decided reaction all around.</p> <p>Favorable weather eased the corn market. There were also estimates current pointing to a record yield of corn as well as of wheat. After opening 1½ and 3½ lower to a shade advance, corn underwent a moderate general sag.</p> <p>Oats weakened with corn. Price changes, though were small. Provisions at first tended downward because of lower quotations on hogs. Later a rally took place owing to support from packers.</p> <p>Export sales of 5,000,000 pounds of meats and of 2,000,000 pounds of lard have been made here in the last few days. As against the sales, the big packers were active buyers today of Oct. 1.</p> <p>Subsequently the market rallied. The large export clearances and the slowness with which terminal stocks accumulated, seemed to count against the bears, but not in a lasting manner. Closing prices were easy at a shade to 3½, but declined with December at 35½ and May at 36½.</p> <p>Some stock loss selling, & lard were reported before the market closed. The closing was easy at 1½ to 3½ on the last night.</p>	<p>OPENING PRICES</p> <p>Wheat: Dec. 26c; July, 28½c; May, none. Corn: Dec. 52c; July, 57½c; May, none. Says One Case Was Reversed

Relative to an item in another column of this issue to the effect that Bird Garthee's saloon license has been revoked Mr. Garthee states that he was convicted in the mayor's court on the first charge, but the case was later reversed in common pleas court. If the court records verify Mr. Garthee's contention his license will be restored to him.

Step into our store any morning

pick out the "Garland" heater, base burner, range or cook stove you like best, and ON THE SAME DAY we will deliver it to your home, set it up for you.

Use the stove every day for a month. See if you have ever seen anything to equal it in any way.

We will guarantee you permanent satisfaction.

If a "Garland" ever fails to give the service of a first-class stove, you'll find both us and the manufacturer ready to adjust the transaction to your complete satisfaction.

Such is our faith in "Garland" Stoves and

Ranges. For 45 years they have proven themselves the "world's best." Over two million families have used them. We have no hesitations in saying that "Garlands" are the utmost in stove quality.

Makes no difference what style of stove you want or what you wish to pay, there is a "Garland" to suit you.

May we show you these stoves?

Won't you come in and take a look at them—and price them!

BANNON BLOCK

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 60.

Dear Miss Wise.—Is there any place that you know of where you can get free books on farming and poultry?

A TIMES READER.

You can get several books on poultry and a few on farming at the public library. If you will look over the advertisements in the various magazines you will find that many firms are offering all kinds of free literature about farming and poultry raising. All they ask is a 2 cent stamp to pay postage.

Dear Miss Wise.—Which is the older, Mary Pickford or Margaret Clark, and about how old are they? Also are they married or single?

MOVIE GOER.

Mary Pickford is in her early twenties. She is the wife of Owen Moore. Miss Clark is in her early thirties. She is unmarried.

Dear Miss Dolly.—We are two sisters, 15 and 17 years of age, and seem to have a very difficult problem to face. We are considered quite pretty and until recently were very popular, but were forced to move to a cheaper dwelling in what we consider an undesirable neighborhood. Now our friends seem to think as much of us, but hate to come and see us. (How can we help ourselves? Is it wrong for girls to go to public dances without an escort or chaperone?) TWO READERS.

It is unfortunate that your parents chose that location, but I cannot help yourselves now. I want to warn you, though, not to let your surroundings lower your ideals. Try to keep your friends and do not invite them to your home unless they show that they want to come. Never go to public dances. They are cheap and will give you a low standing that you will never be able to overcome. Cultivate higher and better tastes than public dance halls.

Dear Miss Wise.—Can white velvet be cleaned successfully by an amateur cleaner? JANE.

Yes, sponge the velvet with gasoline and air until the odor disappears. Then, with the help of a second person, steam velvet by stretching over a bowl of boiling water, brushing so the nap and smoothing it in the way it is worn.

Dear Dolly.—Am a young man 25 years of age, and am to be married soon, but am entirely ignorant of the marriage customs. Will you please publish in the columns of your paper the usual ceremony for a wedding at a parsonage? Should the girl be given a wedding ring in addition to an engagement ring? Is it necessary to procure the license in the county in which the girl resides? WORRIED.

You go to the parsonage with your bride and any attendants or relatives that you are to have accompany you. The ceremony is very informal, you simply stand beside by side and take the vows. It is customary to have a wedding ring, which you place on her finger when the minister gives the word. The license must be procured in the county where the bride lives.

Dear Dolly. I am a young girl of 17. Have brown hair, blue eyes and am pretty good looking. Would like for you to advise me what to do. There is a young man and we love each other very much, but he has disappointed me several times by not calling when he promised to. Other people tell me he goes with other girls, but I do

not believe them. I am not jealous of him, but would like for you to advise me what to do, and also how often should a boy call on a girl? I don't go and run around at night. I stay at home and have late should they sit up at night. Please print this in the Friday night's Times. What finger should a girl wear an engagement ring on?

STEWARTSVILLE GIRL, R. R.

I see no good reason why the man should not go with other girls if he cares to. You haven't any mortgage on him, have you? I grow weary telling girls your age they are too young to have a steady. A man should not call on a girl more than once or twice a week. He should not stay later than 9:30 or ten at the very latest. The engagement ring is worn on the third finger of the left hand.

Dear Miss Wise.—How old is Charley Chaplin, the famous movie comedian? SUSIE.

He is twenty-five and single, Susie.

Dear Miss Wise.—If money is taken from a special delivery letter would you tell me if it would be returned by the government without the guilty party being found out?

DAILY READER.

The government will not stand good for money lost in the mails unless the letter was registered. A special delivery stamp on a letter does not insure the contents.

Dear Miss Wise.—Please print a way to can green peppers.

NEW BOSTON READER.

Canal Green Peppers.—Cut the peppers in half, removing seeds and stem; then for 2 quart jars boil one quart of water and two tablespoons of salt for five minutes. Remove this from the fire and when perfectly cold pour it over the peppers in the jars until these overflow, close jars tightly and keep them in a cool place. When wanted for use lay the peppers for several hours in cold water, changing the water twice, or boil them up for a few minutes, drain and then put them in cold water. Either of these processes will remove the brine and the peppers can be used exactly like fresh ones.

Dear Miss Wise.—Who was it that said, "The Prussian schoolmaster won the battle of Sedan."

from 7 till late in the evening, serving tea and sandwiches.

Mrs. Fred S. Ward and baby son, George Frederick, arrived today from Gallipoli to visit her parents, Mr. and Mrs. George Lockwood, and was accompanied by her aunt, Miss H. M. Lockwood, of Pittsburgh, Pa.

Mr. and Mrs. Charles Hall entertained a few relatives last evening in celebration of the 76th birthday anniversary of their mother, Mrs. Thomas Hall. Those present were Mr. and Mrs. Thomas Hall, Miss Lucy Hall, Messrs. William and Rigdon Hall, Mrs. Henry Hall and son, Mr. Fred Hall, and their guests, Mrs. Mary Hall, of Chicago, and Rev. A. K. Hall, of Detroit, Mich. At the end of the evening's pleasures delicious refreshments were served. An attractive feature of the event was the beautiful birthday cake with 76 candles.

Thirty-one members of the All Saints' Woman's Auxiliary met yesterday at the home of Mrs. Ida McElhane, in Kentucky, where a delightful all day meeting was held. Conveyances were in waiting at the lower ferry in the morning, at half after nine and they were taken to the pretty country home of Mrs. McElhane. At noon an elegant fried chicken feast was served at two long tables, beautifully decorated with fall flowers. The menu consisted of fried chicken, sweet and Irish potatoes, corn, cold slaw, pickles, olives, cake, custard pie, cheese and coffee. Mrs. Mary Hall, of Chicago, Rev. A. K. Hall, of Detroit, guests of Mrs. Henry Hall, Mrs. Macbetone and Mrs. E. L. Way, of New Matmoras, guests of Mrs. Harry Donnelly, were out-of-town guests, and others who are members were present as follows: Mesdames George F. Thomas, W. C. Ferguson, George Small, Henry Hall, Will Baker, Harry Donnelly, Thomas Nichols, Ida McElhane, M. S. Pilsley, S. J. Johnson, Emily Wilhelm, J. L. Watkins, Henry Hanson, S. S. Halderman, Stricker, Carothers, W. S. Oldfield, James Pearce, Samuel Gilbert, Hattie Russell, J. D. Bridge, E. Anger Powell, Misses Anna Rose, Josephine and Isabel Kinney, Mary K. Reed and Margaret Firmstone, Rev. E. Anger Powell.

The devotions were led by Rev. Mr. Powell, and Miss Finstane gave a missionary reading. With a little money in the treasury and several donations, a fund named the Clay B. Newman Memorial Fund was started to carry on missionary work in the parish.

Mrs. James Pearce and Miss Mary Reed played beautiful piano selections. The trip home was made about four o'clock.

The Central Presbyterian Ladies Aid Society held the regular monthly coffee social yesterday afternoon at the home of Mrs. David Barran, on Offshore street, who was assisted by Mesdames Adam Pfau, A. Graf and Brown. In spite of the bad weather there was a large number present. Mrs. G. F. Miller, of Pittsburgh, Pa., guest of Mrs. Barran, was an out-of-town guest.

Mrs. Harry Hall has as guests Rev. A. K. Hall, of Detroit, and Mrs. Mary Hall, of Chicago.

Miss Clara Sherman, who was

operated upon last week for appendicitis at Bethesda hospital, Cincinnati, is getting along nicely.

Mrs. Edgar Hall (Margaret Patterson) of Charleston, W. Va., will arrive Tuesday to visit her parents, Mr. and Mrs. T. C. Patterson, during the Korn Carnival. She will be accompanied by Mrs. D. Grinstead of Charleston.

Watch Your Children Often children do not let parents know they are constipated. They fear something disastrous. They will eat small quantities of mild laxative that tastes like sugar. Sold only by us, 10 cents.

Says Sixty Percent Of People At Fort Au Prince Are Lepers

Mrs. Henry Strickland, of Grandview avenue, has received an interesting letter from her son, Earl Strickland, who is in the U. S. Navy. Writing from Port au Prince, he says that sixty per

cent of the people there are lepers, and that no provision is made for keeping them apart from the other people. The dead are buried late at night and early in the morning in swimming tanks to in-

sure them a safe journey across the River Jordan. Mr. Strickland further writes that the climate there is very hot, and that heavy rains and high wind are common.

TO REMAIN DEPUTY GAME WARDEN

Word received Friday from Columbus stated that Harry Ball, city, had been re-appointed by John C. Speaks, state fish and game warden, as deputy fish and game warden for another year, at a salary of \$720.

Other deputies appointed were: Frank Dagenhart, Springfield; J. S. Sackett, Chillicothe; F. W. Clarke, Cleveland; Sherman C. Over, Dayton; H. C. Crossley, Smokyview; E. E. Hudson, Alliance; Frank Milne, Buckeye Lake; Charles Rachel, Akron; Charles E. Hanes, Lima; C. E. Kinnead, Mansfield.

RIVER NEWS

The steady and heavy downpour of the past twenty-four hours has caused the Ohio river to rise sharply, it reaching the 11 ft. mark here at 7 o'clock Friday morning. The rainfall, as recorded by Capt. Harry Damselley, the local river observer, was 3.31 inches for the 24 hours.

Going On Road

Carl Miller, who for the past five months has been managing the Wear-C-Well Company's local shoe store, and wife, left Friday for his home in Kendallville, Ind., for a vacation visit before taking the road for that company in Indiana territory.

Cutter "Kicked Up"

The Movies

Pauline Frederick

In "Sold" at Lyric Tonight. Tonight brings another wonderful picture in the celebrated emotional drama "Sold" with Pauline Frederick starring. It is a great big strong story, tense with vital action in every one of its five wonderful reels, a photo play that will make an indelible impression on the minds of all who see it. A drama that reaches the climax of a woman's devotion.

Tomorrow's picture is another headliner "Infatuation", a drama of stage life featuring beautiful Marguerite Fischer and Harry Pollard in four parts.

One of the most interesting things about this feature is that it is human. It is built around a story that might happen any day and has happened often. The types have been well chosen and the action rings true all the way. Some very effective scenes are beautifully handled to put over bits of action that require delicate handling. The little star impresses you throughout. She was "living" the part and for that reason she has put over some splendid scenes. There are a score of human touches that have taken this film out of the rut of ordinary features and made it a thing apart, a nicely developed study of character and a big human story. It is a picture story you will thoroughly enjoy from the first scene to the last because it is truly every inch a masterpiece. If you can possibly do so come to the afternoon shows and you will be sure of getting in to see it.

Manager Mack announces a great picture for next Tuesday in "Secret Orchard" with Blanche Sweet starring.

The Exhibit

The Exhibit has a fine picture today "The Mysterious Man of the Jungle," the story of which is as follows:

From a pretty little farm in Western America, the hero of this story is forced to flee into hiding; although he has committed no crime, the circumstances are against him, and his travels take him on a sea voyage.

The strange fate of this man makes him the companion of Bess, which respond to animal kindness, for the man himself is now little different from the roaming beasts of the jungle, and so he is left for a time.

Of course there is a love story in this, notwithstanding the difficulty of finding such where the handling of the beasts is concerned. A mysterious man brings to Africa the only girl in the world who believed in his innocence when he fled. Another strange fate, involving the life of the natives brings her into the hands of a savage chief, where her story is all but sealed. It is then that the Mysterious Man of the Jungle who has caused consternation among the superstitious natives, is brought once again in contact with human beings, but is a prisoner then to be thrown to the lions. Released of his sweetheart to fight the demands of the chief of the jungle, she brings her a similar sentence, and in the most startling climax ever conceived in a motion picture--one in which the savage beasts play their part with terrifying realism--the two meet in the

Saturday's packet departures: Klondike down for Roma at 2 p. m.; Greyhound up for Huntington at 3 p. m.; Courier for Pomeroy at 3 p. m.

den of lions.

Tomorrow's headliner is "The One Night Stage," a four-reel feature.

Charlie Chaplin at Arcana Theater Tonight

Watch the crowds at Manager Potts' popular Arcana Theater tonight. Charlie Chaplin in a brand new feature will be the headliner, and Charlie draws like a mustard plaster. Following the Chaplin feature will be "The Claw of the Law," featuring Harry Gribbon. Then will come a comedy featuring Lee Moran, the only female impersonator in the film world in "Little Egypt Malone," a scream from first to last. This will round

out one of the biggest programs of Americana, a two reel Reliance, the year. Then it only costs five cents--that is something to think about. The Orchestral music is worth more than that, but Manager Potts always gives his patrons more than their money's worth--that's why the crowds come to the Arcana Theater, always popular and getting more so.

Four Big Reels at the Majestic Theater

Patrons of the Majestic theater, Second street, will be pleased to learn that the management has decided to give four reels at each performance from now on. Tonight will see a whirlwind of "The show, the headliner being, "The

depicting war times in Mexico. This is a thrilling production and one of the greatest war dramas of the age. This will be followed by "The Madonna," a heart interest drama, while a riot of fun will result from a comedy, "Dot in the Day Line Boat". For tomorrow (Saturday) the program is of equal strength, starting off with a civil war drama in two reels, "The Tide of Fortune." This will be followed by a Reliance feature "A Breath of Summer." The splendid program will close with a one reel comedy, entitled, "Your Half and My Half," a scream from start to finish. And only 5 cents.

Local Unions Will Be Well Represented At Labor Meet

Ten union men will represent Portsmouth local unions at the Ohio State Federation of Labor Convention which convenes in Mansfield, O., on October 11 and closes on October 16.

William Abrahams will accompany the ten to Mansfield as a delegate from the Scioto County Labor Home Rule League. He will attend the Ohio Labor Home Rule League Convention which convenes on the tenth of this month. The majority of the other delegates are also delegates to the latter convention. The greater part of the work to be transacted at the State Labor Convention will be in the form of resolutions. Following are the locals and delegates:

Central Labor Council, E. E. Hise.
Bartenders International League, Louis Herder.
Brewery Workers' Union, Local No. 140, Henry Kuhn.
Carpenters' and Joiners' Union, No. 437, Harry Strong.
Electrical Workers' Union, No. 575, George Koerner.
Machinists' Union, No. 349, Fred Landerman.
Pipe Fitters' Union, No. 451, F. W. Burdick.
Stationary Engineers' Union, No. 77, George Ditty.
Street Railway Employees' Union, No. 455, George Chiek.
Journemen Plumbers' Union, Fred Burkhardt.

REPUBLICANS NAME WARD PRESIDENT

Republican leaders of the Second Ward met at the offices of Osborn and Gustin in the Turkey building Thursday evening, and organized the Second Ward Republican Club for the coming municipal campaign.

George Koerner was elected president, Henry Becker, secretary and Harriet Evans, treasurer.

Each precinct in the Second Ward will be divided into blocks and workers will be assigned to each block. The next meeting of the club will be held at the Osborn and Gustin offices on Monday evening, October 11.

If you have a room which is not occupied, you should be using **TIMES WANT ADS.**

BARGES SWEEP AWAY, WERE SOON RECOVERED

The Little Scioto river at Sciotoville was turned into a raging torrent by the heavy rain Thursday. The strong current tore away an empty sand barge belonging to the Dravo Contracting company that was moored near the mouth of the Little Scioto on the Ohio side. A barge on the Kentucky side was also swept down stream. Both barges were caught a short distance below Sciotoville.

STOCKHAM HOME IS PURCHASED

Acting for other parties, Attorney William J. Meyer purchased the J. M. Stockham home at 805 Offner street Thursday afternoon. P. W. Kilcoyne negotiating the deal. The lot measures 47 x 145 feet, and extends back to the Holy Redeemer church property line.

Mr. Meyer stated Friday morning that he was acting merely as agent, and was not at liberty to state the object of the purchase. The consideration was not made known.

Mr. and Mrs. Edgar B. Appel, of Timmons avenue, entertained at dinner Thursday evening Mr. and Mrs. A. P. Page, who have just returned from their bridal tour.

OBITUARY

Mrs. Byra C. Smith, aged 65 years, wife of Frank A. Smith, a retired merchant, formerly of Roanoke, Va., died at their home, No. 1611 Robinson avenue Thursday night, at 10:35 o'clock, from the effects of a surgical operation which she underwent for peritonitis at Hampstead hospital two weeks ago.

Mrs. Smith was brought back home from the hospital three weeks ago and has been steadily sinking ever since. She passed away surrounded by her loved ones.

Mrs. Smith's maiden name was Mitchell. She was a faithful wife, devoted mother, kind neighbor, a true friend and a good Christian.

woman, who was liked and respected by all who knew her. The family moved to this city from Virginia four years ago. Besides the husband, Mrs. Smith is survived by four sons and as many daughters. They are: James Mitchell Smith, of this city; Frank, Jr. and J. W. Smith, of Roanoke; N. A. Smith, of Locuston, Va.; Mrs. J. R. Black, of Locuston; Mrs. P. L. Killey, of Kansas City, Mo.; Mrs. R. B.

MORE BUSINESS

You are continually on the lookout for something that will promote your business the MOST at the LEAST COST. Every successful business man does this and still continues to do it. THAT IS THE REASON HE IS SUCCESSFUL.

By letting me write and design your ads, no matter what your business, you are getting nearer to real success, considering cost, than by any other investment you could put your money to.

Let me show you the business value of my advertisements by sending today for a trial ad. Send a little data along, and I'll do the rest.

My standard price is 10¢ per inch, flat.

HARLEY R. AULT
Hillsboro, Ohio.

Hatcher, of Roanoke, and Mrs. Frank Hatcher, of Washington, D. C. Mrs. Smith previous to coming to Ohio, was affiliated with the Baptist church.

The remains will be removed on an N. & W. train Friday at midnight to the deceased's native home, Bedford City, Va., where burial will take place Saturday afternoon.

Marion Young Reilly

As a severe shock to relatives and friends came the word Thursday night of the death at Skyland Heights, Cal., Thursday afternoon of Miss Marion Young Reilly, aged 17 years, formerly of this city.

Miss Reilly, who was the youngest of the seven children of the late Capt. and Mrs. W. W. Reilly of this city, had been at the mountain resort to receive the benefits of the altitude in hopes of

relieving her sufferings from asthma, with which she had been afflicted throughout her life time. She was born and reared in Portsmouth and educated in the public schools of this city, going to the Pacific Coast five years ago. She was associated as tutor in kindergarten work in Los Angeles with her sister, Miss Helen Reilly. She was a member of the First Presbyterian church of this city and had many warm friends who will be pained to learn of her demise.

Miss Reilly is survived by two brothers and four sisters: John G. Reilly of this city and W. W. Reilly, of Monte Vista, Colorado; Mrs. H. Clay Murfin and Miss Kate M. Reilly, of this city and Misses Helen and Sarah Reilly of Los Angeles. No word has as yet been received here as regarding the funeral arrangements.

SCIOTO THREATENS

Reports received by The Times Friday afternoon indicated that Thursday night's heavy rain extended entirely up the Scioto valley and these serve to increase fears for the safety of the temporary bridge here.

It rained all night at Jasper,

Pike county, and at Waverly from 3 o'clock Thursday afternoon until 9 o'clock Friday morning, and the Scioto was reported rising fast there Friday afternoon. Rain also fell throughout the night at Chillicothe, where the river just commenced rising Friday after-

noon with a stage of 3 feet.

All night rains also fell at Circleville and Columbus, where the Scioto began rising Friday afternoon. A rise of one foot was reported at Columbus up to 1 p. m. The river was still rising rapidly here Friday afternoon, but the drift running thus far has been light.

Scioto bottom land owners for the first time this season were really fearful that the rising river would reach their corn. Some consolation is found in the fact that the Ohio's rapid rise might hold back the Scioto's run out and save the temporary bridge. The Ohio river up to 2 o'clock Friday afternoon had risen five feet since 7 a. m. The government report showed that there had been from 1 to 3 inches of rainfall along the entire south side of the river. The rainfall at Ashland, Ky., was 3.21 inches.

The unusually heavy and steady rain of Thursday and which continued with increased force throughout the night has had the effect of causing all of the rivers to rise rapidly.

The Scioto began running out Thursday evening and by four o'clock Friday morning was fairly booming, running out so strongly that Henry Ruel, builder and keeper of the temporary bridge at the mouth of that stream a few hours later put men to work clearing drift that menaced the structure. The river continued rising so sharply that Mr. Ruel announced that unless there was let-up later in the day, he would close the bridge to all travel at 6 o'clock this evening.

The Little Scioto river also ran out so strongly Thursday night that some of the Dravo Contracting Company's barges were torn away from their moorings at the new C. & O. and Northern railroad bridge at Sciotoville and swept down stream. One of them was caught just above the city. The Ohio river rose about five feet during the night.

RAILWAYS TIED UP

Gallipolis, O., The Hocking Valley, Baltimore and Ohio and Kanawha and Michigan railroads are tied up in Gallia and Meigs counties today as the result of wash outs caused by a cloudburst last night. Crops were ruined and cattle drowned. Residents along Chickamauga Creek fled for their lives before the rising waters. The B. & O. bridge at Millwood was destroyed and two rail cars destroyed at Station, Vinton.

Gets Opinion In Dynamite Case

Presenting Attorney Joseph T. Micklethwait returned home Friday noon from Columbus, where he went to consult with Attorney General Edward Turner relative to the indictments against Albert Marshall for murder in the first degree, which Judge Thomas has held to be faulty. According to Mr. Micklethwait, Mr. Turner gave as his opinion that the indictments contained sufficient allegations to warrant a first degree murder charge.

Ask my customers about my work, Brehmer, the Painter. 117

SHOES
Help Make
A Man

A good dresser knows the value of the top and bottom of his apparel. He must wear a hat that suits his features--else he makes a poor appearance no matter how correct his suit may be.

Then his shoes--they must be correct in style and fit.

We are experts in the matter of Men's Dress--our furnishings prove that and the men we outfit give it double proof.

Let us demonstrate the correctness of our lines in Shoes, Hats and Furnishings.

Karnival Lieutenants Tonight
All Korn Carnival Lieutenants will meet tonight at Days' Headquarters at 7:00 o'clock prompt. Final instructions for Karnival Patrol Duty.

Great Meeting of Troop 3
Troop 3 held a splendid meeting last night at their club rooms at the First Presbyterian church. The meeting was in charge of Rev. J. W. Dunning, Scoutmaster. The business part of the session consisted of arrangements and appointment of committees for the gym opening following the Korn Carnival; arrangements for the troop play in November. A synopsis of the play was given by Scout Baggs. William Hopkins rendered a beautiful violin solo, followed by an interesting reading by Harry Wagner, entitled "Boy Scout League Pitchers." Scout Master Dunning then turned the boys loose on a bushel of peaches, after which they transferred their activities to the gym where a fast basket ball game was pulled off between the "Covenanters Boys' Class" and "Wagner's Stars." The latter won out by their fast work in the last half. The score:
Covenanters 7, Stars 15.
Wilson Baggs
Gehres Wagner
W. Monk Ballamy
O. Monk W. Hopkins
Yaple R. Hopkins

Field Goals—Wagner 3, Baggs 2, Ballamy 2, W. Monk 2, Wilson.
Punt Goals—Wagner, Yaple. Referee—Dever.

Baseball Season Closes Saturday
The Boy Scout baseball season comes to a close tomorrow with two fast games. The first will be between the pennant winning Kendall Avenues and an All Star team picked from the Boy Scout League. Batteries: Bertram or Lewis and Paxson; Hudson and Yaple.

The second game will be staged between the Tigers and the East End, who are playing a series for third position in the final league standing. Batteries: Gims and Hudson; Moon and Graf. The first game will be called at 1:00 p. m.

Attention Kendall Avenue Boys!
Scoutmaster Haislett would like to see every scout in troop 6 out tonight. The meeting will begin at 7:00 p. m., important business.
RICHARD BOYD,
Scout Scribe.

Boy Scout All Star Team
Every year a committee appointed by the president of the Boy Scout league selects from the 4 teams in the Boy Scout league an all star team. They make their selection after having carefully studied the official records, and watched the players work on the diamond throughout the season. They announce the following team this season: Pitchers, Hudson, of Tigers and Bertram, of Kendall Ave. Catcher, A. Yaple, of Athletics. The others in order: Worthington, Kendall Ave. 1b; Blake, Athletics; 2b; Fortner, Tigers; ss; Scott, Kendall Avenue; 3b; Devoss, East End; 1c; Brady, Kendall Avenue; cf; R. Hopkins, Tigers; rf.

PROGRESSIVE BUSINESS MEN MAKE SUCCESS OF KARNIVAL

Retail Merchants And Trade Board Are Real Boosters

Portsmouth's famous Korn Carnival, now in the third year of its successful operation, is the outgrowth of the enterprise and progressiveness of its business men, acting through their civic organizations.

It was inaugurated three years ago to more effectively advertise the city as a shopping center; to entertain its host of friends and shoppers with a several days' exhibition, crowded with fun, frolic and amusement, not without profit to them; to extend the hospitality of the city to its neighbors in all directions; to impress upon them that Portsmouth is a good place in which to live, to work, and to trade.

An ordinary street fair, with its usual run of fakirs, swindlers, barkers, questionable amusements, gambling devices, and other undesirable features was far from their thoughts.

What they wanted was an exhibition that would reflect credit upon the city and its varied industries, manufacturing and commercial. An exhibition that would be absolutely clean, free from every influence that would not improve the moral tone of the community and its guests from afar. One that would be elevating in its nature, and fittingly mirror the advantages of Portsmouth as a trading center.

Sentiment that had been brewing in this direction crystallized in the fall of 1913, when a trio of men from this city, J. A. Bode, Albert Zoellner and W. B. Richardson, then secretary of the Retail Merchants' Association, returned from the Pumpkin Show at Cincinnati, brimming over with enthusiasm for what they claimed could be accomplished in Portsmouth.

This sentiment grew still stronger after larger delegations of representative business men had visited similar exhibitions in other nearby cities.

It was finally resolved to give the first Korn Carnival in October of that year, and although only a few weeks were left for preparation, the directors of the Retail Merchants' Association, under the leadership of J. A. Bode, the President, went to work with an ardor that would not permit of failure.

Working under adverse criticism from some quarters, and lukewarm support from others, the committee finally succeeded in arousing the necessary enthusiasm all over the city to such an extent that by the time the first day of the Carnival rolled around, every man, woman and child in the city was a Korn Carnival booster.

The first Korn Carnival was an unqualified success, and paved the way for still greater exhibitions to come. People learned the first year that they were not being brought here to be humiliated, but that their interests were being safeguarded as much as if they were in their own homes, a fact which contributed to still greater success the following year, in spite of adverse weather conditions.

The second Korn Carnival was promoted practically the same set of men who were responsible for the initial effort, under the direction of Charles Daehler, who had succeeded J. A. Bode as president of the Retail Merchants' Association.

At the annual meeting last winter, Mr. Daehler was re-elected president, and is again at the helm this year with his customary zeal and enterprise.

The Retail Merchants' Association has had the hearty cooperation and gear of the Board of Trade, an organization that is made up largely of the same men as the Retail Merchants' Association, with the addition of the heads of the manufacturing institutions.

These two organizations are practically one working in harmony and in unison for every movement that is calculated to promote the interests of Portsmouth. Both have accomplished great things for the city and are constantly at work striving to advance the welfare of the city.

The personnel of the boards of directors of the two organizations are:

Board of Trade—President, W. B. Anderson; second vice-president, F. V. Krauss; third vice-president, Simon Labell; treasurer, John W. Snyder; John C. Bauer, L. C. Tierney, Charles Daehler, Albert Zoellner, J. G. Brown, Mark W. Selby, Albert Marting, J. W. Bannan, Jr., John McMillan, J. A. Bode; M. A. Horchow, secretary.

The office of first vice-president has been vacant since the death of the late H. S. Grimes, Portsmouth's most loyal booster, and for many years President of the Board of Trade, an office he was compelled to relinquish before his death on September 1st.

Charles Daehler, President, and chairman of the Korn Carnival committee.

Maurice A. Coe, secretary.

Oscar Mitchell, assistant secretary.

W. W. Anderson, chairman of committee on parades.

J. A. Bode, chairman of farm products committee, fruit committee.

William H. Bort, chairman transportation committee, chairman of Bills' Parade committee.

Samuel Horchow, financial secretary.

Ilen G. Harris, chairman finance committee, chairman of Choral Contest committee, chairman committee on brass bands.

Albert F. Marting, chairman of Roosters' Parade committee, grand marshal of Roosters' Parade.

E. W. Richard, chairman advertising committee, Choral Contest committee, Children's Parade committee.

St. Straus, chairman amusement committee, chairman Children's Parade committee, chairman "Two-Mile Dinner" committee, chairman Ye Olde Fiddlers' Contest and Quartette Contest committees, Choral committee.

William Tritscheller, chairman committee on decorations.

Albert Zoellner, treasurer finance committee.

F. W. Sheridan, chairman Mardi Gras Parade committee.

Frank Appel, chairman city schools' exhibit, Choral Contest committee, Children's Parade committee.

E. O. McCowen, chairman rural schools' exhibit, Children's Parade committee.

Dr. W. J. Keyes, chairman fruit committee.

Adam Geisler, chairman poultry committee.

John Rottinghaus, poultry committee.

Captain James W. Smith, chairman manufacturers' exhibit, Grand Marshal of Fraternal and Children's parades.

George Wurster, chairman booth allotment committee.

Isador H. Goodman, booth allotment committee.

John Sommer, booth allotment committee.

Ray McElhenny, chairman Fraternal Parade committee.

Otto Zoellner, chairman Farmers' Parade committee, Grand Marshal Farmers' Parade.

Ralph Marting, chairman of farm produce exhibit.

A. Schapiro, chairman of pumpkin and squash exhibit.

Oscar Brunner, chairman of exhibit of bread, cakes, jellies, canned fruits, butter.

Dan Thomas, chairman of candy exhibit.

Henry Stahler, chairman vegetable exhibit.

Walter Wilhelm, chairman small grain exhibit.

John McMillan, executive committee.

Lowest Final-Cost-Per-Mile

Actual tire expense depends on one thing, and just one thing—viz: the final-cost-per-mile.

"Nobby Tread" Tires deliver more miles for less money than any other tires in the world.

"Nobby Tread" Tires

are adjusted upon the basis of

5,000 Miles

—but the great majority of "Nobby Tread" users secure vastly more than 5,000 miles, using proper inflation.

"Nobby Tread" Tires are today by far the largest selling high-grade anti-skid tires in the world.

Baesman, If Elected, Intends To Install Bridal Chamber

Prospective bridegrooms are sure to vote for Fred W. Baesman public safety department clerk, who is a candidate for justice of the peace on the Democratic ticket.

Baesman is a firm believer

in the dignity of marriage and has made quite a bit with his announced policy of treating bridal couples with the respect that is due them, should he be elected.

Mr. Baesman means to fit up a regular bridal chamber

in connection with his office, with a canopy, neat looking chairs, potted plants and everything that will tend to give the place a most inviting appearance. "Take it from me I'll tie the knot as she should be tied," Mr. Baesman said Friday.

Marshals, Colonels And Aides Are Named For The Bill Parade

Chairman Bill Burt of the Bill Parade on Friday announced the marshals for the pageant as follows: Bill Clayton, Bill Smith, and Bill Burt. The colonels will be as follows: First Division, Colonel Bill Dacher, aide, Bill Oldfield; Second Division, Colonel Bill Gordon, aide, Bill Thornton; Third Division, Colonel Bill

Crichton, aide, Bill Ferguson. The parade will form on Gallia street in front of the high school building. The first division will march on Gallia street, just east of Waller. The second division forms on Gallia street east of Union. The third division will form on Waller south of Gallia street. This section consists of automobiles, all

noted Bills and other Bills. The Buckeye band will head this division.

All carriages, wagons and vehicles of any kind will form on Waller street north of Gallia street. Also Bills on horseback.

The parade will be headed by the police to be followed by grand marshals, all Bill band and several appropriate floats.

The River City band will head the first division and the second division will be headed by the Portsmouth Brass Band.

The second division will include Bills on foot and all visiting Bills.

All Bills are expected to be equipped with sufficient red fire to give the magnificent pageant a picturesque touch.

All Bills, who are not able to walk in the parade should notify Chairman Burt and he will provide places for them in automobiles.

Every Bill in the city and country will receive a card of instructions about parade in next day or two. More than 1,000 cards were mailed Thursday evening. Did you get yours, Bill?

Will Return To Cincinnati

Robert McCormick has resigned his position with the N. & W. and will return to his former home in Cincinnati.

U. S. WINS "MOVIE" ACTION

Philadelphia, Oct. 1.—The United States district court today decided the anti-trust dissolution suit against the Motion Picture Patents company in favor of the government.

CHOLERA RAGING IN GALICIA

Amsterdam, Oct. 1.—(Via London, 9:23 a. m.)—Cholera is raging in Galicia, the Telegraph says, and, according to the home office, three hundred cases have been reported.

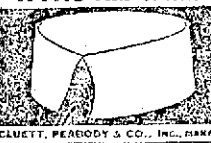

Tusseys Missing

The police have not found any trace of Zach and Oscar Tussey, who are said to have decamped Tuesday, taking with them clothes belonging to their cousins, J. C. and Norman Tussey. The latter also claims to miss \$25.

COMMITTEES TO REPORT

Various committees of the Two Mile Dinner will hold an important meeting tonight at 7:30 in the Masonic Temple. A report on sale of tickets will be made.

E. W. GRICE IS MADE GEN. SUPERINTENDENT

Richmond, Oct. 1.—The creation of the new office of general superintendent of transportation was announced today by President George W. Stevens, of the Chesapeake & Ohio railway company. The position will be filled by E. W. Grice, who has been an assistant to the president and in charge of the transportation department for the past eighteen months. In many respects Mr. Grice's position will be similar to that of general manager. He enters upon his new duties tomorrow. Mr. Grice has been with the Chesapeake & Ohio since 1890 when he became chief train dispatcher at Clifton Forge, Va.

Eagles Initiate Kuhn, Then Plan For Carnival

Henry Kuhn enjoys the distinction of being the first candidate to be taken into River City Aerie, Fraternal Order of Eagles, in their new home at Second and Court streets. He was initiated with impressive ceremonies at the regular meeting Thursday evening. Further details of the Korn Carnival activities that will be participated in by the Eagles were taken up at the meeting. The lodge will march behind the famous Twentieth Century band of Chillicothe, which the members have hired for the occasion, and they will wear special marching costumes, which will give their section a distinctive flavor. Many visitors are expected from Ironton, Chillicothe and other places, and they will be entertained with an open house after the parade, in which music and refreshments will be in abundance. Another special meeting to make the final arrangements will be held Sunday afternoon at the lodge hall.

JR. O. U. A. M.'S TO KEEP OPEN HOUSE THURSDAY

Announcement was made at the meeting of the Jr. O. U. A. M., Thursday evening that large delegations of members from Chillicothe, Ironton, McDermott, Stockdale, Wakefield and Harrisonville were coming next Thursday evening to take part in the Korn Carnival parade. The regular lodge meeting will follow the parade, and will be featured by an open house and social session. The Jr. O. U. A. M. band will head the marching delegation of the order in the parade and special uniforms will be worn. Arrangements for a big social to be held on the evening of October 20 for the benefit of the band were made at the meeting. A committee consisting of Charles Martin, P. W. Quiekel and Frank H. Schmidt was named to have charge. Three candidates were initiated into the mysteries of the first, second and third degrees, Elmer Crain and Charles Noff of this city and Earl Troutman of Firebrick, Ky.

Dismissed Charge

A charge of assault preferred in police court Friday morning. The mayor had no sympathy for the woman because of her own continued misconduct and for her neglect of their little baby.

HAD STRENUOUS TRIP

Capt. Fred Hughes, of the 11th Top engine company, and family enjoyed their visit to the Jackson Hall Festival Thursday, but had a strenuous time on the return trip. On the Divide they helped pull a large touring car out of a creek after breaking a rope and chain. Later in passing another car they struck a chuck hole and got their heads bumped and to top it off, ran into the big rain.

Job Of Handling Campaign Is Given To Sheriff Pete Smith

Sheriff E. W. Smith was chosen to lead the coming Republican city campaign at a meeting of the candidates and Republican workers, held Thursday evening at the sheriff's office. D. W. Gustin is secretary, and George Koerner, treasurer.

An active campaign will be started immediately after the Korn Karnival, and permanent headquarters will be established until after the election. It is planned to have the headquarters open during the Korn Karnival. The committee is figuring on the second floor of the Haldeman building on Gallia street, above the Royal Savings and Loan Company.

The campaign committee consists of twenty members, and in addition, a general committee of one hundred members was named.

The personnel of the two committees is given below:

Republican Executive Committee:
E. W. (Pete) Smith, chairman;
D. W. Gustin, secretary; George Koerner, treasurer; E. K. S. Clingenbeard, Don Clark, William Dragan, Sr., John F. Eckhart, Nate B. Gilliland, E. E. Hise, Chas. E. Hard, G. F. Jaynes, Cread

Milstead, Roy McElhanev, W. H. McCall, Frank Stanton, George W. Shepard, Will Sellards, Dan R. Thomas, Fred N. Tynes, P. W. Young.

Republican Campaign Committee:

LEASES NEW ROOM

J. T. Hamilton, manager of the Famous Tea Company's local store, has just made announcement of the fact that he has secured a lease on Lehman Bros. room at No. 222 Fulton street.

The tea and coffee store will be located in its new quarters Saturday. The company's store has been located on the second floor of the Security Bank building for the past three years. Steadily increasing business necessitated larger and more convenient quarters. It has become the tendency for all of the company's chain of stores throughout the state to move from upper stories to ground floor rooms during the past year.

Coming Back For Karnival

Mrs. Melissa Brunham, wife of Police Officer Theo. Brunham, who has been the guest of relatives at Charleston, W. Va., the past week, will visit in Huntington, Saturday, before returning home for the Korn Karnival.

DOUBLE HEADER

Chillicothe, October 1.—C. W. and W. B. Cravins are brothers, and both are B. & O. railroad engineers. A year ago they married sisters and bought a double home, in which they live. Today the stark visited both families, the births being six hours apart. C. W. is the father of a boy and W. B. has a daughter.

HAS RETURNED TO HIRAM COLLEGE

After spending the summer vacation with his parents, Mr. and Mrs. Newell Roberts of 1406 Sixth street, Orville Roberts has returned to Hiram College, where he figured prominently in the athletic side of the college last year.

SOUNDS SUMMERY

The Portsmouth Hat company began marking out straw hats Thursday for its spring trade. The company's traveling salesmen will take the road immediately after the Korn Karnival with the best line ever carried.

BIG SUM WAS COLLECTED

The mayor's office collection of \$200 for September amounted to \$210 in city cases and \$297.35 in state cases.

Chauffeur Has Diphtheria

Henry Harrison, chauffeur for William Atkinson, who resides at Lincoln and Grant streets, developed diphtheria Thursday and he is under quarantine at his home at Third street, near Waller. As a precautionary measure, Mr. and Mrs. Atkinson's two children, Virginia and Elizabeth, have been administered anti-toxin.

JUST IN TIME FOR KARNIVAL

The monthly pay-checks of 100 town and other city employees were distributed Friday.

Any Luck, Doc?
On Frank Spencer has returned from a squirrel hunt in the vicinity of Turkey Creek.

TWO MILE DINNER WILL BE COMMUNITY LOVE FEAST

This Feature Will Add Distinct Touch To The Opening Day

Leave it to the Korn Karnival committee to hit upon something entirely new and original for the opening of the big exhibition. In the "Two Mile Dinner" at noon on Wednesday, the opening day, they have arranged something of the like which has never been attempted in this section of the country, and a feature that will start the Karnival on high gear at the very outset.

It will be a community love-feast, the bringing together at one huge table, of the financier, the professional man, the manufacturer, the merchant and the laboring man, out in the open air, amid nature's surroundings. All troubles and cares will be laid aside for that hour, at least, and Portsmouth will assemble as one happy family to auspiciously inaugurate its third Korn Karnival and partake of a royal jubilee.

One huge table, made of planks laid upon wooden horses, with openings at street intersections, will be laid out Washington street, from Second to Eighth street. Spurs will extend east and west on Fourth, Fifth and Sixth streets, each a square long.

Each block will be assigned to some local church, the ladies of which will serve the beautiful menu, uniform throughout the entire length of the dinner. The menu will consist of an entree of corn, a meat sandwich, baked beans, potato salad, pie and coffee.

Promptly at the noon hour, the

whole city will get together in the "Two Mile Dinner" on the streets. Whistles will blow, bells will ring, pandemonium will break loose, as a signal that a bunch of hustling citizens, who do things, who have finished their preparations, are about to dine together, preliminary to entering upon a week of entertainment of their visitors, with a united purpose, that of showing that Portsmouth is the "Best Little City in the Country."

Brass bands will parade up and down both sides of the tables, playing stirring music as the diners partake of the good things that have been prepared for them.

Moving picture cameras will reel off hundreds of feet of film, portraying the novel sight, which will be shown in every city in the country and some of the foreign countries.

Each block will permit of 225 persons standing on both sides of the

table, and many blocks will serve a second table. Tickets have been selling rapidly, insuring a capacity turnout.

Ladies of the different churches have made ample arrangements for the dinner, and everyone who comes will be served.

Local churches that will take part in this big feature are: The First Christian church, the Fourth Street M. E. church, Highland M. E. church, Trinity M. E. church, German Evangelical church, Manly M. E. church, First Presbyterian church, Holy Redeemer Roman Catholic church, All Saints Episcopal church, First Baptist church and Second Presbyterian church.

It will be an awe-inspiring sight, one that will live long in the memories of those who are privileged to witness it. No one who is figuring on attending the Korn Karnival at any time should miss the Two-Mile Dinner.

Cause of Worry.
Competent physicians are said to be agreed that most of the dyspepsia so prevalent today is due to nothing but worry. As in other cases, "competent physicians" confuse the cause with the effect. Dyspepsia is not due to worry, but worry is due to dyspepsia. All chronic dyspepsia worry, while no person will worry who has sound digestion and a clean colon.

Concrete.
Concrete is made of a mixture of pebbles, stones and sand or other suitable material, to which is mixed a small proportion of lime or cement. Owing to the gradual setting and hardening of this lime or cement, the mass changes from a semifluid to a hard, compact substance, as hard as, or harder than the best building stone produced by nature.

Brown Spots on Old China.
The beauty of old china is often destroyed by brown spots which appear on the surface, says the Toledo Blade. An effective way to remove these is to bury the dish in the earth, covering it completely. The darker spots require more time to remove them than the lighter ones. This method will not harm the most delicate china.

Economy in Gas.
When I have a couple of hours ironing to do, or I have meat or vegetables to cook which require two or more hours' time, I put a teakettle of water on the unlighted burner next to the one I am using, so that when my ironing or cooking is done I have a teakettle of almost boiling water without burning any gas for that purpose.—Exchange.

FRECKLES

Don't Hide Them With a Veil, Remove Them With the Othine Prescription.
This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by Fisher and Streich under guarantee to refund the money if it fails.
Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.
Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

Has Broken Leg But Keeps Tab On Team

Dec. York, Portsmouth High School's quarterback, who had his left leg fractured several days ago in football practice, is getting along as well as could be expected at his home on Highland avenue. He is keeping in close touch with the

team and is kept informed on every new play that is started. He will be out of the game all season. He is a lettered man and would have greatly strengthened the team. York will probably be able to get out to the last few games and see his teammates striving for more scraps.

Portsmouth Will Have Six Football Teams This Season

The Portsmouth City is well represented on the football field with many eleven teams this season. There are six teams in the city and New Boston. The teams are well balanced and will play a successful season.

(Hazzards colored)—Capt. George Everett.
New Boston Elevens
Archie—Capt. Belle Dalley.
Thomas—Capt. John Emmert.

ITCHING, BLISTERED SKIN—ERUPTION ALL HIS LIFE, NOW CURED

Nov. 16, 1914—"All my life, until about a year ago, I was troubled with itching and sores over my entire body. The itching and burning was terrible, and I could hardly sleep. I used many treatments that were unsuccessful and did not give me any relief. I started using Resinol Ointment and Resinol Soap and they helped me wonderfully. I WAS RELIEVED AT ONCE, and after about two dozen applications I can say that I was free and cured of that awful disease. My skin now is as clear as crystal." (Signed) Geo. Whiteberg, Jr., R. F. D. No. 54, Calaisville, N. Y. Resinol Ointment and Resinol Soap are sold by all druggists.

IS YOUR TOILET SOAP SAFE?
Many toilet soaps contain harsh, injurious alkali. Resinol Soap contains absolutely no free alkali, and to it is added the Resinol medication. This gives it soothing, healing properties which clear the complexion, comfort tender skins and keep the hair healthy.

Firm To Move

It has been rumored in business circles for several days that a well known Gallia street firm will soon move to one of the most prominent corners on Chillicothe street.

In 19 Years N. & W. Has Spent \$130,123 000 On Improvements

In 19 years, under the management of Mr. L. E. Johnson, the Norfolk & Western investors have spent \$130,123,000 on improvements of that system. Of this amount, \$27,531,515 was spent for improvements and additions to the system during the year 1914. The total amount of improvements was \$27,531,515. Of this amount, \$27,531,515 was used for maintenance of way and the upkeep of structures and \$5,311,419 was spent for the repair of equipment. One of the largest items in the year 1914, which was spent for expense account is shown in that year's track work and \$1,630,000 spent for traffic, which was \$12,121,000. During the year 1915 the company operated N. & W. paid out for taxes \$1,578,696 and distributed as dividends \$7,396,293.

EAST PORTSMOUTH IS COMING TO THE FRONT

East Portsmouth, better known as the Terminals, was until the last two years, a village to itself. The lively little suburb has since been annexed to the city and the city's corporation line was extended to the eastern line of the Buck and Snyder fields, known as the old circus grounds.

The suburb has water service, storm and sanitary sewers, gas, electric lights and paved streets. Street car tracks are laid on three of its seven streets. The main thoroughfare, Gallia street is paved and Walnut street and Norfolk avenue are ready to pave.

The Terminals has been built around the Norfolk and Western shops where hundreds of men are employed daily. The extensive N. & W. yards form the southern boundary for the suburb and prevent further building in that direction. With the large N. & W. railroad interests came the R. R. Young Men's Christian Association building, the home of a large number of the railway employees. Portsmouth's Y. M. C. A. ranks among the best in this section of the country. Every latest improvement is to be found in the institution. Several hundred families reside at the Terminals.

The two groceries, three restaurants, shoe repair shop, two barber shops and pool room have established trades.

The populace of the suburb have been favored in the past year by the erection of a Tabernacle that serves as a house of worship for all. The Garfield school building recently completed is within easy reach of every home in the Terminals.

COLD WEATHER RHEUMATISM

Why should rheumatism, a disease of the blood, be worse in cold weather than in summer?

The rheumatic poison in the blood is the poisonous cause of the disease. If you have the pain in your blood you may have rheumatism whenever the exciting cause sets it to action. Cold weather and dampness are exciting causes of the disease. They excite to action something already in the blood, something that you cannot get rid of if you would be free from rheumatism.

What this something is, nobody knows. Not very long ago it was thought to be uric acid. Many doctors now think it a microscopic organism or a specific bacillus, but they cannot find the bacillus.

It is a known fact that in rheumatism the blood becomes thin rapidly. Thinning up the blood relieves the rheumatism and that there will be no return of the rheumatism as long as the condition of the blood is maintained. Dr. Williams' Pink Pills are recommended for rheumatism because they keep the blood rich and red and free from rheumatic poisons.

The book, "Building Up the Blood" is available at the treatment. Send for a copy to the Dr. Williams' Medicine Co., 100 N. Y. Your own druggist sells Dr. Williams' Pink Pills.

NEW PASTOR WELL PLEASED

Rev. George H. Creamer, new pastor of Sciotoville M. E. church has received the last of his household furnishings from Rushville, Fairfield county and is nicely located in the church parsonage.

Rev. Creamer delivered his first sermon in his new pastorate last Sunday morning. The members of the church are very well pleased with Rev. Creamer and the minister and his family have already made a large number of friends. Rev. Creamer is married and has four children, two sons and two daughters, Gail, Warren, Rachel and Martha.

Go Get Your Boxes For Fruit Display

Apple growers in Scioto county should bear in mind that all fruit displayed during the Korn Carnival must be displayed in boxes provided by the Korn Carnival committee.

Many of the exhibitors are securing their boxes in advance to avoid the delay in sorting the apples after they arrive here.

STRONG DEMAND FOR STEEL BARS

Cleveland, Ohio, October 1.—The Iron Trade Review today says:

"While many rumors of steel works mergers float about and disturb the stock market, the sale of the Midvale Steel Co. to Mr. Corey and associates is the only actual transaction recorded and the trade is not expecting anything of the importance indicated by rumors, although the union of the Cambria and Pennsylvania Steel companies may come at any time.

Demand for semi-finished steel bars and wire for export continues extremely heavy and mills are very conservative about contracting for delivery after Jan. 1. Prices for current delivery on nearly all products have advanced from \$1 to \$2 per ton. There is a lull in pig-iron buying, but prices are firm and another buying movement is expected before long.

Demand for lathes for export continues unabated and orders now being negotiated include from 3,000 to 4,000 of these machines, most of which are for delivery after Jan. 1, as manufacturers cannot give earlier delivery.

WILL VISIT SCENES OF FORMER GLORY

John Jackson, the popular Turkey building barber, expects to take in the final N. & W. excursion of the season, Sunday, and, incidentally, get his initial peep at the Union Central skyscraper in Cincinnati. Time was when "Jack" was a Cincinnati himself, and no prouder person walked the streets of the Queen City than he, when he served as messenger of the late Judge A. C. Thompson. Putting a favorite Havana of the noted jurist between his pearly teeth, and vigorously

swinging a nobby walking-stick, as he made his way to the post-office after mail, "Jack" was the envy of the colored populace. But "Jack" has settled down, and like many others has decided to spend his future in his native place, which he feels after all is the best town on the map.

Vanceburg Shopper
J. W. Sears, of Vanceburg, Ky., was in the city shopping Thursday.

The buoyancy of youth and the solid character of maturity are expressed in

HAAS

Finest of Clothes Ready-To-Wear

Editorial

This store is ready for a wonderful fall business!

Not for one day has it hesitated in pursuit of plans, which I believe, will make this store during the coming season Portsmouth's center of interest and discussion wherever the progress of the Peerless City is the topic.

I have never listened to the pessimist—I find less reason than ever to do so now.

I can see nothing but signs of prosperity already here and more prosperity to come and my great anxiety is that this store may not be found lacking when opportunity presents itself to demonstrate my abiding faith in this city's great future, in no matter what form or at no matter what time.

Many heads of great factories are wondering if this city is looking forward to greater Fall activities than most.

This I cannot say but I do know that this city right now is busier than most people realize and the Fall season is the door just swung open upon a wonderful new era of progress and prosperity—and I am ready for it.

Felix Haas

ALWAYS SOMETHING NEW

Own An ESTATE TRIPLE EFFECT and "FRESH AIR" Baking Range!

The Stoves That Stay In The Family!

Estate Triple Effect Gas Heaters

The original and only genuine "Triple Effect." The best known, most successful but withal the most widely imitated natural gas heater in the world.

It works like a furnace because it is built like one. Heats not only by radiation and reflection but by powerful hot air circulation as well. Heats all the rooms of an average size house up stairs and down stairs just as effectively as a furnace and at approximately half the fuel cost. Made in three sizes.

Come in and inspect them.

The Estate Patented Ventilated Bake Oven

THE GAS RANGE THAT BAKES WITH FRESH AIR

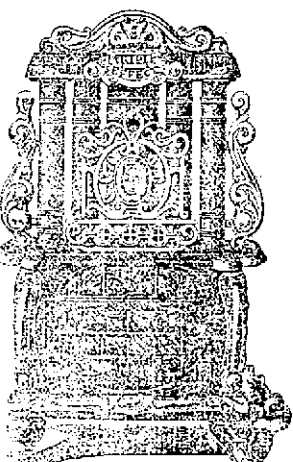

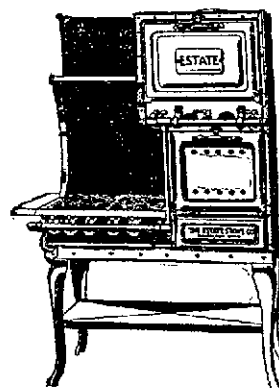

You sleep, work and eat where there is fresh air; the various places where your food is kept are well ventilated—why should not your food be baked or roasted in a continuous current of heated, sterilized fresh air?

The scientific construction of the Estate Ventilated Bake Oven makes fresh air baking possible.

Fresh air is taken from outside the stove. On its way to the oven, this air absorbs and is sterilized by the intense heat radiating from the oven plate-sheet which is wasted in other gas range constructions.

This air never comes in contact with the gas flames. When it passes into the oven, it circulates evenly and uniformly throughout the oven—top, bottom and sides, and finally leaves the oven through the holes in the top oven plate. This is fresh air baking.

CITY IS DRENCHED BY A RECORD RAIN

The heaviest rainfall that has fallen in the city since Weather Observer Dr. Harry Schirrmann was placed in charge of the local weather bureau was recorded between 12:30 Thursday afternoon and 7 o'clock Friday morning, the unprecedented rainfall amounting to 2.43 inches. This means that almost three and a half inches of rain fell in the

city within eighteen hours and a half. The rain started in very mild and gently Thursday afternoon, and with each succeeding hour that was clipped off it increased in intensity and came down in torrents practically all night. There was no let up until 7 o'clock this morning, when the rain slackened into a misty

Rich, Dark Hair
With Sage Tea

Your gray, faded hair will come back quickly to its natural rich, dark color if you apply Sulpho-Sage. This good old-fashioned sage tea and sulphur mixture, so highly recommended by specialists, works so gradually and evenly that no one will know that you are using it. Entirely unlike dyes—perfectly harmless. Stops dandruff, itching, makes hair fresh, glossy, beautiful. Size: 25¢; 50¢; 1.00; 2.00. Refunds price if it fails. Clifton Chem. Co., Newark, N.J.

THIS BILL TIPS OLD BEAM AT 214

One of the youngest as well as biggest Bills in the Famous Bill parade will be none other than Bill Bierley of Chillicothe, Ohio. He is only nine years old, yet he tips the beam at 214 pounds.

It looks as though George Stallings will have to hand over that Miracle Man crown to Pat Moran. Pat's worked a few miracles that are not in George's book.

Verdict Of Guilty

A jury in common pleas court Thursday afternoon returned a verdict of guilty in the case of Bernice Brown against George Sparks, a paternity suit, after deliberating but a short time.

Attorneys for the defendant gave notice that they would file a motion for a new trial. Attorney N. B. Gilliland represented the plaintiff, and Blair and Kimble the defendant, who is married and resides in this city.

BETTER SIDEWALKS NEEDED ON GALLIA ST.

The mayor has called the attention of the public service department to the need of sidewalks the entire length of the north side of Gallia street, from Young street to East Portsmouth.

The completion of the new Garfield school makes this improvement needed more than ever, says the mayor, for otherwise children are compelled to use the street. The solicitor will be asked to go over the matter with property owners.

WILL ATTEND FUNERAL

Henry E. and Albert Burling left Thursday for Wilhelmina, Mo., to attend the funeral of their sister, Mrs. J. J. Kellison, who died Wednesday morning. Miss Wilhelmina for sometime nursing Katherine Kellison, who has been ill with typhoid fever.

HISTORIC WEST END IS KEEPING UP WITH TIMES

The West End, the original part of Portsmouth, and where pioneer citizens spent their days in activity and laid the foundation for her future greatness, is now more in the spot-light than ever because of that most interesting sight, the newly completed \$300,000 county bridge across the Scioto river, which means so much to the future of the city.

The West End, too, despite the steady march of progress eastward, continues to hold its own in a commercial way.

The West End still remains the hotel district of the city, the leading shopping center for West Side

and Kentucky farmers, the feeding-fodder concerns, shoe factories, ice wholesale and jobbing houses of factory, a gas engine plant, wholesale drugstore, the ice refrigerating plant, broom factory, toy pistol factory, toy, popcorn factory, flour mill, are thriving as in days gone by, taking place powder factory, job printing Here and there the big manufacturing plants, new B. & O. S.W. machine plant, Washington Hotel, and rapidly plant, shoe car factory, cross the yards, the transfer companies, the yards, brick yard, stove foundry, one of the finest and best equipped shoe, broom, yard, retail groceries, shoe last factories in the country, furniture stores, shoe stores, shoe the only brewery in the city, most of goods store, hardware stores, fish the wholesale liquor establishments in fact, every corner stores, food of the city, the various big wholesale stores, meat stores, bakeries, music groceries, dry goods and shoe-making and furniture, grocer-

houses, express companies, banks, blacksmith shops, wool and hide depots, stogie and cigar factories, meat markets, storage houses, hardware stores, dental parlors, millinery stores, post and stores, telegraph offices, plumbing stores, confectioneries, veterinary hospitals, jewelry stores, motor boat agencies, drug stores, patent medicine stores, restaurants, second-hand stores, tailoring stores, clothing stores, churches, public and parochial schools.

A half-hour's launch ride from the West End down the river brings one to the big dam the government is constructing across the Ohio river.

ALL SAINTS LADIES WILL SERVE MEALS

The ladies of All Saints church have secured the Esselborn property on Chillicothe street adjoining the Grand Opera House building and will open a restaurant on it for the Kern Carnival. They will serve meals at all times and are at work decorating their place.

Bigelow Gets Room

Work has been started getting Mrs. E. L. Feyler's business room at 117 Second street in shape for the Bigelow M. E. church restaurant during Korn Carnival week.

CLEAN STREETS FOR THE BIG KARNIVAL

To Contractors and Builders:—
The approaching week brings the
Kern Anniversary. The committee re-
quest that to as great extent as
possible contractors and builders
remove from the streets upon which
are to be erected booths and most
of the crowd assembly all material
of whatsoever kind, that is not ab-
solutely necessary to carry on the
work in progress.

To a great number of people that
will be attracted to Second, Chillico-
the, Gallia and all of the inter-
section streets will be such as to re-
quire all possible space to insure
safety for the people.

Many parades are scheduled
among them are to be children,
whose interests it is our desire to
closely guard.

If we are all cautious, the enter-
tainment can be completed without
misfortune of any kind. Our streets
are narrow and in order to accom-
modate every one, clearance from

The Liver is the Road to Health

If the liver is right the whole system is right.
CARTER'S LITTLE
LIVER PILLS will
quickly awaken your
stagnant, clogged-
up liver and cure
constipation,
apert stomach,
acid, in-
digestion,
jaundice,
loss of appetite, sick headache and dizziness.
Purely vegetable. You need them.

Small Pill, Small Dose. Small Price.
The GENUINE must bear signature

A black and white illustration of a crow or raven perched on top of a box of Carter's Little Liver Pills. The bird is facing left, with its head turned slightly towards the viewer. Its body is covered in fine, detailed feathers. The box it sits on is rectangular and has the brand name "CARTER'S" at the top, followed by "LITTLE LIVER PILLS" in large, bold letters. Below that, there is smaller text including "PURELY VEGETABLE" and "MADE IN U.S.A.". The background is plain white.

Ratliff Buys An Interest

Van Ratliff on Thursday purchased a half interest in the Biggs house barber shop and the firm henceforth will be known as Hager & Ratliff.

FREE AMUSEMENTS TO BE CLEAN AND HIGH CLASS

AMUSEMENTS

Earl, famed high wire

Richards, noted equilibrist, upside down dancer. Trained Roosters, said to be the best act in the amusement

and Paul, a clever jugglers and fifty They perform stunts on horizontal

well Trio of acrobats skilled engagements in own vaudeville theatre country.

FIFTY TRAINED ROOSTERS.

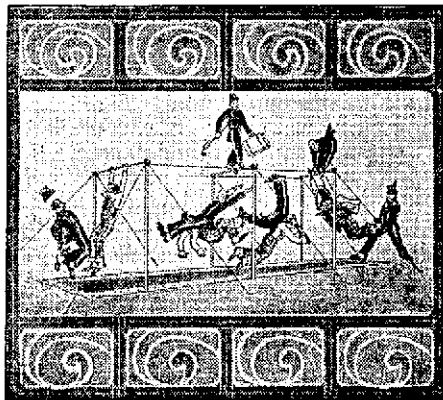

Will be an act that will be worth coming miles to see. These feathered boys perform many novel tricks.

WHERE YOU WILL FIND 'EM

Free attractions for the Carnival will be located as follows:

Fifty trained roosters, Second and Chillicothe. Howell Trio, acrobats, Seventh and Chillicothe. Leo Earl, high wire performer on Gallia street, wire to be suspended from Sun theatre building and the Horehow building.

Richards, famed equilibrist, at Gallia and Findlay. Leroy and Paul, horizontal performers, Market street esplanade.

LEROY AND PAUL.

Clever performers on the horizontal bars, who will fill an engagement here during the Carnival.

city to see. These roosters do a little of everything. They play instruments, walk tight ropes and do a lot of funny stunts. The act is sure to make a big hit with the little folks.

Leo Earl and Paul form a clever team of jugglers. They execute a number of sensational feats on the horizontal bars and will have

an act that will be away from the beaten path. This pair has played in all the leading vaudeville theatres and will give fine satisfaction.

The Howell Trio of acrobats will also be on the program. They are all artists and perform a lot of new acrobatic stunts. Their work is clean and snappy.

ROOSTER'S ROOSTERS

has left nothing undone in the way of amusements that go to add a touch of originality and wholesome entertainment to the rollicking big Carnival.

Leo Earl, a high wire wizard, is one of the attractions booked for the Carnival. He comes endorsed as being one of the most original wire performers who ever glided over a wire. He features his act with fireworks, carries a man on his back, stands on his head and performs almost unheard of feats on the wire. He is sure to please during his local engagement.

Jack Richards, equilibrist and a noted upside down dancer, is on the amusement program and he will have something new to offer in his line of work, as he is said to be a finished artist.

The act of 50 trained roosters will, itself, be worth a trip to the

Scioto County Now Boasts Of Her Splendid System Of Well Paved Roadways

Scioto county is one of the pioneer counties of the state in permanent highway improvement, and few counties in Ohio can boast of a more extensive system of permanently improved roads than Scioto.

Five years ago, a system of highway improvement was tentatively adopted by the county commissioners, which, when completed, will mean that every main market road in the county will be permanently improved.

At the end of the county to the west, ten years ago, the road from Gallia to New Boston was a mere trail, and now, with the result of the county now boasts of a permanent improvement.

The road from the corporate limits of New Boston, five miles of paving has been completed, and one mile more to be completed Sunday night, and the road will be completed before the first of the year. The first four miles of the road, and the last three, will be completed by the first of the year.

It is hoped to complete the road to Lancaster next year, and to complete the road to the Pike county line by the year.

member 15th. Travel can divert from Gallia pike to Rhodes avenue at the corporation line, giving a continuous paved roadway from Portsmouth to beyond Sciotoville, about seven miles, after November 15th. Gallia pike will also be paved from the Portsmouth corporation line to connect with the paving east of New Boston next spring, the contract having been already awarded.

The Portsmouth-Buena Vista Pike—One mile of brick paving opened for travel beginning at the intersection of the upper river road and extending west past the county line. Further improvement to be undertaken next year.

Munich's Roman Pike—Contract for two miles of paving awarded, work on which has already been started. Portsmouth and Jackson Pike—Preliminary survey for two miles of paved road already started, and work will be completed next year.

On November 15th, the new four-mile road, a macadam roadway, connecting the new Scioto river bridge with the upper river road will be thrown open to travel.

All of the improvements listed above, except that lying in the municipalities of Portsmouth and New Boston, and the two-mile road, were built under the supervision of the state highway department, and will be maintained for all time by the state.

Thousands of people go through TIMES WANT ADS every night.

PIMPLES SPREAD ALL OVER HEAD

Severe Itching and Burning. Red and Sore. Kept Awake at Night with Itching. Used Cuticura Soap and Ointment. Head All Healed.

2508 N. Hamilton Ave., Chicago, Ill.—

"My scalp trouble began on the lower part of my head with severe itching and burning, forming into lumps or plaques which spread all over my head. These would itch something terrible, getting red and sore and after some time they got hard. My trouble always seemed to be worse. Nights when I would take down my hair and comb it the scales were so thick that I would have nothing but scales in my comb."

"I had had the trouble six months when I heard about Cuticura Soap and Ointment and sent for a free sample. The itching had kept me awake at night but when I used the sample I had better rest. I bought a box of Cuticura Ointment and bar of Cuticura Soap and used them every night and morning for four weeks. My head was all healed and I would never wash my head now with anything else but Cuticura Soap." Sample Each Free by Mail. With 25¢, 25¢ box 25¢ regular. Cuticura Soap and Ointment, Dept. T, Boston. Sold throughout U.S.A.

THE NEW DISTEL BLOCK A BUSY PLACE THESE DAYS

More improvements have been made in the Distel (Kendall) Block, Seventh and Chillicothe streets within the past

few months than in any other part of the city. What used to be a weather stained building has been converted into one

of the prettiest and most up-to-date structures in the city, all beautifully portrayed by handsome electric signs, clus-

ter lights, etc. In this block are located three live stores—all doing a good business and making new friends daily,

stores that stand for progress, which is typified by the newness and stability of their various lines. The Distel Block

houses three fine stores, namely: Charles Weber Shoe Store, carrying a full line of Men's, Women's and Children's foot-

wear; The When Store, handling a complete line of Men's, Women's and Children's clothing, and the Distel Furniture Co., with a well selected

stock of Furniture, Carpets, Stoves, etc. It will pay you to read the advertisements of these stores which appear on this page.

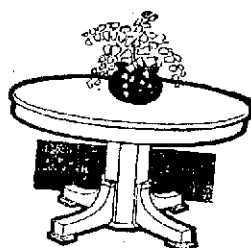

IT'S TIME YOU WERE
THINKING OF

Fall Furniture!

Yes, Stoves, Too

Why, the mere fact that it's Korn Carnival Time means that Fall is here, with Winter knocking at the door. If you have not purchased your Furniture, Carpets and Stoves, you are fortunate indeed, for we have decided to offer some extraordinary inducements, that will extend during the week of the Korn Carnival.

Beginning
Tomorrow,
Saturday,
October 2nd

We have resolved on a general reduction all along the line. This cut includes every article in our mammoth stock of the best grade furniture in the country.

This sale is put on owing to the fact that we are crowded for floor space. We are erecting a new brick addition to our present quarters, but that will not be ready for occupancy until the first of December. Our new stock is coming in by the carload lots and we want it in our own building. Hence we will be compelled to make room for its arrival and must move our present stock. We will move it, too if prices can accomplish that feat. Come and get your share of the bargains.

Our K. K. Invitation

During the week of the Korn Carnival, you are most kindly asked to make our store your headquarters. We will check all your baggage and make you feel as much at home as possible. Our store is commodious and we have hundreds of comfortable chairs that will be placed at your disposal. Come and see us and get better acquainted. Look over our beautiful lines, and we are sure you will agree with us that we have one of the best selected lines of Furniture in this part of the country.

Here's hoping for the biggest time Portsmouth ever enjoyed.

IMPORTANT NOTICE---On October 8 and 9 an expert will be at our store to demonstrate the famous Art Laurel Combination Coal and Gas Range. This range is not only one of the best made, of beautiful design, but will last a life time. Call around on the above dates and see this famous range in operation.

The Distel Furniture Co.

SEVENTH AND CHILICOTHE STS.

DISTEL BLOCK

For Comfort,

Durability and Style in Footwear

IT WILL PAY YOU TO COME HERE!

That is not an idle boast, or a hurried statement, but is made after due deliberation and is based on FACTS. We have been in the shoe business for many years and the fact that our store is still looked upon as the ideal shoe store of the city means much. We have ever stood for the essentials that go to make a good shoe, namely: workmanship, goodness of material, style and comfort. We have tested several lines, and from the many have gleaned a few which we pronounce as the WORLD'S BEST. And if you have ever worn a pair from any of the lines you will say that we have stated the proposition correctly.

FOR MEN WE
CARRY THE
CELEBRATED

Walk-Over

line, unequalled for service, comfort and style—a shoe that has a world-wide reputation, and which is worn by the best dressers everywhere—by Kings, Presidents, Governors, Senators, Employers, Employees—clear down the line. You can't beat the Walk-Over. We also handle the STETSON AND BEACON SHOES FOR MEN, and we stand behind each pair sold—they make good or we do.

"Queen Quality"

Delight of All Women
Who Care!

This celebrated make of shoes has a wide reputation—it is worn by the women of fashion, by the women in the shops and stores, all because it gives 100 per cent satisfaction and feels like a glove.

Also GROVER'S HAND-SEWED SHOES FOR WOMEN—a shoe for a tender foot, guaranteed to be the world's best.

Barber Brown Shoes

For Men and Little Gents

This is a solid leather shoe from the soles to the last welt. They have become famous because of the slogan, "Good Shoes for Bad Boys." Why, they will wear years with any kind of care. In men's, this shoe is especially adapted for those who work in the steel mills or on the railroads. They wear like iron, and lay so nicely to the feet that you really hate to lay them aside for dress up occasions. For boys who go to school, and who will soon be tramping through the snow and mud, they can't be equalled—they are guaranteed to stand the roughest kind of wear and many boys in Portsmouth are now having the seventh pair of half soles placed on their pair of BARBER-BROWN SHOES.

During the Korn Carnival you are kindly asked to visit this store. We will be pleased to have you examine our lines and we know that we can show you the best values in the shoe world.

New Boston

Phone 1716 A

Hustling Village Inoculated With "Expanding" Fever

New Boston, the most enterprising village on the Ohio river, from Pittsburgh to Cairo is in a class by itself when ranked among villages. Not many towns the size of New Boston can boast of over a mile of paved streets, water, gas, electric lights, storm and sanitary sewers. The town is healthy and well governed besides having the many latest improvements.

About twenty five years ago New Boston was an unheard of place. February 17, 1891 the town was platted by James Skelton, A. T. Holcomb and M. Stanton. The plat contained thirty-seven acres. Shortly after Yorktown and Stewartville additions swelled the acreage to 115.

The last two years Glenwood, Peebles, Lakeside and Idlewild additions have been included within the corporation and the village now contains over 217 acres.

In 1898 the Burgess Steel and Iron Works was erected and it was around this steel industry the village was built. In later years the plant changed hands, and is now one of the leading steel plants of the country, and offers employment to the majority of New Boston's laboring class. The Peebles Paving Brick company was incorporated in 1902 and shortly afterward the Breece Manufacturing company was located in the village, the latter two with the steel plant forming the industrial backbone of the village.

Resourceful New Boston grew slowly and steadily until several years ago when it began to take on new life which came about with the steel company widening their plant. Gas street lights were installed along with electric lights and telephone service. The present council with Sam Harper as village engineer has brought the greatest improvements in the village which will stand for some time to come. A water system costing upwards of \$40,000 has been completed, storm and sanitary sewers to cost over \$50,000, and the paving of eleven streets to cost approximately \$125,000 are the improvements under way.

The village is connected with the city by the B. & O. S-W and N. & W. railroads and the Portsmouth Street Railway and Light company. Before another year rolls around it will be connected with Ironton and way points by traction and is already reached by street car line from Sciotoville. Its population is placed at 3,200 this includes the foreign element, the majority of whom are employed in the steel plant. There are several hundred foreigners in the village.

New Boston's business men are very progressive and as a trading place, a better one would be hard to find. Two country pikes topping rich agricultural districts enter New Boston. It is not the small place that one would think it is when one is not well acquainted with the number of business houses in the town. There are sixteen groceries, two of the sixteen having a general line of feed, lime and cement and hardware. Among the other business interests are three butchers, one druggist, three fruit and confectioneries, two moving picture theatres, six barber shops, three restaurants, two physicians, one veterinary barn, five saloons, one ladies' and gents' furnishing store, one dry cleaning and pressing establishment, one auto garage and repair shop, one plumbing shop, three shoe repair shops, two blacksmith shops and three pool and billiard rooms.

The Baptists have a splendid brick church on Pine street and the Christian church members who have already a place of worship in a frame building on Ohio avenue have started work on a fine brick building. The First Christian church is a frame structure on Cedar street.

New Boston has two school buildings, Oak street and Stanton street, which would be monuments greatly appreciated in towns three times size of New Boston. Both buildings are fireproof of the reinforced concrete type, and have the latest improvements in the way of drinking fountains and sanitary plumbing equipment. Sixteen teachers are employed.

New Boston has postoffice station A and quite a volume of business is transacted through its channels. There are days when as high as \$700 in money orders are sent through this station. Ernest Coburn is looking after the interests of Uncle Sam.

There is no doubt but what New Boston will within the next few years be annexed to Portsmouth.

Hustling New Boston To Take Active Part In The Korn Carnival

New Boston means to be well represented during the Korn Carnival.

All village officials and the majority of the business men have made arrangements to take part in the Boosters' Parade on the open-
represented during the Korn Carnival.

Thursday night the New Boston lodges will be seen in the Fraternal parade.

Friday night the New Boston Bills expect to have over 125 in line with features that will make the City Bills take notice.

Saturday night is the night of the Mardi Gras parade and of course New Boston will have her share of representatives in line.

The New Boston school pupils have their school exhibits all ready arranged for display.

The liveliest telephone wires in Portsmouth are those leading to the TIMES WANT AD department.

Coburn Enjoying Splendid Business

Ernest Coburn, New Boston's popular druggist, has been in business for nearly four years. He started business in a frame building on the site of the present brick structure. On June 29, 1914, fire destroyed the frame building and contents. The big loss did not dishearten Coburn and within three days he had a temporary drug store opened in the Center building. He remained in the Center building until the home he

now occupies was completed. Mr. Coburn has greatly enlarged his business in the past year and since the post office station was established in his place he has been forced to add two more clerks to handle the volume of trade.

The charm of gracious manners and consideration for other human beings is a quality that develops rapidly if given half a chance. The woman who is always kind creates an atmosphere of loveliness that is like a halo about her head. If you are naturally shy and reticent, it is all the more necessary that you should endeavor to shine a bit. It is not lack of pleasant thoughts that worries the self-conscious, but the fear of giving expression to them. You must try to make yourself companionable to others.

The Balkans. The Balkans proper form the boundary between Bulgaria and eastern Roumania. The ridge is crossed by some 30 passes, of which Shipka is the most noted in history. In the war of 1877 it was the scene of desperate fighting between the Russians and Turks.

REMARKABLE DEVELOPMENT SHOWN IN RURAL SCHOOLS

They Will Figure Prominently In The Big Korn Carnival

If the Korn Carnival has failed in every other effort, which no one will venture to say, it has been worth while for the interest that has been aroused in the welfare of the rural schools of Scioto county through its influence.

Business men of Portsmouth have awakened to the importance of good rural schools, and it has come to their attention largely through their connection with the preparatory work in connection for the Korn Carnival.

In this connection it might be said that more interest will be taken by Portsmouth business men in the rural schools in the future, and various means will be employed by them, through their official organizations, to stimulate interest and enthusiasm among the rural school children in their school work.

Rural folk place just as high an estimate on the value of education as do their city friends, but it is encouraging to them and their children to know that their efforts along this line are given the same consideration as in the more advanced, more advanced places.

If there is one thing is aiding the "Back to the Farm" movement and improving social and community interests in the country, it is the movement for better rural schools.

The rural schools of Scioto county are fast becoming centralized, and under capable supervision, local, district, and county. The course of study is being enlarged to take in a wider scope of subjects, and a uniform set of text books, the cream of the educational leaders, has been adopted.

Much has been accomplished by County Superintendent E. O. McCowan and his capable corps of assistants, and they are receiving the hearty co-operation of the school boards and the county board of education.

In the villages now are found first and second grade high schools with a curriculum the same as is found in the larger cities, including domestic science and manual training and the other newer arts that are being adopted with favor all over the country. The facilities of these high schools are composed

of college graduates, men and women especially trained for their particular line of work.

A higher standard of teaching is also required in the grade and one-room buildings all over the county, and each year the requirements and qualifications of a school teacher become more pronounced. Rural school teachers are taking advantage of the state and county normal schools each summer, and the teacher who is trying to live in the past is fast being eliminated.

Proof of the above statements can be found by visiting the rural school exhibit at the Second street school building, and examining the work on display there. If the exhibits of writing, map drawing, map relief work, composition work, examination work in all branches, in fact, all departments of all school work, are not of a most commendable nature, then practical school men are wrong in their judgment.

As you will find there also original construction and manual training work that will bring you to a realization that Scioto county's rural schools are keeping abreast of the times, and are not lagging behind one iota of the most progressive schools of the state.

It might also be added that the rural communities are waking up to the need of better school buildings, and are getting them. The day is just when the poorly heated, badly ventilated, and carelessly constructed school buildings will do in this county. The people are voting for better buildings in which to prepare their youth for the stern realities of life.

It is the first time that the rural schools of this county have taken part in any exhibition given in this city, and their best effort is one of which they need not be ashamed. And future efforts will show a still greater development, according to the men and women who have been behind the present venture.

The same enthusiasm has been manifested by the rural school officials and teachers in the "Children's Parade" on Thursday afternoon. Every district will be represented, if the weather is kind, according to reports.

E. O. McCowan, the county school superintendent, has named the president and clerk of every

Contractors Making Dirt Fly, Heavy Blasting Heard Daily

Everybody living within ten miles of Sciotoville should know by this time that the contractors doing the C. & O. Northern grading are making the dirt fly.

Heavy blasts of dynamite can be heard at almost any hour of the day or night, as the men work all night long. The dynamite is being used to tear down the solid rock. A farmer living at Friendship and one living near Olive Hill, Ky., insist that they have heard the reports of the heavy blasts at different times.

The dynamiting has caused considerable damage in and near Sciotoville. Windows have been broken, costly flower vases and other chinaware have been shaken from mantelpieces, and furniture in some homes has been damaged. However, the greatest damage has been to the citizens in Sciotoville. Many of the citizens have had their water supply spoiled by the walls of the easterns cracking, which is said to have been caused by the heavy blasting.

The mayor has again called the attention of the street railway company to the bad condition of its

road-bed at Second and Market streets. He says the surface is in such shape that some work should be done there before winter.

Ask my customers about my work, Brehmer, the Painter.

Lucky Gold Seeker. A nugget of pure gold, weighing 84 ounces, was recently discovered by a prospector, at the Philbar gold field in western Australia, at a comparatively deep level. He also found another nugget weighing 49 ounces.

War Drives Strange Fish Into Ports

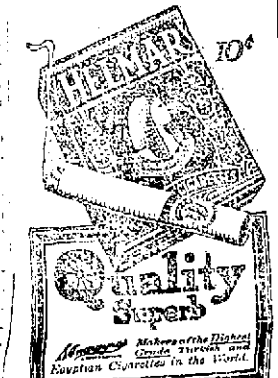

Stockholm, Sweden, Oct. 1.—Fish herself in the port of Stockholm during the past few months of the war, tremendous quantities of a species of fish, unknown to Swedish fishermen, have been driven into the harbor.

Supposed to be of the salmon family, the fish, caused by submarine warfare, have been driven off the Swedish coast, near Copenhagen, and appear as a novelty to the men of the restaurants of Stockholm. Although these fish are said to be common in southern seas, where they are known as "tuna" fish, they have never before been caught in this part of the world.

A record catch was made a few days ago near Copenhagen, by a man who caught 10,000 fish, 100 of them weighing over 100 lbs. each. Since more of these fish are taken in daily than can possibly be used for food, oil has been made from them, but it is said to be of inferior quality and hardly worth the cost of manufacture.

With the exception of this grain, Sweden is by no means over-supplied with food. Prices offered for food abroad, particularly in Germany, have been so enticing, and exports have consequently been so large that Sweden now

Punishing Thieves in China. In China thieves were caught stealing are compelled to make a tour of the neighboring villages with a board, bearing an account of their offense, clamped round their necks.

MUST PUT UP BUILDING FOR TRUCK

Now that New Boston council has purchased a fire truck the question arises as to who will run the gasoline wagon. The streets at present are in such a condition that it would be hard to drive the truck to a fire if one should happen to break out. It is a certainty that a man will have to take care of the truck. A building will also have to be constructed in the rear of the town hall to house the machine. Money to cover the cost of the building will be provided for in a \$2,500 bond issue.

Friendship.

The most I can do for my friend is simply to be his friend. I have no wealth to bestow on him. If he knows that I am happy in loving him, he will want no other reward. Is not friendship divine in this?—Thoreau.

OLD AND NEW WAY TO TREAT CATARRH

Breathing a Germ Killing Air Endorsed By Actual Results

The discovery of Hyomel has wrought a wonderful change in the treatment of catarrh. Prior to three years ago the medicines ordinarily employed in the cure of this disease were drugs, quinine, iodine, etc. In some instances they benefited, but the improvement was not lasting. With Hyomel you take into the air passages of your throat and head a balsamic air that goes into the mucous cells, and should effectually kill all germs and microbes of catarrh. Its purpose is to enter the blood with the oxygen, killing the germs in the blood, and restore health to the whole system. Many asthmatic catarrhs have been relieved from those who have been helped by Hyomel. A complete cure is instantaneous and includes an inhaler, dropper and sufficient Hyomel for several weeks' treatment. Perhaps the strongest evidence that can be given to doubters, is the fact that Hyomel has been used so much fully in Hyomel that they are now advertising under a positive guarantee to refund the money if it does not relieve. Now is the time to begin the use of Hyomel and rid yourself of this serious and oftentimes dangerous disease. Nothing is gained by waiting till the vicious microbes of catarrh have made still further inroads on your health.

DON'T FAIL TO VISIT THE HUSTLING EAST END

Before leaving Portsmouth, the East End during the past five years, included in which are the Simpson block corner Eleventh and Lawson streets, the Voelker building on Eleventh street, the house of the Voelker Dry Goods Company and the Temple billiard parlors, the attractive new home of the L. F. Lemon and Company on Gallia street, the new Diel block, housing one of the most elegant billiard rooms and bowling alleys in the state, the two motion picture theatres, the Temple and the Strand. Among the older buildings are the Flood and Blake drug store, the John Kyle drug store, the Anderson Hilltop drug store, the Diel and Neary building, the Mechanics' Steam Laundry and many others.

The East End is also the home of some of the largest manufacturing institutions in the city, including the mammoth new Excelsior shoe factory, the Irving Drew factory, the Harbison-Walker Refractories Company, the Portsmouth Stone and Range Co., Simpson Bros., machinists, the Pure Milk Company, the Bierley & Yeley Dry Cleaning Company, the D. L. Webb Lumber Company, the River City Lumber Company, the Harsha flour mills, the Coburn flour mills. Further east are the immense yards and terminals of the Norfolk and Western Railroad Company, the Peckles Paving Brick Co., the Brecken Manufacturing Co., the Wait Furniture Co., and the Portsmouth Whitaker-Glenn Steel Company of New Boston, all institutions of large proportions.

Some of the most beautiful residences in the city are to be found in the East End, and real estate has enjoyed a more substantial boom there than in any other part of the city. The East End has come to stay, and the East End business men are helping to make it a bigger factor in the city's development, each succeeding year. The majority of them are represented in the Korn Carnival, and will vie with downtown merchants in the attractiveness of their displays.

The East End has come to stay, and the East End business men are helping to make it a bigger factor in the city's development, each succeeding year. The majority of them are represented in the Korn Carnival, and will vie with downtown merchants in the attractiveness of their displays.

Cutting Prices

With Apologies to Hamlet

TO CUT or not to cut. That is the question. Whether it is not better in the end To let the chap who knows not the worth Have the business at cut-throat prices, or To take up arms against his competition, And by opposing cut for cut, end it. To cut—and by cutting put the other cutter Out of business—is a consummation Devoutly to be wished. To cut—to slash—Perchance myself to get it in the neck—Ay—there's the rub; for when one starts to meet The other fellow's prices, 'tis like as not It's up against it good and hard. To cut and to slash is not to end the confusion And the many evils the trade is pestered with; Nay, nay, Pauline; tis but the forerunner Of debt and mortgage such a course portends. 'Tis well to get the price the goods are worth And not be bluffed into selling them for what So-and-so will sell his goods for. Price cutting doth appear unseemly And is only for the man who knows not What his goods are worth, and who, ere long, By stress of making vain comparison 'Twixt bank account and liabilities, Will make his exit from the business.

No Extra Police Needed, Says Mayor

Mayor Frick when asked Thursday night declared it as his opinion that no extra policemen would be appointed for duty during Korn Carnival week.

"We have never had them before and I can not as yet see any necessity for them this time, and

do not think the we will need them," said the mayor. He said the business men of the city had decided to have one hundred persons do duty during the children's parade and safeguard the youngsters, and he commended them for this move.

WOMAN BITTEN BY SPIDER

Mrs. Lucy Herron, of Fourteenth and Waller streets, was bitten on the arm by a spider while asleep a few nights ago and Thursday developed blood poisoning. She was in such agony Thursday night that police officials dispatched City Physician Dr. W. D. Schaefer to attend her and relieve her sufferings.

CLAIM HI YALLER IS IN BIRMINGHAM

The latest clue to the whereabouts of Henry Glenn, alias "High Yaller", the alleged gunman in the Baucus murder case, is that he has made his appearance in Birmingham, Alabama.

DR. CHASE'S
Blood and Nerve Tablets
The most effective medicine for all blood and nerve ailments. It cures all cases of anemia, weakness, and general debility. It is a powerful tonic and restorative. Price 50 cents. Special 100-cent bottle. Dr. Chase, 245 N. 1st St., Philadelphia, Pa.

It is known that the local police officials communicated with the Birmingham authorities a few days ago, giving them a description of the fugitive and details regarding the rewards offered for his capture.

Sheep as Weather Prophets.
Shepherds say that the wool of the sheep furnishes an excellent indication of weather changes. A storm is likely to come when the sheep are very soft to the touch and a storm is imminent.

Home Under Quarantine

The Washington township authorities have quarantined the home of Charles Henderson, a well known farmer, due to one of the children of the household developing diphtheria.

UNCLE "TOMMED" FOR FIRST TIME

Police Officer Leon Mason, despite the fact that he is forty years of age, witnessed an Uncle Tom's Cabin production for the first time in his life, Thursday. He attended the matinee performance at the Sun theater.

POWDER, MATCH FACE IS BURNED

Harry Evans, of Front street, who is employed in the Selby Shoe company's office, had his face badly burned in touching off some powder with a match a few days ago.

Was In Huntington
H. J. Nepper, proprietor of the Biggs house, made a business trip to Huntington, W. Va., Thursday.

After Samples
J. C. Collins, of Pennsboro, W. Va., traveling salesman for the Portsmouth Hat company, arrived here Thursday after his spring samples.

A WONDERFUL ANTISEPTIC
Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c, 50c. The \$1.00 size contains six times as much as the 25c.

ARE BUILDING NEW HOME

The United Fuel and Gas company which has been located in the York building on Galin place for several years will soon have a new home. A frame structure is being erected on the southeast corner of Ohio avenue and Grace St., for the gas company and when completed the offices will be moved to this building. Every part of the village is reached by gas and mains will soon be laid in the Idlewild, Glenwood and Peables additions.

Editor Here
Howe Doyle, a former newspaper editor of West Union, was a business visitor here Thursday.

Of Egyptian Origin.
The Raques are a curious race, and for a century scientists believed it impossible to discover their abillations, and with good reason, for they tried in vain to connect them with other European people. In recent times a careful and intimate study of the language has revealed them to have come from Egypt at a time so remote that even tradition and legend show no traces of that far off migration.

Every day that the TIMES is published, builders list their bargains on TIMES WANT AD page.

UNITED WOOLEN CO.

"Southern Ohio's Foremost Tailors"

WE are now entering upon our sixth year in the tailoring business here in Portsmouth. During this time our business has increased by leaps and bounds, until today we are the largest factors in the tailoring trade in Portsmouth and this section of the country.

We can only attribute the cause of our success to one thing—the merit of our clothes. Every garment we send out of our store is a credit to our establishment and an add in itself. We can please any man, no matter how skeptical or how fastidious he may be about his dress. We cater to the masses, the working-man, the business man, the professional man and the young man in school. We please them all.

TAILOR-MADE SUITS OR OVERCOATS TO ORDER

No Less **\$15^{.00}** and **\$18^{.50}** No More

Made in our own shops by expert tailors

We positively guarantee our cloth strictly all wool and thoroughly shrunk before being made up. Our garments will retain their original shape always. We are the only moderate price tailors in Portsmouth, who have a cutter and designer right here in the city. Our trimmings and workmanship are in keeping with the other features of our clothes. Other tailors cannot reproduce our garments for less than \$25 to \$30. A trial order will benefit both you and ourselves. Hundreds of patterns to make your selection from. Every new novelty as well as the more staple weaves and colors.

MASSIVE NEW BRIDGE SPANNING SCIOTO RIVER LINKS PROSPEROUS WEST SIDE WITH PEERLESS

SPLENDID SPECIMEN OF BUILDER'S ART WILL BE DEDICATED OCTOBER 6 WITH MUCH CEREMONY

Formal completion and dedication of the magnificent new structural steel and concrete bridge, which so majestically spans the winding and turbulent Scioto river at its mouth here, will bring about the consummation of a wish long cherished by residents of the fertile and rapidly developing West Side.

It will give them a substantial bridge that is supposed to be food proof and will be sufficiently strong to withstand the ravages of floods no matter what destructive heights they may reach.

The bridge, which has been built at a cost of \$300,000 will provide for a permanent link between progressive Portsmouth and the West Side. It will give farmers of this vast outlying district what they have needed to further impress their importance in an agricultural way upon this city.

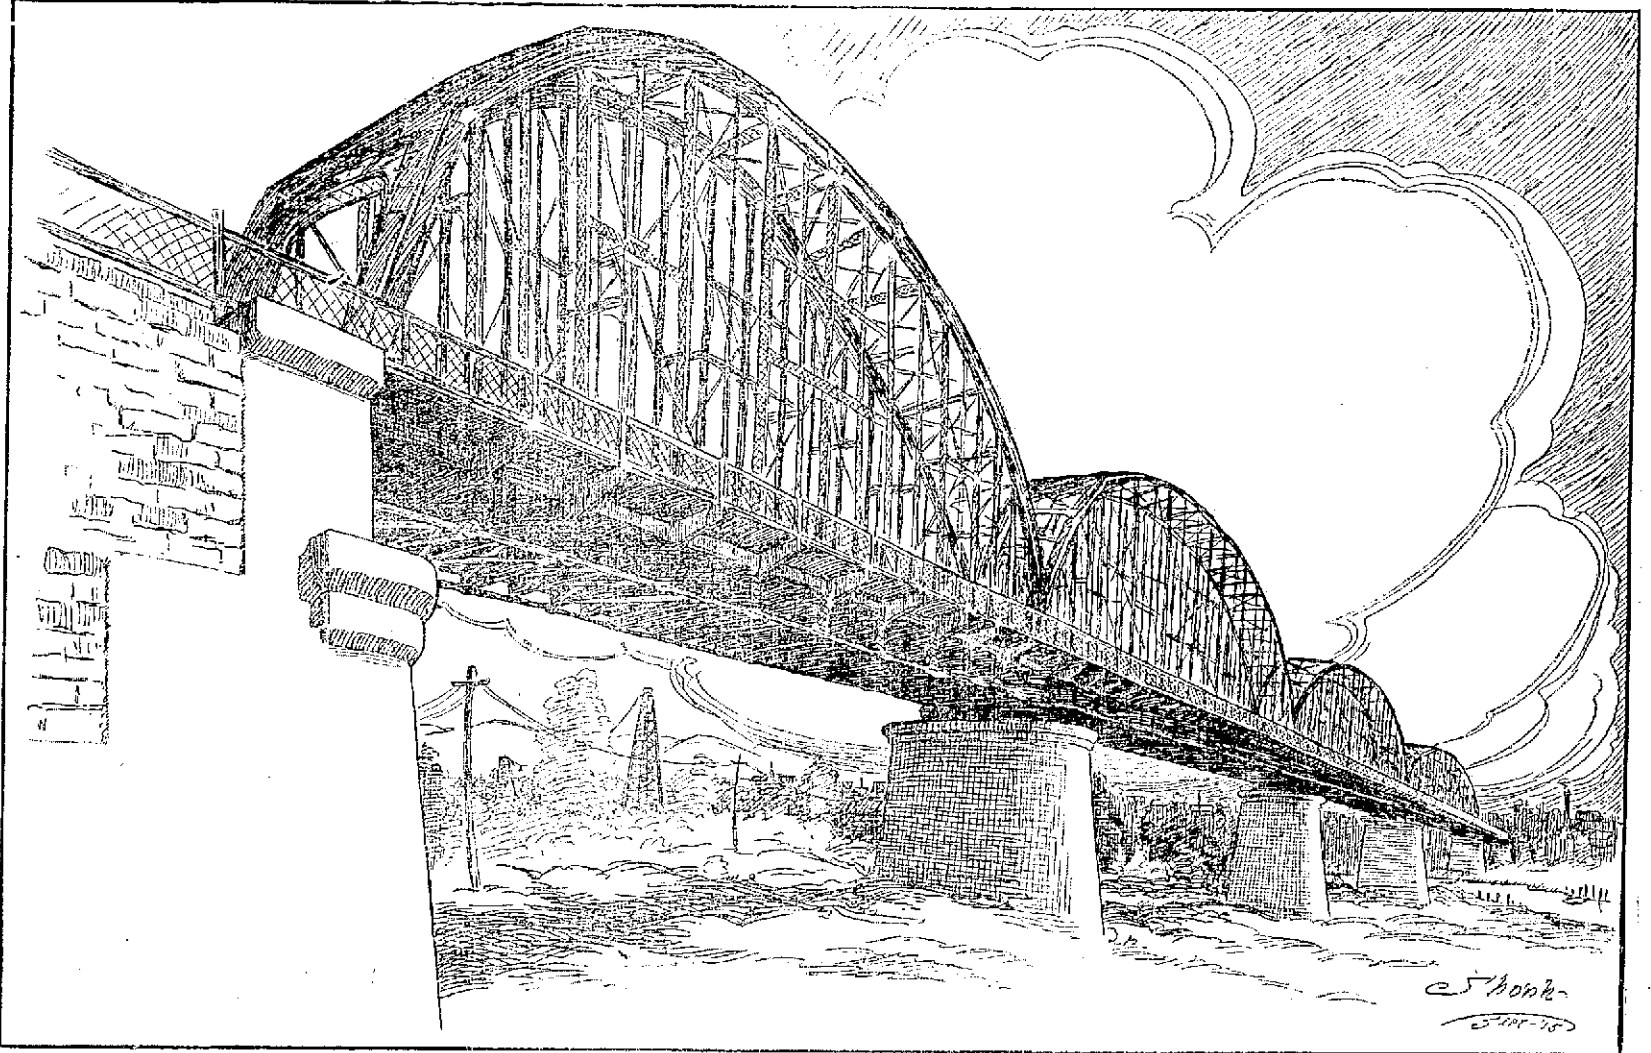

Its completion will permit the farmers of the West Side to reach the city at all times and will give them ample protection against the devastating waters of the Scioto river.

It is conceded on all sides that the bridge is one of the finest in this section and it stands as a monument to the Peerless City and Scioto county. Built of steel and concrete it is marvelously beautiful in addition to being a practical structure. The Mt. Vernon Bridge built along the latest lines so far, Company, \$150,000, and Weathers architectural beauty and symphony and Coalgrove will receive \$16,000 more are concerned.

Containing four spans and two approaches the bridge with its 26 spans of steel, and its feet wide with a six-foot walk on spoolless piers, rears its head, the south, which is to be finished properly over the west end of the bridge and cleans in the sunlight. Naturally, the bridge seems to be a splendid example of the bridge builder's art. It is the one that has been needed to link Portsmouth and the West Side into closer relation with each other. It will afford residents of the western portion of the county an opportunity to visit the city at any time, they feeling that the "bridge will carry them over."

The bridge was built by The A. J. Martin Company, Lookout Construction Company of Chattanooga, Tenn., and the Mt. Vernon Bridge Company of Mt. Vernon, O. The A. J. Martin Company and Lookout Construction Company built the bridge structure and the Mt. Vernon Bridge Company built the superstructure. Four hundred thousand pounds of reinforcement steel were used in the substructure. Twelve thousand cubic yards of concrete or 16,000 barrels of cement were thrown into the substructure. The first work on the bridge was done in June, 1914, and it will be completed by the end of the year. The bridge is to be turned over to the county commissioners by November 15. The Mt. Vernon Bridge Company built the superstructure.

The bridge is to be turned over to the county commissioners by November 15. The Mt. Vernon Bridge Company built the superstructure. The bridge is to be turned over to the county commissioners by November 15. The Mt. Vernon Bridge Company built the superstructure.

Company it is announced, will complete their contract a week ahead of time.

The bridge was designed by Engineer A. T. B. Somerville, who prepared all of its intricate specifications and who supervised its construction. Practically every minute of Mr. Somerville's time has been devoted to the new bridge.

When praise is meted out for its construction, most of it will fall upon the shoulders of this man. He labored day and night to give

Scioto county one genuine bridge and no person who has inspected the new bridge will deny the statement that the bridge is a real bridge, one that stands as a monument to the city's progressiveness and one that emphatically stamps Mr. Somerville as one of the most skilled and thorough bridge builders in the country.

Schooled in the engineer's art at Lafayette College, at Easton, Pa., Mr. Somerville graduated from the civil engineering department in the class of 1899. He came

to Portsmouth in 1910 and for several years was employed as chief engineer in the vast plant of the Whitaker-Glessner company, located in New Boston. Prior to this he held the responsible and remunerative position of chief designer of the American Bridge Company and also had charge of the estimating department of this company.

Mr. Somerville is a thorough and competent bridge man and is admirably equipped to look after the construction of any bridge, no

matter how small or how large. When with the American Bridge Company he designed many bridges which today are recognized as among the finest in the country, the word "safety" being written all through their construction. Portsmouth owes much to Mr. Somerville for the careful, painstaking and cautious manner in which he looked after the new bridge's erection. The success of his labors are reflected in the beauty and durability of the bridge.

Its formal dedication on Wednesday evening, October 6, as a fitting climax to the Boester's Parade, will mark an epoch in the annals of Portsmouth and no doubt the impressive and long anticipated event will attract a record-breaking crowd to the historical west end, which again comes into its own with the completion of the bridge.

Seek a position through TIMES WANT ADS. Employers of labor read them carefully.

CRIPPLES WILL GET \$37.50 EACH YEAR

Budapest, Oct. 1.—The Hungarian government has just announced a scheme of limited pensions for veterans of the war. A cripple totally incapable of work will get \$37.50 a year; if only disabled to a small extent, \$25. A widow is to have \$11.25 a year. It is hoped that it may be possible to increase these rates after peace is declared.

PORTSMOUTH AN INDUSTRIAL CITY

Portsmouth is pre-eminently a manufacturing city. It always has been and always will be, its location and natural advantages comparing to make it the great industrial center of Southern Ohio.

Diversified interests are what make a prosperous and growing city, and the citizens of Portsmouth are proud of the various industrial institutions that have made it possible for the Peerless City to outstep its neighboring cities and towns in financial and commercial supremacy. It is to them that the finger of pride will be pointed to visitors during the four days of the Korn Carnival.

Along with that, is a similar feeling for the sober, industrious, and intelligent class of workmen who find employment in those industries who form the greater portion of the city's population, many of them owning their own homes. They have played no small part in the growth and development of the institutions which have grown from infant industries to among the largest of their kind in the United States.

HERE IS AN IDEA OF RESOURCES

Some idea of Portsmouth's industrial prosperity may be gleaned from the following figures, which are authentic:
Her shoe factories turn out 18,000 pairs of shoes daily.
Her brick plants make 375,000 brick daily.
Her steel mills produce over 1000 tons daily of galvanized sheet, sheared plates and billets.
Her stove factories manufacture 150 stoves daily.
Her N. & W. terminals and shops give employment to over 1200 men and women, bringing the total to over 2000 employees residing in this city.
Her shoe lace factory 75,000 pairs of shoe laces, 15,000 pairs of socks, 10,000 of skirt braid, and 10,000 yards of lingerie braid.

The above does not include the product of many of the smaller industries, some large, others small, which add greatly to the city's daily output and in the aggregate employ hundreds of men, whose com-

binated wages swell the payrolls of the city to hundreds of thousands of dollars every month.

SHOE FACTORIES A BIG THING

Closely associated with the early industrial life of the city are the shoe factories, and with the tremendous growth of those institutions has come the development of the city.

Portsmouth boasts of three large shoe factories, with a capacity of 18,000 pairs daily and giving employment to 4000 men. One of the most welcome signs of the times is the indication of greater activity in the shoe manufacturing line this season, which will make itself evident in all channels of trade.

These factories are manned, from the heads of the various departments down to the most lowly executive heads, by men who have grown up in the industry, native born men, who started in humble positions when the institutions themselves were in their earliest beginning, and who worked their way to the top by dint of hard work, close application and energy.

Selby Company Is the Pioneer

The Selby Shoe Company is the pioneer of the three. In the space of thirty years, it has grown from a small plant employing a few men to a mammoth concern, the celebrated Boy Scout shoes for its buildings, three to four stories high, are manufactured by this high, covering over a city block, firm, and giving employment to over 2000 men and women, the large majority of whom are expert in their particular trades. This company, on Front below Court, manufactures women's shoes. Either of the buildings is a pretentious structure, the one on Court street, a large city eleven years ago, the development of East Portsmouth has been a working short of phenomenal. The buildings and shops in this city are part of the city's industrial progress.

Only recently the Excelsior on Tenth street, including a large city eleven years ago, the development of East Portsmouth has been a working short of phenomenal. The buildings and shops in this city are part of the city's industrial progress.

manufacturers a high grade of place the appearance of an industrial city all by itself.

The physical value of the three shoe factories is no less than the reputations of and at present, over 1200 skilled mechanics are working full time and square business methods in the shops, with prospects of a still greater number in the near future. The trainmen who reside in this city swell the total of N. & W. employees living in this city to over 2000 men, many of them married and owning their own homes.

One of the busiest plants in the city of late is the immense plant of the Portsmouth Whitaker-Glessner company, steel manufacturers and lightdays have been lifted out of the mud by brick manufacture, full in all departments for several weeks and which promises to enjoy an uninterrupted run at full capacity.

During the past five years, the plant has more than doubled its capacity and today gives employment to upwards of 1500 men. Among the companies which some of them the highest paid wage-earners in the city. Real estate and property values have increased and the general prosperity of the city enhanced since the steel plant has taken front rank in the industrial progress of the city. Ever since the Norfolk and Western Railroad company located its terminals and shops in this city eleven years ago, the development of East Portsmouth has been a working short of phenomenal. The buildings and shops in this city are part of the city's industrial progress.

Three large brick plants manufacture material for the use of the shoe factories and share in the success which those companies have attained. They are the Mitchell Manufacturing company, manufacturers of shoe laces, neck ties, braid, and knitting, now running day and night to fill war orders; the Vulcan Last company, a company whose growth has been nothing short of phenomenal; and the T. M. Patterson Box company, manufacturers of shoe boxes.

Portsmouth is the home of two large stove factories, the Portsmouth Stove and Range company and the Ohio Stove company, both enjoying a substantial trade all over the country. Both companies increase their output each year, and are noted for the excellence of their products.

Scores of skilled workmen are employed in the furniture and veneer factories, which include the Beece Manufacturing company, the Wait Furniture company, and the Portsmouth Veneer and Panel company.

To the above could be added three carriage factories, cereal mills, seven planing mills, three stone quarries, a novelty factory, a glove factory, three ice factories, and scores of smaller manufacturing industries which contribute their share to the daily manufacturing output of the city and the wealth of its payrolls.

Three large brick plants manufacture material for the use of the shoe factories and share in the success which those companies have attained. They are the Mitchell Manufacturing company, manufacturers of shoe laces, neck ties, braid, and knitting, now running day and night to fill war orders; the Vulcan Last company, a company whose growth has been nothing short of phenomenal; and the T. M. Patterson Box company, manufacturers of shoe boxes.

Portsmouth's superior transportation facilities play an important part in its industrial welfare. It is located on three big trunk railroad lines, the Norfolk and Western, the Chesapeake and Ohio, and the Baltimore and Ohio South Western railroad companies. Another big outlet will be offered before many months roll by in the completion of the Chesapeake and Ohio Northern road from the Ohio river to Columbus, now in process of construction. The Ohio river is an important avenue of commerce leading in and out of the city, and will be even more so when the dam program is completed.

Less than another year will see the completion of the traction line from Portsmouth to Ironton, which will furnish another convenient passenger and freight service.

All of which contributes to the wonderful growth and prosperity of Portsmouth, and insures its substantial development in the years to come.

The manufacturing products of the city are sold and advertised by over two hundred hustling traveling salesmen, who reach every section of the country.

Transportation Facilities Good

CONTESTS FOR BOY SCOUTS

Boy Scout Day, as usual will be held on Saturday, the various athletic events scheduled for Saturday morning in the vicinity of the government esplanade. Valuable prizes will be awarded the winners of the seven main events, which are open to all Boy Scouts in the city. Entries will be received until the contests start. Below is a complete list of the events.

Event No. 1—Bandaging Contending Contest.
Event No. 2—Knot Tying Contending Contest.
Event No. 3—Ball Catching Contest.
Event No. 4—Control in Base Ball Pitching.
Event No. 5—200-yard dash for boys over 15.
Event No. 6—50-yard dash for boys under 15.
Event No. 7—Semaphore Signaling Contest.

NEWMAN & SON WILL HAVE A FINE BOOTH

John M. Newman and son, feed merchants, of Gallia street, have secured so much praise last year for the originality of their construction, are going after further laurels this year. They have planned to erect an exhibit booth in the shape of a ship, using various other farm products in the construction. They will also have a booth similar to the "red brick hut" of last year.

The booth was considered so good last year that a photograph of it was reproduced on one of the Korn Karnival souvenirs distributed this year.

Photographic Section Loses One Member

One of the strongest, aided by the committee members killed at the taking of foreign affairs of the Chamber National in Alsace belong to the foreign office branch of the army and collaborated in its organization, which after ten months the operators are all mobilized. The photographic section, and as at Metz, are on the front line, which is now officially the fighting line, taking pictures, depicting the war. Its role, which with orders, reports, plans, the historical and educational documents will be kept.

Although the staff is smaller, the photographic section is also serving the foreign office of the staff.

For the time being, the photographic section is in the hands of Messrs. Miller, and others, to make a complete list of the war, which is now officially the fighting line, depicting the war. Its role, which with orders, reports, plans, the historical and educational documents will be kept.

We Ask Your Patronage Because There is No Better Beer Brewed Anywhere Than Right Here in Portsmouth!

The men who brew it are your neighbors and fellow citizens; their interests are yours.

Home employment is furnished by home brewers. To employ men at home is better than to furnish money to give them employment on the other side of the earth.

Money earned by Portsmouth working men is spent here. How much of the foreign brewers' money do you get?

The local brewery helps every enterprise that tends to boost Portsmouth. To use their product means placing them in condition to continue boosting. It is also an appreciation.

THINK THIS OVER!

The Portsmouth Brewing & Ice Co.

PORTSMOUTH, OHIO BOTH PHONES 94

Daniel O'Connell, the great Irish liberator, said: "I have seen many a merry party around a table, but never around a pump."

THAT SETTLES IT!

Liebig, the famous German chemist, describes beer as "liquid bread."

FOOD AND DRINK!

"Beer is par excellence the nutritive alcoholic beverage. When a man drinks a good beer he drinks and eats at the same time, just as when he eats a bowl of soup. These beverages contain all the elements of a typical diet, with the exception of fat, and in a proportion approximately physiological."—London "Hospital."

"The milk and butter men of Indiana ought to go in a body and visit the breweries of this and other states," said Mr. H. F. Barnard, State Food and Drug Commissioner of Indiana, "in order to see how clean a food producing establishment may be made. It is a fact that the cleanest and most sanitary food on the market, as food is defined by the Indiana law, is beer."

Completion Of Lawson Run Viaduct Will Mean Greater Activity In The East End

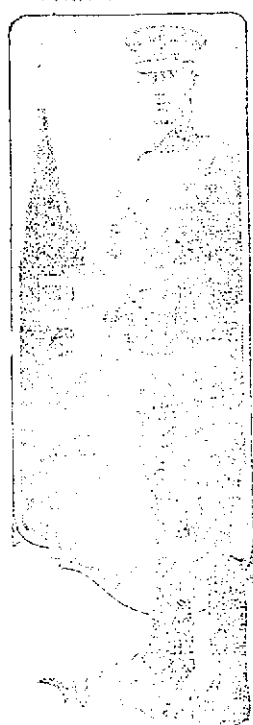

What promises to be one of the prime factors in the future development of Greater Portsmouth is the new Lawson Run viaduct or overhead crossing now under way in the east end of the city.

The viaduct has for its chief purpose the elimination of all dangers and obstacles that stand in the way of the N. & W. railway carrying out its plans for the crisscrossed west yard facilities at the East Portsmouth Terminal to take care of future needs.

With the elimination of Kendall avenue as a grade crossing which is to follow the completion of the viaduct and the construction of about twenty additional tracks through Earlhaven and leading to the west end of the line, the N. & W. will be enabled to handle up to its long haul passenger trains, long haul freight trains on a single track, and long haul freight trains on a double track. Under present conditions work has been well advanced and long trains have to draw up and down the line, and many of the cars for trips.

The viaduct is being located between the tracks of the railroad between Eighth and Gallia streets, between the railroad and the west end of Lawson's Run, or about 850 feet west of Kendall avenue. The viaduct is being built by the N. & W. where it was originally planned to build a subway. It will be a concrete structure of reinforced concrete, 500 feet long with the tracks on each side. The viaduct will be 1120 feet long. It will be 175 percent less.

KNOWS FAMOUS MEN ONLY BY NUMBERS

OLD BRIDGE IS STANDING

Athens, Oct. 1.—The Galata Bridge at Constantinople, which has been an object of British submarine and aeroplane attacks, is the chief of two bridges which cross the Golden Horn and connect Galata with Stamboul. The bridge was completed by a German company in 1912, and replaced by iron an old wood structure which connection was maintained between these two important quarters of the capital. The bridge was constructed in such a way that certain sections can be opened in order to allow vessels to pass into the inner and most parts of the city.

The bridge is one of the most important places in all Constantinople. Along its sides run a series of trading stores from which all local merchants for centuries have obtained the flour of Monopoli and for the Bosphorus. A toll is levied on all persons crossing the bridge. Its sides are lined with a picturesque assemblage of booths and stalls, which in Eastern fashion are used to the passing of the people and the carrying of the goods.

Willie Can Use It

The "Willie" camera has been the most popular of the new cameras. It is a small, light, and easy to use camera. It is a camera that can be used by anyone. It is a camera that can be used by anyone. It is a camera that can be used by anyone.

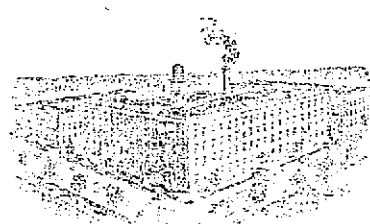

Men's Medium and High Grade UNION SUITS

12 REASONS WHY THEY ARE BETTER

- 1st: We make a specialty of few numbers and grades.
- 2nd: Our equipment is up to date.
- 3rd: We use best grades of yarns.
- 4th: We know how, and our sales prove it.
- 5th: We pay particular attention to details.
- 6th: We use best grade buttons and trimmings.
- 7th: We use the shaped (Reece) reinforced cord edge button holes.
- 8th: Best grade of threads, both lustre and strength.
- 9th: Hand tailored to fit both chest and trunk and measurements are correct.
- 10th: Our garments are well finished and well boxed.
- 11th: We make only the popular priced goods "that sell."
- 12th: It combines expert workmanship and best materials which makes a perfect Union Suit.

OUR MOTTO:
The Best \$1.00 Union Suit In The World

Mitchell's Make

Where They Are Made

Our Athletic or Nainsook is made of the best grade of material and to "FIT" and "WEAR."

All garments are made with our Patent Protex Closed Crotch, which has proven itself to be the best on the market.

By confining ourselves to these few popular numbers, we can make a better garment for less money and shall be glad to prove this by submitting samples and prices.

or shall be pleased to have any merchants call at factory or phone or drop us a line for samples.

We can make prompt deliveries, and shall be glad to have a call from any dealer.

City To Be Bathed In Carnival Colors

Portsmouth is going to be bathed in the colors of the carnival and decorated and bannered for the Korn Festival.

Already it has taken on a "carnival" aspect and the old town has been decorated for the Korn Festival. Business houses, homes, churches, restaurants, public buildings and banks are being decorated for the Korn Festival.

Artificial rubber has been made from Russian crude petroleum, which contains chemical elements similar to those in natural rubber.

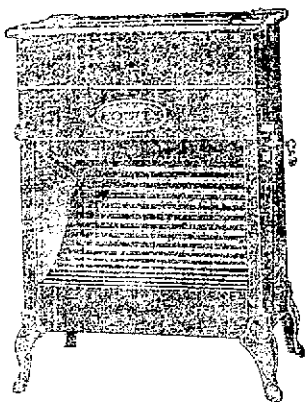

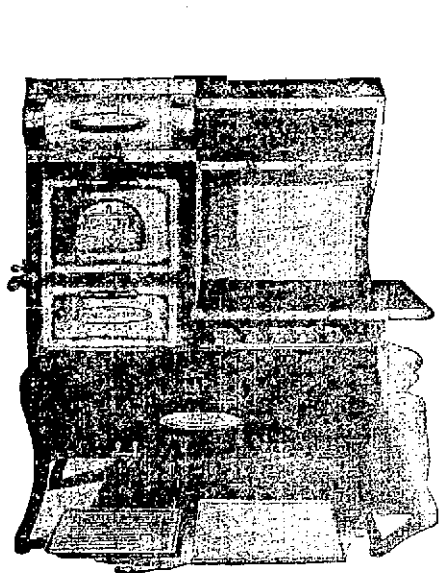

EQUITY GAS RANGES

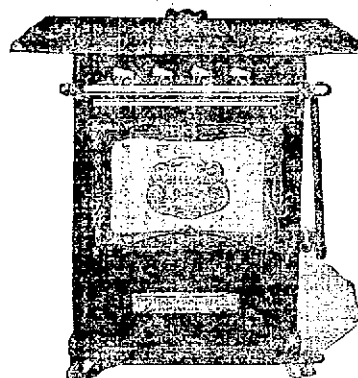

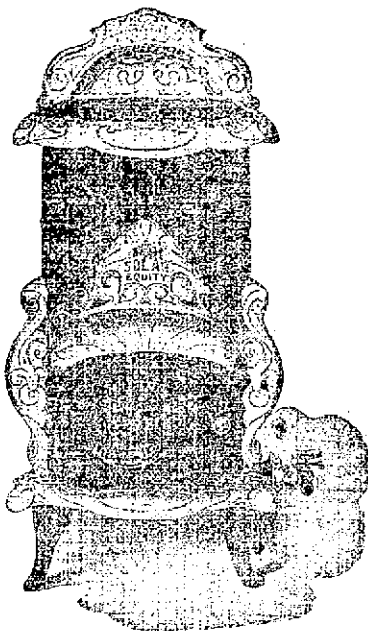

Take 1st and 2nd Prize

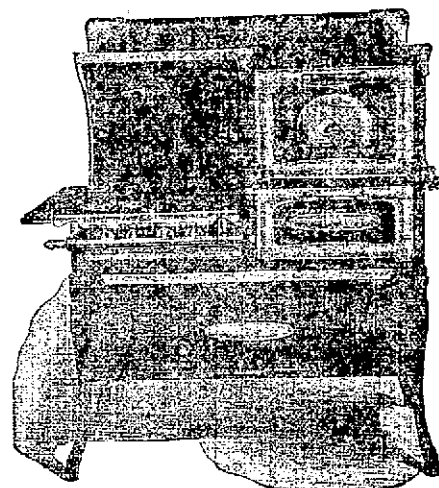

AT WEST VIRGINIA STATE FAIR IN COMPETITION WITH EIGHT WELL KNOWN LINES. FIRST PRIZE WAS AWARDED FOR "BEST BAKING". SECOND PRIZE FOR "BEST APPEARANCE." WHY SHOULD PORTSMOUTH PEOPLE BUY GAS RANGES OR HEATERS MADE IN SOME OTHER TOWN WHEN THEY CAN GET THE BEST AT A MOST REASONABLE PRICE MADE IN PORTSMOUTH?

EQUITY Gas Heaters are equipped with the highest grade adjustable valves and air mixers, and powerful, odorless burners that use gas very economically. Their heating capacity is wonderful. They always keep air in a room fresh and pure.

The Equity Gas Range is the only one that is made absolutely safe against explosion and so simple that a child can operate it. You can't do better than buy an Equity Gas Range.

MORE THAN A HUNDRED STYLES IN OUR LINE FOR GAS, COAL AND WOOD. WE CAN SUIT YOUR NEEDS EXACTLY. THEY ARE PRICED VERY REASONABLE. CALL NO. 59 AND WE'LL GIVE YOU A LIST OF PORTSMOUTH DEALERS WHO SELL EQUITY GAS RANGES.

The Portsmouth Stove and Range Co. Gallia St. and Hutchins Ave.

CITY FATHERS WORLD'S LARGEST CORN LANDS

Portsmouth is the gateway to the largest corn field in the world, it claims that no one familiar with the unlimited resources of the rich and fertile Scioto Valley will dare dispute.

The present season has produced bumper crops. Not only was the corn planted earlier than usual but timely rains came when most needed.

The 1917 corn matured earlier and in most places in the valley and through the valley the ears are more plentiful and larger in size than ever before. Every stalk had an ear of corn this season and it is estimated by bottom land corn growers that they have a third more of a crop than ordinarily. The average yield for this end of the valley is about 80 bushels per acre.

One need but stand at the head of Market street, at the Point, or on the roof of the First National Bank building, and gaze up the valley that extends northward from Portsmouth and realize why the Scioto Valley has become famous as a corn producing section.

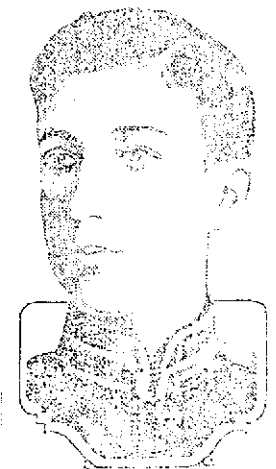

As far as the naked eye can see there stretch out field upon field of the finest corn to be found anywhere, this year's crop being particularly excellent. One solid mass of corn for a distance of one hundred miles and at some points from two to three miles wide, and no one grain dealer put it into the history of it is that it is of good quality and will mature early.

The periodical frosts are what make the bottom land the chosen ground that they are. The overflow of the river always leaves a sediment when together with the leaves and good ground that are washed onto the lands make a good rich soil of from four to five feet deep, and which is as good at the bottom as on the surface. The soil is kept rich by the moisture drawn from the river and never wears out like hill land. It does not require more than one third of the amount of rain needed by upland lands and bottom land owners are more concerned about keeping water away than wishing for it. Good crops have been raised even in times of drought. In spots it is nothing more

usual to raise ten bushels per acre and it has frequently happened that some fields yielded 120 bushels per acre. The bottom lands have been producing corn ever since the day of the Indians though it was then the valley was heavily wooded, pioneer settlers clearing the land as they saw fit and today it is an unbroken open stretch of corn fields, from 1890 to 1917.

The live telephone wires in Portsmouth are those leading to the TIMES WANT AD department.

MAY LEAD AN ARMY AGAINST THE SERBS

Crown Prince Boris of Bulgaria.

According to earlier reports Crown Prince Boris of Bulgaria was to survey part of the front line of the war between the Bulgarian army and the Serbs. The prince was very active in the Balkan war against Turkey and even more so in the second Balkan war when Greece, Serbia and Rumania combined against Bulgaria. Crown Prince Boris is extremely popular with his people and his appointment as commander of an army met with general approval.

Foreign Legion Of Holland Is Brave

The Foreign Legion of Holland is a twelve years' service in the tropics where each year is earned a two years' exemption from military service. In all the smaller towns and many agricultural districts of Holland numbers of these pensioners reside when they retire, which if they are old enough to do when only about thirty years old in case they enlist when very young.

Thousands of widows are given aid. The Dutch government has established a fund to assist the widows of the Foreign Legion of Holland. The fund is managed by the Dutch government and the Dutch people. The fund is a very generous one and it is a great help to the widows of the Foreign Legion of Holland.

The Foreign Legion of Holland is a very brave and patriotic organization. It is a very important part of the Dutch military and it is a great help to the Dutch people. The Foreign Legion of Holland is a very brave and patriotic organization. It is a very important part of the Dutch military and it is a great help to the Dutch people.

The Standard Supply Co.

Extends an invitation to all visitors to make this store their headquarters for Carnival Week. If any are strangers, we will take pleasure in directing you or procuring any information desired. Just make yourself at home.

We handle supplies of every description for the farm, mill and factory.

HARDY SOIL TILLERS TO MARCH IN FARMERS' PARADE

One feature of the Korn Carnival that is in harmony with the season of the year and in keeping with the spirit that is back of the Carnival, is the "Farmer's Parade", which will be held Thursday morning at 11:30 o'clock.

Otto Zoellner, the progres-

sive farmer of the Wheelersburg country, is chairman of this feature attraction, arrangements of which have been perfected.

Invitations have been sent out to all granges and farmers' organizations in the county to participate in this par-

ade, and individual farmers have also been urged to enter. Many of the granges in the county will have the greater portion of its membership represented in the parade.

Last year, rain conspired against the "Farmer's Parade", but an excellent show-

ing was made, notwithstanding. This year, the committee is counting on fair weather, and a procession fully three times as long as that of last year is looked for.

Progressive farmers are expected to enter this parade with attractive floats, decor-

ated with farm produce of all kinds, artistically arranged.

Wonderful opportunity is offered for original and novel designs in decorating, and the farmers showed last year that they can make the most of their opportunities.

Prizes will be offered for the most attractive floats entered in the parade, and some keen, but friendly competition is anticipated.

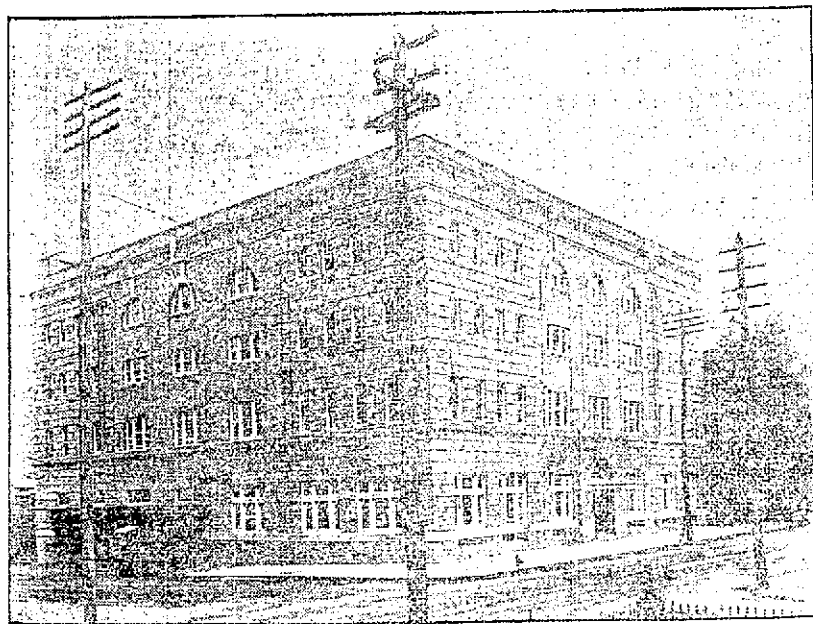

Many of the farmers will have their entire families in the parade, which is a com-

mendable idea.

Otto Zoellner has sent word that Concord Grange of Wheelersburg will have fifty entries in the parade, and the same encouraging word is being received from all over the county.

It is one feature of the Carnival in which the farmers will hold full sway, and King Korn will reign.

Mr. Zoellner will announce his aides, formation of parade and line of march the early part of next week.

The following editorial is probably the strongest appeal ever written for the care and prevention of the eyes of children. That it should be read by every parent in Portsmouth is certain. It is really a duty.

Editor Portsmouth Daily Times.

I Am the Eyes of a Child

I am the EYES of a CHILD!

I am brown, or blue, or green, or black, or grey.

I have faith in every One and every Thing. I trust the world.

I look out upon the business of Life and wonder what it is all about.

I still possess the crystal clearness of Innocence. I see nothing sordid or unlovely. The pictures I throw on the baby brain are magical.

I am not for sale or exchange, nor can I be bought. I am Priceless.

I am the windows of the Soul. I am MORE than that I am almost life.

I am sensitive. I require Care and Thought on which I thrive.

I never return when once I go. I go reluctantly if go I Must.

I grow weak with Overwork, or Ill Health, or Strain. I resent Indifference or Neglect. When I am not as Strong as I was Intended to be I protest against over Exertion in the School Room. I rebel against long hours of Study or Reading at Home where the Lights are so Dim that I cannot see.

I sound my Warnings daily. I cause Misery to the Brain, and a throbbing Head. I produce a countless score of ills that are blamed on Everything but Me. My punishment is Relentless.

I MUST be heard. I punish myself. I worry myself into aching, twitching, burning coals of fire. I cannot Work. I Weep. I will not Sleep. I will not stop until my Cry is Heeded.

The Parents of the Baby Body in which I dwell blame Fretfulness, Illness, Apathy, Dullness and a Stumbling Gait on a score of things.

But I AM THE CAUSE.

I Live on Love for Love Protects. Oh! how great is the Reward I give.

I Fairly Sing and Dance and Thrill with Light and Joy and Gladness when I am Healthy, and Strong and Rested.

I Thrive on CARE.

The Brain, my Sister, takes Joy in my Joy, and Hand in Hand we are Wonder Workers. We perform Herculean tasks and are Glad.

I flutter into Being often More Weak than my new born Owner. I try not to be Harsh on the Cause of my weakness. I like Life and will Live with Care.

If I need Aid from the Skilled Hands of Men who Know Me, who study my needs, who Know What I Must Have, then I respond in Sheer Gratitude.

If I have Behaved Badly and caused Pain it is only because I have needed Help. With Assistance these Learned Men CAN give Me I Live until I am no longer Wanted.

I speak that ALL Parents may hear! It is my Prayer that you do not Shrug with Indifference or get Angry at the seeming Implication that YOU of all people could Possibly be So Careless or Lacking in Love as to permit YOUR child's EYES to be Neglected.

Will YOU Believe and Understand that I mean just YOU the very Owners of the Grown-up Eyes who are Reading this?

Are YOU SO sure that I do not NEED HELP RIGHT NOW?

REMEMBER I am the EYES of a Child.

I MAY be the Eyes of YOUR Child.

ENGLISH WRITER IS DEAD

ARMLESS HE OFFERS UNARMED

Vienna, Oct. 1.—Rudolph Gierke, an Austrian who in 1907 lost both arms and both legs in Spokane, Washington, through contact with a high current electric wire, is now in Vienna, and is being taken through the various hospital wards war cripples are in order to demonstrate to them the use of artificial limbs, and to cheer them up in general.

Gierke's condition was able to walk five days after his artificial legs had been supplied him, and today is able to walk between 10 and 12 miles a day, without relying upon a cane. He runs without difficulty, jumps and goes up and down stairs readily. He can even climb a ladder and ride a bicycle, and does almost everything that a person with legs can.

He is quite as clever with the pen as he is with his feet, and with wife and fork, with art and surgical skill, and is a well-to-do, accomplished

By Ray L. Hoppman

Vacation Time's Coming.

Vacation Time's Coming.
Vacation time is coming fast and folks are scanning guides (I fear the big supply won't last) and planning trolley rides. They gather booklets by the score, which tell them where to go to spend their fourteen days or more of laziness, you know. They buy a pencil and a pad and try to figure out how cheap a good time can be had and where to roam about. Man lives but once upon this stool, and so he thinks "his best that he should go where it is cool and take a little rest. And so they heed the call to farms, to mountains and resorts. They're got to rest their brains and arms and delve in outdoor sports. And now the hotels advertise and railroads do the same, the scenery that rests the eyes and where arounds the game. Folks find it awful hard to work—rascals on the way. Although they do not like to shirk, they're glad when night ops day. They want to ply a pair of oars or paddle a canoe, to watch the farmhands do the chores and haze mouth skins of blue. They long to frolic in the surf, to get a change of scene and roll around for all they're worth most anywhere. I woen. Vacation's coming on the run and folks are making plans to have a spell of restful fun in pairs and soires and clams.

RAY I. HOPPMAN.

Use for Onions. Onions are good for cleaning steel articles that have rusted. Rub the rust spots with a piece of onion and leave for 24 hours. Wash and polish with bathbric dust, moistened with turpentine. Wash again in soda and acid with clear water. Knives that have rust spots of long standing should be plunged into an onion and allowed to stand for some time. Finish the cleaning process as above.

Rare Specimen.

Once there was a small boy who be-
lieved that a picnic dinner was fully
an appetizing when served on a nicely
fold and artistically decorated table
as when spread on an ant-hill.

ground now occupied by the Excelsior Shoe Co. and then moved his plumbing mill to its present location on Gallia street, where it stands as a monument to the owner's thrift and energy.

At the present time considerable improvement is going on at the Webb plant. New concrete walks are being laid, roads graded and everything put in tip top shape. The buildings are practically new, while the big yards are filled with a most select line of lumber—all seasoned and anxiously awaiting the chance to be converted into new homes.

The Times congratulates Mr. Webb upon his splendid state of health. He owes his vigor to the fact that he is temperate in all things, lives out in the air and is strictly honest. He has nothing to worry him and it is a fine thing indeed that he is permitted to enjoy the fruits of his toil. In every way Mr. Webb is a splendid citizen, the right type of man. He has faith in his city and believes the time is not far distant until Portsmouth reaches the 50,000 mark. He is sanguine he will live to see that day. And in the mean time, he is busy furnishing house patterns and all the necessary material needed to construct warm, cozy homes.

He only recently returned from Covington, Ky., where he spent several days with his son, Rev. Henry Webb, pastor of the First Christian church of that city, and one of the strongest preachers in the Christian church brotherhood. A Portsmouth boy who has made good from the very start, and one from whom many good things will be heard in the future.

Cut This Out.

Each year come many questions regarding the care and culture of sweet peas, but for terseness nothing could surpass the brief statement made by a very successful grower in England: "Dig deep, water shallowly and thinly, stake up early, water early and dig promptly."

How much better to give the whole attention to what one is doing, but how many do it? The intentions may be of the best, but soon one may be thinking what will be done at the next club meeting, wondering what opportunities there are for securing a new suit at a reduced price, or what somebody said last night; and the time is passing and little work or study accomplished.—Christian Science Monitor.

The Older Woman.

Never did woman, of mature years have so much attention paid to her wishes along sartorial lines as at the present time. "Anything will do for grandmother" has ceased to be the slogan since the capable middle-aged woman has evinced a desire to wear becoming clothes. Centurions, always swift to feel the sartorial pulse, are now making a specialty of the sartorial life of the woman of 35.

OCTOBER 6-7-8-9

FRATERNAL PARADE TO SET NEW RECORD

Resplendent in color and abounding in spectacular features the Fraternal Parade on Thursday evening of the Karnival promises to be one of the biggest features of the entire four days.

The Fraternal Parade is the magnet that will draw thousands of visitors from neighboring towns, special trains having been scheduled for the evening from Fronton, Chillicothe, Winchester, Jackson, Maysville, Ashland and all intermediate points.

Many of the passengers on those trains will be fraternal men who will march with their brother members in this city, the Portsmouth Elks alone planning to be hosts to hundreds of members from Chillicothe, Fronton, Jackson, Ashland and Huntington.

In former year the Fraternal Parade has always been one of the crowning features of the Korn Karnival, but this year's pageant will far eclipse those that have gone before. Practically every organization that will be represented in the parade has ordered nobly marching costumes and each of them will be distinctive from the rest.

Six brass bands will play in the line of march, one at the head of each division of the parade. Several of the orders will enter attractive floats, which will enhance the spectacle.

An odd feature this year will be the members of the old German fire department, No. 3. The original hose reel, the original flag presented to them on July 4th 1884 by a ladies' organization, and the silver speaking trumpet accompanying the gift, will appear in the parade. Place has been reserved for them in the first division, which will be headed by the G. A. R. veterans in automobiles.

Open house will be held after the parade by many of the lodges, complimentary to their visiting members, and the entire evening will be one of wholesome pleasure and enjoyment.

Arrangements for the parade this year were in charge of a com-

mittee headed by Roy McElhenny who will officiate as one of the grand marshals' staff. Captain James W. Smith will again officiate as grand marshal and he has surrounded himself with a corps of aides who are experienced in that line of work.

The parade this year will form at the corner of Ninth and Chillicothe streets with the grand marshal and staff and the first division mobilizing on the west side of the intersection and Division Two on the east side.

Division Three will form on the west side of Eighth and Chillicothe streets and Division Four on the east side.

Division Five will form on the west side of Seventh and Chillicothe streets and Division Six on the east side.

When the parade moves down Chillicothe street past Seventh and Chillicothe streets it will be in full swing.

The line of march this year is south on Chillicothe to Second, west on Second to Market, north on Market around the esplanade and counter-march up Second street to Chillicothe, north on Chillicothe street past the reviewing stand to Gallia, and east on Gallia to John street, where it will disband.

The official formation of the parade is as follows:

Platoon of police.
Grand Marshal J. W. Smith and staff, E. W. Gableman, Roy McElhenny and M. J. Caldwell.
River City Band.

Division No. 1.

Captain Cread F. Miltstead, marshal; George Lauder and Joseph Krall, aides.
G. A. R. in autos.
Spanish-American War Veterans.

Improved Order of Red Men.

Former Sultan Keeps His Body Guard

Bordeaux, France, Oct. 1.—Abdel Aziz, former Sultan of Morocco, may be seen most any day promeneading the quays of Bordeaux in his red sandals, closely followed and carefully watched over by his only remaining servant, a stocky, coal black negro, whose duties in the days of his

master's reign were to drive away and keep away unwelcome visitors. There is a legend to the effect that his process was as summary as it was effective. Being deficient in diplomatic language he generally used the language of the hearing of the deposed Sultan is that of majestic enmity.

Dig Up Two Bits, The Rest Is Easy

Free paper napkins for the company, while the lumber in the "two-mile dinner" will be furnished by the Portsmouth Coca-Cola company, who have placed 5,000 of them at the disposal of the committee. Paper for the tables will be donated by The Times Publishing Co.

"CHORAL CONTEST" ON THURSDAY AFTERNOON

A new departure in Korn Karnival features this year, and one that is sure to make a pronounced hit is the "Choral Contest" on Thursday afternoon on the High School steps, which will be participated in by the school children of the Portsmouth public schools, the Portsmouth parochial schools, and the rural schools.

Two separate contests will be held, one for the children of the third, fourth and fifth grades, and the other for the sixth, seventh and eighth grades. The selection for the younger pupils will be "The Boatman's Song", and for the older grades, "Water Lilies". The selections were made with the view of securing two that were especially adapted for children's voices. Prof. Williams, superintendent of the Wellington schools, has been secured to adjudicate the contests.

Each chorus will be numbered and will march to the front of the High School steps as its number is called. When one chorus has finished, it will be stationed to the left or right of the steps, remaining there until all choruses have sung.

When the last one is finished, the choruses will be massed and a medley of patriotic and folk songs sung to the accompaniment of the River City Band, which will be stationed at the rear of the landing. This will furnish an inspiring spectacle, one that will have to be seen to be appreciated.

Chairman Ben C. Harris has designated the teachers to have charge of the rehearsals, and they are bending every effort to land the prizes for their respective pupils, which consist of two silver loving cups, to become the property of the building represented. The cups are on exhibition, one at Mrs. Zoellner's store, and the other at the store of Otto Zoellner & Brother. Inscriptions giving the date of the award and the name of the building will be engraved upon them after the awards are made.

Choruses from the third, fourth and fifth grades will sing

in the following order: Fourth street school, St. Mary's Catholic school, Lincoln school, Highland school, Campbell Avenue school, and the Eleventh street school.

Choruses from the sixth, seventh and eighth grades will appear in the following order: Offene street school, Bond street school, Union street school, Garfield school and the Holy Redeemer school.

Pupils in the different choruses are expected to be at the High school by two o'clock Friday afternoon, ready to take their positions. A special car will convey the Garfield school pupils to the building.

The High School building will be profusely decorated with na-

tional and Korn Karnival colors, and the front will be a festoon of white, green and gold.

Piano accompaniment will be furnished for the individual choruses. The High School grand piano will be moved out on the front piazza.

Union street: Sixth to Eighth grades—Mrs. Pauline McKeown, Mrs. Kate Williams.

Bond street: Sixth to Eighth grades—Miss Louise Small, Miss Marcia Storck.

Campbell avenue: Third to Fifth grades—Miss Anna Dnewel, Miss Ida Frick, Miss Mabel Hollebeck.

Lincoln building: Third to Fifth grades—Miss Margaret

Quinn, Miss Esther Moritz, Miss Ivy Shultz.

Garfield building: Sixth to Eighth grades—Miss Pay Davis, Miss Golden Gahn.

Highland avenue: Third to Fifth grades—Mrs. Bertha S. Wheeler, Miss Elsie Smith.

Offene street: Sixth to Eighth grades—Miss Clara Simpson, Miss Bertha Wilhelm.

Eleventh street: Sixth to Eighth grades—Prof. E. M. Gentry, Misses Evans, Turner and Anderson.

Holy Redeemer—Sister John. St. Mary's—Sister Euphrasia. Messrs. Walter Davidson and Anizy Ashell will assist in the training of the St. Mary's and Holy Redeemer choruses.

PORTSMOUTH IS A CHURCH-GOING CITY

Enviably indeed has been Portsmouth's reputation as a church-going city.

Without fear of contradiction the statement is made that there are more regular church attendants in this city than any other town anywhere near the size of Portsmouth in Ohio.

There is a reason for this. And one does not have to rack his brain to discover it. It is as plain as two and two are four. The city has a chain of churches that it may well feel proud, its ministers are congenial, affable and companionable. All of their time is devoted to their respective flocks and to their houses of worship. There is not a laager in the ranks of the local ministers. Each is working day and night to increase his Sunday school, his church attendance or perhaps it is his Men's Bible Class that he is particularly anxious to have increase its numbers. Probably no minister ever left the city without expressing deep regret over

having to leave Portsmouth.

Just recently the statement is accredited to a well known pastor that when he was no longer able to preach the gospel as means of a livelihood he would return to the River City and calmly await the setting of life's sun.

In the past few years Portsmouth has made rapid strides in the way of putting up beautiful new houses of worship. One may travel many miles and visit various churches, but the traveler will have a hard time finding three prettier churches than the handsome Holy Redeemer, Trinity M. E. or the Second Presbyterian churches.

Then there is the stately old St. Mary's which for so many years was presided over by the late Father Louis Nounen, the All Saints, Bigelow M. E., German Evangelical, United Brethren, Central Presbyterian, Manly M. E. church, Christian church, Grandview Christian church, First Baptist, Hutchins street Baptist,

Pleasant Green Baptist, Kental Avenue Baptist, Allen A. M. E., Findlay street M. E., First Church of Christ, Jewish Temple, Fourth street M. E., First Presbyterian, Wesley Hall Mission and Salvation Army.

All of the churches are in a flourishing and prosperous condition and Portsmouth points the finger of pride to its list of God's temples.

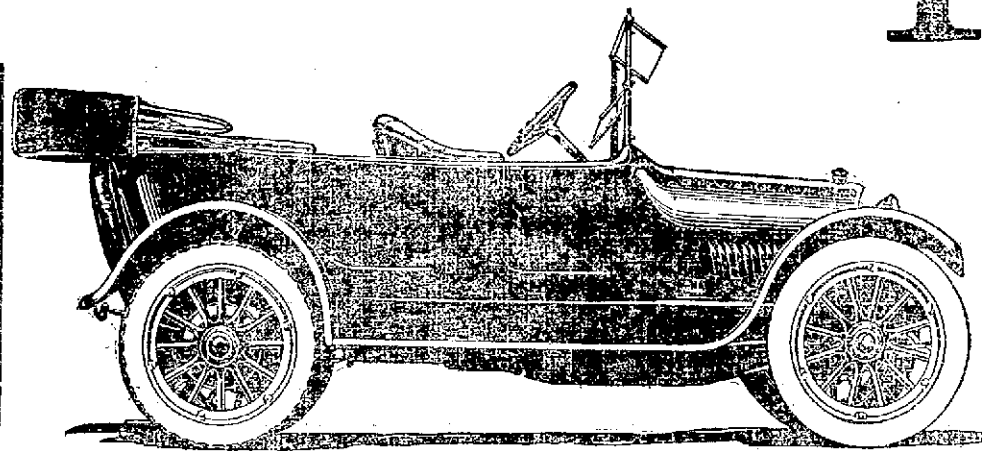

Health Note.
Health is capital for us all, and especially for the woman who works. However much talent and initiative you have, you will be handicapped in your work unless you have your share of good health. If you have not health it is your business to expend every minute of your surplus time acquiring it.

Sparrows on the Farm.
The English sparrow, thought to be a city bird, is found on the farms of the northeastern part of the United States to the extent of five pairs of each farm.

SPECIFICATIONS

The New Reo the Fourth—\$875

WHEEL BASE—115 inches.

SPRINGS—Front—Semi-elliptic—25" x 2" with 7 leaves. Rear—Semi-elliptic—25" x 2" with 7 leaves. Lower section—15" x 2" with 7 leaves; upper section—15" x 2" with 7 leaves.

FRONT AXLE—I-beam, drop forged with Timken roller bearing spindles.

REAR AXLE—Tubular, semi-floating, Timken roller bearings at differential. Heavy High Duty roller bearings at wheels, shaft integral with shaft—two universal joints in propeller shaft.

TIRES—24" x 4" front and rear. Non-skid on road.

MOTOR—Vertical, four-cylinder, cast in one piece, modified L type with integral head with inlet valves in head. Valve mechanism operated and protected.

CYLINDER DIMENSIONS—4 1/2" x 4 1/2".

HORSEPOWER—28.

COOLING SYSTEM—Water jackets and radiator, radiator cellular pattern.

LUBRICATION—Automatic force feed by plunger pump with return system.

CARBURETOR—Automatic, heated by hot air and hot water.

IGNITION—Combined generator and magnet, driven through timing gears with 16 ampere hour storage battery.

STARTER—Electric, separate unit, six volt, connected to transmission.

TRANSMISSION—Selective, selective type with single rod control.

CLUTCH—Multiple dry disc, faced with asbestos with positive instant release.

BRAKES—Two on each rear wheel, one internal one external, 14" diameter drum—service brake interconnected with clutch pedal.

STEERING—Gear and sector with 18" steering wheel.

CONTROL—Left-hand drive, center control—park and throttle on steering wheel with foot accelerator.

POSITIVE—Thrust-proof locking device.

PENDERS—Drawn sheet steel of latest type, shield between running boards and body, close fitting, quick detachable under pan, aluminum bound, insulation covered running boards.

GASOLINE CAPACITY—16 gallons. Air pump on dash for emergencies.

PAINT—Five passenger, streamline type, in car type with extra wide full fenders, front and rear. Genuine leather upholstery. Deep cushions and backs.

FINISH—Body, Golden Olive, running gear, black; equipment nickel plated.

EQUIPMENT—Fully electric heated throughout; improved glow, on-manual top with full side curtains; one-piece slip cover, clear vision rear vision, ventilating windshield, speedometer, electric horn, heater, power tire pump, jack, complete tool and tire outfit, foot and toe rails.

PRICE—\$875. C. O. B. Lansing, Mich.

Here Are The New REO Models and the New REO Prices

Look at the Cars, Consider the Values, and When Your Astonishment Has Somewhat Abated, Read Carefully the Explanation of How These Prices were made Possible.

WE FEEL WE MUST EXPLAIN to our more intelligent readers why and how it is possible to place such cars in your hands at such unheard of prices. FOR WITHOUT THAT EXPLANATION—without reason so logical they must satisfy you—you could not understand, could not accept, these values as genuine.

MOST MAKERS SEEM TO HAVE LOST THEIR HEADS in the fierce battle of price competition. As a result you've seen price reductions that indicated to your mind clearly one of two things—either that the value was not there last season or couldn't be this.

BUT KNOWING AS YOU DO REO STANDARDS of excellence in materials and manufacture; knowing as you do the Reo reputation for making only cars of sterling quality; knowing and estimating as you will, Reo integrity in selling as well as in making, you must marvel at these prices.

BOTH REO MODELS—The Incomparable Four, and the new Reo Six—have long since passed the experimental stage. Both have been tried and proven—and not by factory testers, but by thousands and tens of thousands of owners, and in every land.

"BUT THE PRICES?" YOU ASK. "Why and how were these necessary and possible. Why necessary—how possible for this product, not merely as good as formerly, but better?"

WE WILL ANSWER THAT QUERY. A COMBINATION OF FACTORS and conditions that are, we believe, unique with Reo, made these prices for these quality cars possible.

NO; PRICES OF MATERIALS HAD NOTHING to do with it—prices of no important materials are lower, while prices of many are higher now than a year ago. Only way cost of materials in a car can be reduced this year is by reducing quality of materials—using inferior or substitutes.

YES; THERE IS ANOTHER WAY—the simple expedient of reducing the amount of materials. In other words, reducing the weight of the car.

FOR IT IS A FACT THAT YOU CAN reduce the cost of an automobile twenty-five per cent. by the simple process of cutting the weight down that much. Some do—to the danger point, we believe.

REO CARS ARE LIGHT CARS—by not light to the point of flimsiness. They are as light as may be without sacrifice of safety or durability.

IN THE MAKING OF REOS this year we are using—just better because they are not to be had—but the same quality of materials as formerly. So that isn't the reason for the lower price.

COST OF MAKING IS, HOWEVER, somewhat less, thanks to the fact that in many ways we have been able to reach a still higher degree of efficiency.

ONE BIG ITEM IN COST REDUCTION of these two models was the fact that both had passed the experimental, the uncertain stage.

IT TAKES AT LEAST THREE YEARS to perfect any new automobile model. Anyway it takes that long to get a car to the point of perfection where we are willing to offer it to Reo buyers and back it with the Reo guarantee.

ANOTHER ITEM THAT HELPED (reduced) was the fact that the tool cost on both these famous models had long since been absorbed—charged off—permanently disposed of.

BUT PERHAPS THE MOST IMPORTANT factor in the reduction of manufacturing cost and at the same time the making of a better product, was to be found in Reo itself.

WE WISH YOU COULD COME and visit us at the Reo Factory. Wish you could talk with Reo workmen—the men and boys as well as the directing heads. You'd know then the reasons for the superior quality of Reos.

BUT REO DEALERS ARE RESPONSIBLE—the credit is theirs—for the biggest item. For, but for the unprecedented action and the hearty co-operation of hundreds of Reo Distributors we could not have placed these cars in your hands at these prices.

WE TAKE THEM INTO OUR CONFIDENCE to a greater degree than is usual in this business. We have no secrets from them.

SO REOS WILL BE SOLD in the future on a lesser margin from dealer to user (and factory margin has always been as close as was safe) than any other automobile in the same class or of higher price.

AND YOU AS A REO BUYER get the full benefit.

AND YOU GET MORE THAN THAT. You get more than a Reo at the unprecedented price.

YOU RECEIVE AN ASSURANCE, a guarantee that cannot be overestimated. In the fact that Reo cars have proven so good—so absolutely dependable—so economical in upkeep and operation—so wonderfully satisfying to their owners that these dealers feel they can handle them on that small margin.

SPECIFICATIONS

The New Reo Six—\$1250

WHEEL BASE—125 inches.

DAVID STAHLER, Agent, Portsmouth, Ohio

SEMI AND FULL FLOATING AXLES ARE DESCRIBED

"Few people understand what is meant by the terms 'semi-floating' and 'full floating' as applied to automobile construction states a local automobile enthusiast.

"Axes may be divided roughly into two classes, dead and live axes. All horse-drawn vehicles are equipped with dead axes, that is, axes do not revolve with the wheels, but are fixed, usually being fastened directly to the chassis or body, preventing rotation.

"In semi-floating, however, the axle is bolted to a steel tube instead of the dead axle. Then, if the round axle runs through this pipe and is fastened to the wheel at the end, the wheel and axle must revolve together, it is called a live axle, because it turns with the wheel. The tube or pipe in which the axle is known as the housing.

"If ball bearings be placed on the housing, so that the wheel turns on the bearings, it is called a full floating type because the axle floats in the housing. The wheel is mounted on an axle with ball bearings at the end of the axle, so that it may revolve freely, and is fastened on the other side to the axle by means of the hub plate.

"The entire weight on the axle is carried by the housing. The end tire system it is very important, however, as when the car is turning a corner, must all be supported at least once each month by the axle, which some-

times results in serious trouble. This is 'semi-floating' construction. With this type the wheel is usually taken out in order to get the axle out.

"The wheel on the 'full floating' type is mounted on the housing so that it not only rolls around on ball bearings, but also absorbs all end thrust on ball bearings. This construction takes all the strain of bad roads, including both weight and end thrust, off the axle and put it on the housing where it should be."

TWO REASONS FOR FAILURE OF LIGHTING AND STARTING SYSTEMS

The great majority of all troubles with lighting and self starting systems are due to one of two things:

First: Failure to instruct car owners in the proper care and operation of the storage battery and other parts of the system.

Second: The owners' neglect to follow instructions.

Inasmuch as the condition of the storage battery is an accurate check on the operation of the entire system it is very important, however, as when the car is turning a corner, must all be supported at least once each month by the axle, which some-

Song Of The Bills

The following song for the "Bill Parade" was handed THE TIMES Thursday. It is dedicated to all Bills of Portsmouth:

The Old Five Dollar Bill
They're talking about the tariff bill, the silver bill and all.
They wrangle through the summer, and they quarrel till the fall.

But of all the bills from Billings, the one we're waiting still.
An' the bill that buys the lunch is the old five dollar bill.

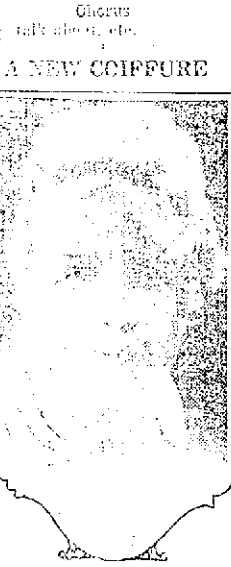

Chorus
They talk about your tariff bill, your silver bill and all.
McKinley bill an' pension bill, from Billings, great an' small.
But yet they never made a bill that always "fills the bill."
Like the rounded up an' crumpled up old time five dollar bill.

You may rattle it, an' crumple it, an' twist an' turn it round.
An' stuff it in your pocket, where it seems to weigh a pound.
Oh hide it in your swollen sock or in your pants—but still
There's never no discussion of the old five dollar bill.

Chorus
They talk about, etc.
It's greasy, as a market house from town' 'round so much.
But a fellow ain't particular when it's ticklin' of his back.
An' the biggest bill from Billings, the one we're waiting still.
Is the round up an' crumpled up old time five dollar bill.

A NEW COIFFURE

In this coiffure, originated by Rosa Pachen of Paris, the hair is slightly waved and combed backward, leaving a small bang over the forehead and temples. The sides of the hair are curled. The hair is drawn to the back and fastened in a small knot.

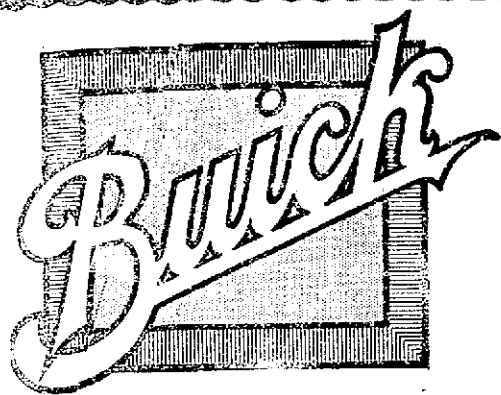

Germany Loses Sweden As Source Of Its Food Supply

Stockholm, Sweden, Oct. 1.—To England. The counting of the action of the Swedish government showed that whereas Sweden in prohibiting the export of food was expected to have for home oil meat, canned goods and live consumption 1,400,000 hogs, slaughter, which becomes operative to now has on hand less than half day, means the practical loss to this number. The alarming shortage of Sweden as a source of food of provisions shown by the import supply. Certain minor exceptions, together with the prohibitions will exist, the most near outcry against the high price of food is that of pork prices, which actually placed the and bacon can still be exported, common necessities of life beyond under special licenses; but the bulk of the food of the poor consumer, der is as absolute and inflexible as the order prohibiting as possible under the circumstances further export. It is thought that stances and Sweden's export trade this order will soon be extended in food is for the time being, and to all food.

probably as long as the war lasts. Soon after the outbreak of the almost completely at an end. Year, thousands of German buyers Although it has been common swarmed into Sweden, who did knowledge that Germany has been what they could even in the small substantially helped by Sweden in its villages, to buy up all available matter of food, the extent of the meat and vegetables. Duty this help has only been revealed or organized and with special central documentary figures which are offices established, where food as now available. The prohibitory or embargoed, live stock was slaughtered has been for a long time desired, earned and exported to by a desire expressed by the German government.

In addition to the prohibition of exports, food commissions are already fixing maximum prices on the ordinary food commodities. Milk which has been selling for about six cents in litre has already fallen to five cents, at the instructions of the commission, and a maximum price of six dollars and a quarter per hundred kilos of wheat has been set by the government, to last until the fifth of October.

It is thought that the prohibition of exports and the recommendations made by the commission will effectively reduce the speculative prices which now prevail, but to further help in the matter and to do away with the middlemen, and agents' commissions, the government has established a food bureau with branch offices all over the country, to buy all available supplies and sell them directly to the consumer without profit. This will undoubtedly be of material assistance in the effort to send prices downward.

WHAT THE N. & W. RWY. CO. HAS BEEN DOING PAST YEAR

As new people in the city have been made along the entire line of the Norfolk and Western during the past year.

As one of the best and most rapidly developing cities in the country the N. & W. has been doing the following:

The locomotives, eight electric locomotives, five all-electric, two all-electric, and one all-electric, are being used on the main line. The electric locomotives are being used on the main line, and the all-electric locomotives are being used on the main line. The electric locomotives are being used on the main line, and the all-electric locomotives are being used on the main line.

Valley, and West Virginia, W. Va., making 98.7 miles of single track and 515 miles of double track equipped with automatic signals.

Interlocking plants were installed at Waverly, Va., and Glen John, O. A power house for automatic signals was erected at Dwight, Va.

The 50,000 gallon water tanks were erected at Farm, W. Va., and a 100,000 gallon tank at Pulaski, Va. Pump houses were erected at Norton, Va., and Farm, W. Va.

A boiler house was erected at Williamson, W. Va. A foot bridge was erected over main line tracks at Roanoke shops. Three pneumatic ash hoists were erected at Bluefield, W. Va.

200 feet of Pepper tunnel were lined with concrete. The lining of Dupont tunnel was completed, 682 feet of brick being placed, including a 10 foot portal on the west end.

Peachtree tunnel No. 2 was lined with concrete. 100 feet of wooden bridge and 65 feet of iron bridges were replaced by masonry.

712 feet of wooden trestle and 121 feet of light iron bridges were replaced by 61 iron bridges removed from main line. 520 feet were replaced by new steel structures. 1550 feet of bridges were built to increase water way for flood defense in the state of Ohio.

Passing sidings were extended at Lewis, Bedford, Monrovia, Bonanza and Wadon, Va., and Dorsey, Ohio. The yards at Lambert's Point and Norfolk, Va., and Bluefield and Williamsport, W. Va., were enlarged.

15 highway grade crossings were eliminated; one by underground crossing of steel, two by underground crossing of masonry; ten by overhead crossing of steel and two by change of country road. 20.11 miles of banding were erected.

The electrification of the line between Bluefield and Virginia, W. Va., a distance of 29.35 miles, is practically completed.

The power plant and line work was finished and eight of the 12 electric locomotives were in service on June 30. The traffic result already obtained, says the annual report, indicates that the capacity of the line has been doubled and that the operating cost per ton mile will be materially reduced.

The cost of the electrification so far has been \$3,128,221.04.

Why We Work.

Young friends, in whatever pursuit you may engage, you must not forget that the lawful objects of human efforts are but means to higher results and nobler ends. Start not forward in life with the idea of becoming mere seekers of pleasure—sportive butterflies searching for gaudy flowers. Consider and act with reference to the true ends of existence.—K. H. Chayin.

No Need to Worry.

Electric—'I've been reading, Harold, that living is hygienically unsafe, and that the number of times you have kissed me.' Harold—'Oh, well, it's safety in numbers, you know.'

Electric Cars Are On The Increase

As you walk down the street highest degree many qualities these days in almost any city it is which all gas car makers are yet no uncommon thing to hear some striving to attain. Take for instance, "By George, but I can't get a smooth flow of power, aren't there a lot of electric cars? Gas car manufacturers are experiencing driven nowadays." Yet to mention with 4, 6, 8, and 10 cylinders those who have kept pace with modern engines in an endeavor to the advance in construction of produce a smooth flow of power electric automobiles, it does not and to cut down the battering and seem at all surprising that more hammering that each explosion of and more motorists are turning to gasoline gives to the mechanism. The electric powered car as both The Detroit electric's power flow, the practical and preferable auto, is far smoother than it is possible to ever obtain in an internal combustion engine.

In a recent talk with Mr. W. C. Anderson, president of the American Electric Car company, "is that the wise motor car buyers of Detroit Electric have opened their eyes to the fact that to my mind there is very fact that the enclosed car is the good logic in the choice of almost desirable all-year around an electric car in preference to any automobile. The Detroit electric is other type for all weather, all-weather, to be one of the finest, year, family use. In the first type of enclosed cars that has yet been produced, the electric car passes in been produced."

PITY THIS MAN, HE'S SEEN JUST 12,300 MARRIAGES

London, Oct. 1.—Charles Malisey, who has just retired from public life as Parish Clerk of St. George's Church in Hanover Square, has probably officiated at more marriages than any other man in the history of Great Britain.

St. George's is the church of all but the list of English weddings others whose Londoners of outbursts from the point of wealth or title goes to be watched, view of the social column. Mr. and Mrs. Malisey as Parish Clerk, Malisey's most cherished possession has taken an official part in every, since is a piece of silverware, a marriage for nearly forty years, sent him, as a token of gratitude, on an average 200 marriages and for his share in the wedding of the celebrated at St. George's, every Duchess of Marlborough to Lord, William Russell.

The small old church, located by two Kings and two Queens, at the heart of the fashionable shopping district, has been a great place of pilgrimage for royal and American travelers since Mr. Robert Ward, a which the duke, Theodore Roosevelt and Miss were the present King and Queen. Mr. Roosevelt was married there, Mr. King Edward and "walked in from Brown's Hotel on a Victoria. The other in a bowler hat, with Sir Cecil was the marriage of Mr. Asquith Spring Rice as his best man, and Miss Tennant, and the four was married with the minimum of Prime Ministers were the bride ceremony." The page in the register on "Malisey, Mr. Malisey, after in which he described him, Mr. Malisey and Lord Ramsey.

SOLIDITY OF PORTSMOUTH BANKS A BIG GUARANTY OF CITY'S FUTURE PROSPERITY

Financial Affairs In Hands Of Safe, Progressive Men

Nothing is so essential to the affairs of a community as a bank. In modern requirements and commercial life they are simply indispensable.

Portsmouth is not only possessed of several of these financial necessities, but she is fortunate in the fact that they are prudently and safely conducted. She is fortunate with them in another respect and that is they are vigilant and zealous in promoting the up-building of the town and in this they have played a conspicuous and an unusual part.

We say unusual because too frequently banks are so much engrossed in their own affairs, so exclusively devoted to producing dividends for themselves that they are unable to glimpse the broader horizon of the community and unable to get a keen perception that whatever develops the community, whatever benefits the people as a whole, produces a larger field and larger returns for them eventually.

Five Prosperous Institutions

And, perhaps, nothing shows more clearly the attained importance and gives such promise of Portsmouth's expanding future as these same banks. About a decade ago there were but three, today there are five. We can remember vividly for it was a short while ago, when it was received as almost an astounding bit of news that one of them had attained a million dollars in assets. Now one of them has over three and a half millions of assets and two others over a million each.

Yes, indeed, it is altogether approvable the local banks have grown so, not alone as betokening the ever increasing consequence of the town, but because they have been human and helpful in entering into the life of the town and its citizens, promoting to the furthest limit that prudence would allow the welfare of the first one and the prosperity of the individual. Many are the public undertakings to which they have given their aid and work and numerous are the private enterprises and industries that they have set on their feet and kept them there until they were able to go alone and make Portsmouth a most exceptional industrial city. In doing this they have stood true to wisdom and safety, and instead of mounting up big dividends they have cautiously lain aside surpluses that added to the capital after all measure in highest form the solidity of such institutions.

Banks Arteries Of Business Life

It is not here that banks exist to a wholesome degree with out money. There must be a place to get that money in necessary amount. This presupposes a place where money must be deposited and aggregated, a place where the dealer must go to get funds to buy the grain and the produce of the farmer, where the miller must apply for means to operate his mills, where the mer-

chant and the manufacturer must obtain the capital to purchase his stock and pay his employees, where every prudent and thrifty person must store his cash in safety against the day he shall have to use it. The natural and desirable place for this is unquestionably the bank. Lacking the bank there would be no facilities for caring for the harvest and conducting business and industry. The bank therefore is not a con-

Man Who Hides Money Hurts City

It is really an unfortunate fact that here in Scioto county, more particularly there is a considerable number of people who do not appreciate these facts. They are afraid of banks and hoard and hide their money. A most unwise and dangerous practice. Nine times out of ten the fact that one is hiding money about his premises, becomes noised abroad in the neighborhood and then is bred the temptation to robbery, followed by deed, even to the extent of murder done. This isn't a pure fiction nor an exaggeration, no, not even an alarm. It is a

truth that has been more than once horribly proven right in this same county of Scioto. There is not occasion these days for alarm as to the safety of money in banks, especially here in Portsmouth. The government, state and nation, have taken banks chartered by them under their watchful care. There is not, in any event, as much danger that a bank will fail, as that money under personal holding will be lost, stolen or destroyed. Much less is there such hazard in the first as in the latter, that life will be sacrificed.

Deserve Reputation For Conservatism

The local banks enjoy a splendid reputation for sound conservatism, which is but another term for solidity and stability. They are conducted by men trained and experienced for years in this particular line. On their directorate are substantial, successful citizens, who are influential in the commercial and manufacturing affairs of the town. These men give their counsel and prestige to the directions of the institutions. Not only are their pride and honor staked with them, but the property, in a very large manner, of their own undertakings, because nothing so paralyzes business as the failure of a bank. Naturally the continued close scrutiny of their condition is their immediate care and concern, so that weakness and dangers may be early discovered and remedied.

Nothing is of so direct concern to the commercial, manufacturing and agricultural interests of both

the city and county as the strength and capacity of the banks therein. These depend almost upon the resources and means of their immediate territory in which their principal transactions are carried on to furnish them with the necessary monies to round out and perfect this strength and capacity. No bank can be sufficiently prosperous on its own capital to be of much help and benefit to a community. It is the outflow and inflow of money, the keeping of it in constant circulation, that makes it the utility of indispensable service and vital requirement. In a thousand varied ways it administers to the daily, yes, the hourly needs of the general public and its patrons. Operating solely on its own capital, it would no more meet requirements than a mortgage company, it would not have funds on hand all the time to meet immediate demands that are continuous.

Consider How Banks Help You

Just look at a few, a very few things it does: You have a large debt to pay. You can't carry the money around in your pocket until you see your creditor. Therefore you put the money in the bank and send him a draft. The creditor presents it at the cashier's window and is paid. You live out in the county and it is inconvenient for you to come to town. You write out a check and send it to the county treasurer. You may wish to send money clear across the country, you go to the bank and buy a draft, for a good bank's draft can be cashed anywhere. Your grain buyer needs many thousands of dollars to buy crops, it is inconvenient and unsafe to carry all of this about his premises, he makes arrangements with his bank and draws from time to time such sums as he may need. You wish to buy property. You enter into negotiations with the bank and get the necessary funds.

The bank is the store house of idle monies. And here it serves again a useful and effective purpose. If you have no use soon for your idle money you can put it in the bank for a given time and get interest thereon. Locally the banks have served a great and efficient end by encouraging savings. Thrift is the finest and most saving economic virtue of a people. The banks lend inestimable encouragement to this by urging its value upon all and starting in the way of it by accepting savings deposits in exceedingly small sums and allowing interest thereupon.

As a last word, let it be said as they are doing everything for all.

all should at least in reciprocity patronize them as far as they can.

NEW HEAD OF BIG U. S. GUN FACTORY

Captain James H. Glennon.

Captain James H. Glennon is the new commandant of the Washington navy yard, or "gun factory," as it is to be called in order to raise the wages of the employees there, and has just assumed command. He succeeds Captain Eberle, who was appointed superintendent of the Naval Academy. Under Captain Glennon's direction most of the big guns for the navy will now be manufactured.

SHE'S DAUGHTER OF SECRETARY WILSON

Miss Mary Ellen Wilson.

Miss Mary Ellen Wilson, second daughter of the Secretary of Labor and Mrs. W. B. Wilson, who recently returned from San Francisco, where she visited recently, is now in Washington for a few days before going to Pennsylvania for an extensive round of visits. First she is to visit her mother at the family home in Bloomsburg and from there will go to visit school friends in nearby localities.

WAR HELPS AND HURTS FLORISTS

Berlin, Oct. 1.—The war has brought great difficulties to the flower growers of Germany—but also great opportunities. For years France and Italy have been the chief markets for cut flowers, and even the duties imposed by Germany have not protected the native merchants.

At the recent annual meeting of the various gardening associations throughout the empire, it was resolved to ask the government to make special efforts to keep out of Germany during the coming winter any cut flowers that might otherwise find their way in via Switzerland, from either France or Italy.

Belgium, however, also grows flowers in great quantities. The flower growers therefore decided to urge on the government a duty to protect them against competition from this quarter, after agreeing that it was urgently necessary.

The members of the associations represented agreed to undertake to decorate the graves of fallen soldiers through volunteer donations of flowers.

IMPROVEMENTS GO ON DESPITE WAR

Paris, Oct. 1.—Although most of the laborers employed by the city are at the front, municipal improvement is not being neglected. The Champs Elysees is being repaved, as well as a number of other streets, and public buildings needing repairs are receiving attention. Many of the workers are Belgians freed from military service and Frenchmen who are in the military classes not yet called, or who have been declared exempt from military duty.

PORTSMOUTH ONE OF BEST PAVED CITIES IN THE STATE

What attracts the attention of the average visitors to Portsmouth most?

Is it the beautiful First National bank building, the ideal plant of the Excelsior Shoe company, the many handsome homes, the \$250,000 high school building, the Carnegie library, the big Selby plant, the Terminal Steel Mill, or what?

While each of these attract attention there is no denying the fact that the most striking thing in the River City to the casual visitor is its miles of smoothly paved streets.

Portsmouth has earned the enviable reputation of having more uniformly paved streets than any

other city anywhere near its size in Ohio. Probably few residents here realize the fact that there are 35 miles of paved streets within the corporate limits of the River City.

This is true, according to City Engineer George Wilhelm, and the time is not far distant when there will not be a street or the fragment of a street that has not been paved.

Noted for its many modernly equipped brick plants, Portsmouth sets the pace in the way of paving its streets.

The slogan here is: "The dirt street of today is the paved street of tomorrow."

The first street that was paved was Second street, according to City Engineer George Wilhelm. The longest paved street in the city is Gallia street.

The shortest paved street is Scioto. It runs from Second to Front street in the West End.

"There are only very few streets in the outlying districts that have not been completed," said Engineer Wilhelm in discussing the admirable and attention-compelling paved streets of the city. "The ends of one here and there remain to be paved and this will be done within the next few months," Mr. Wilhelm stated today.

NEIGHBORLY INTERESTS FOSTERED BY KARNIVAL

One big thing in favor of Iron- ton's Apple Show, Chillicothe's Fall Festival and Jackson's Fall Festival and the Korn Karnival of this city, is that these events, coming as they do so closely upon each other's heels in the early autumn season, have done much to promote a more neighborly spirit among the cities.

The collecting and joyous affairs have brought families in touch with each other that had drifted apart for many years. Friends that were familiar years ago were once more seen, all because these shows had brought about the opportunity to mingle among old scenes and friends.

Acquaintances of years ago were renewed, school companions of the long ago met for the first time in many years and the fires of friendship that had been cooled by time were rekindled at these events. There is no getting around the fact that the Apple

Show, the Fall Festival's and the Korn Karnival have done more to make Portsmouth, Iron-ton and Chillicothe better acquainted with each other than anything that has occurred in the past half century.

They serve as a home coming and are fraught with the happiest of reunions.

THREE BOATS ARE ADDED

Sydney, Australia, Oct. 1.—The cruiser Brisbane and two torpedo boat destroyers, which will be launched at the Cockatoo Island Naval Dock Yard here during the next two months, will add considerably to the Australian

navy. The Brisbane will be the first cruiser entirely constructed in an Australian yard by Australian workmen. She is named after the capital of Queensland, and is a sister ship of the Sydney—the victor over the Emden—and the Melbourne. She is 5,000 tons displacement and is armed with 6-inch guns.

The two destroyers are the Torrens and the Swan.

SEND 116 TO FRONT

Suva, Fiji Islands, Oct. 1.—Out of a population of a little over 4,000 Europeans, the British colony of Fiji has official sent 116 men to the front, and another 130 have gone independently. The total is thus 246 or about 1-16 of the entire white population.

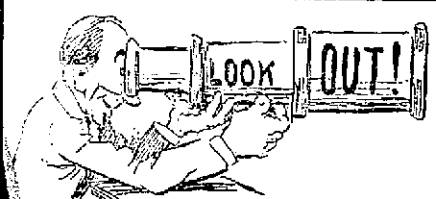

The latest telephone wires in Portsmouth are those leading to the TIMES WANT AD department.

MACKENSEN PHOTOGRAPHED WHILE PURSUING RUSS IN POLAND

Arrow Points to General von Mackensen.

General von Mackensen, the famous German commander who has been supporting General von Hindenburg's left wing since the German drive against Russia, is shown here in a picturesque scene. He and his aide-de-camp (at extreme right), followed by a Death's Head Hussar, are wading through a small stream in northern Poland, to obtain a personal observation of a stiff rear guard action of the Russians against the Germans.

FOR THE BIG OPENING FEATURE OF THE KORN KARNIVAL—

THE "TWO MILE DINNER"

STARTED OFF WITH A SMASHING BIG "ROASTING EAR" FOR EVERYBODY

WANTED--A MAN WITH RAINS MAKE TH SHOW

WANTED--A MAN

THAT'S a Sign that is hanging out every day in the week on the Workshop of the World.

That is what every business in the world wants--**A Man.**

That is what no business in the world can succeed without--**A Man.**

And the person who can fill this description is the one who gets the job—who holds the job—who makes good wages—and whose earning power will grow with the growing years.

WHAT IS A MAN?

It isn't years makes **A Man.**

It isn't bodily strength that makes **A Man.**

It isn't a big brain that makes **A Man.**

Thousands of men throughout the country from 20 to 80 years of age are hunting jobs.

Thousands of men of splendid bodily strength are hunting jobs.

Thousands of men—real geniuses—men with big brains are hunting jobs.

But when these men enter into the Great Workshop of the World with thousands and thousands of competitors they find they do not fill the specifications—**WANTED--A MAN.**

You know that these are facts. You know that these statements are true.

A Man is something above and beyond and more than all these things.

WHAT MAKES A MAN?

Training—Experience—the Bull Dog Grip!

Whatever your work may be, throw into it your whole heart and soul and body. Whatever you have to do—do it in the very best way possible.

It took you years to grow from childhood to manhood. It is going to take you years and years to become a thoroughly trained man.

And with the training will come Experience. That is bound to follow. Experience always comes with years of training.

And, lastly, never give up—never lose heart—stick to it—stick to it with the Bull Dog Grip.

A combination of these three things makes **A Man.**

ISN'T THIS SO?

If you are the **BEST** trained man in your line of work.

If you are the **MOST** experienced man in your line of work.

If you have in you as a part and parcel of your being the Bull Dog Grip—you can **ALWAYS** get a job—you can **ALWAYS** hold a job—you can **ALWAYS** make a living.

The **BEST** man in any line is the first to get a job—and the last to lose it.

And this is true—no matter what you do.

Whether you dig ditches for a living or cut coupons for a living you are **A Man**—**THE** Man that the whole world wants.

Wanted--A Man!

Are **YOU** The Man?

You will find these figures—68—over the door of our Big Building as you enter. That is the Charter Number given to us by the Government of the United States. Of something like 10,000 National Banks in the United States **THIS BANK** stands in the list as No. 68!

This is one of the Strangest Advertisements you have ever read. It doesn't contain the name of the Bank that inserts it. It doesn't have to do so. This Bank is over 50 years old. It's the largest Bank in Southern Ohio outside of Cincinnati. It has the finest Building in Portsmouth. It towers up in the air—a land-mark for miles around. Thousands and thousands of people know this Big **NATIONAL Bank**—because they are depositors here.

And every Man, Woman and Child in Portsmouth who sees this picture—and probably every one in Scioto County—and thousands on the other side of the River—**KNOW** the name of this Bank.

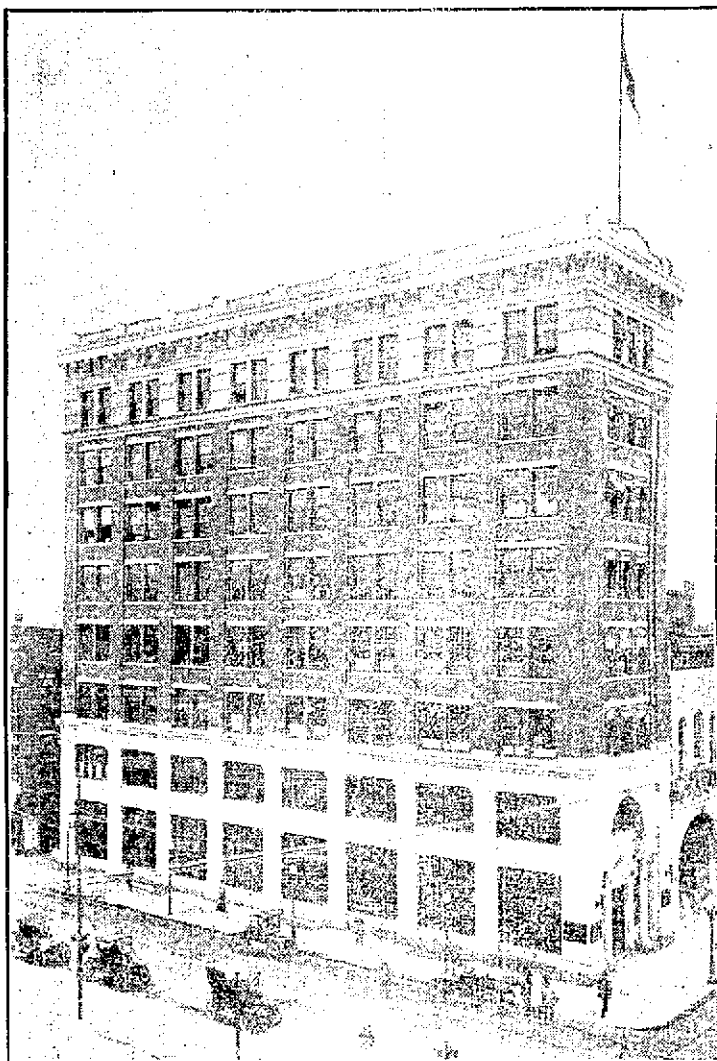

Do you wish to keep your money in a Bank that **EVERY ONE** knows—that is always and at all times out in the strong light of publicity—the Biggest Bank in the County—a **NATIONAL Bank** which welcomes every member of the community—no matter how small their accounts may be?

Then let us see you here—even if you only bring \$1.00.

Any Week Day (except Saturday) from 9 in the Morning until 3 in the Afternoon.

Saturdays from 9 in the Morning until 12 Noon.

TUESDAY EVENING 6 to 8 o'clock.

This is the tallest Bank Building in Portsmouth. It is occupied by the Biggest Bank in Scioto County. It is a **NATIONAL Bank** over 50 Years Old. It has **THOUSANDS** of Depositors. It has **MILLIONS OF DOLLARS** in Resources. It has a **NATIONAL Savings Department** which pays interest **COMPOUNDED EVERY FOUR MONTHS**. You can open an Account here with any sum—no matter how small. We welcome Working People—and welcome them heartily.

DO YOU BE A WORKER?

Do you always want to be a Worker?—you don't have to! It's for you to say. You always wish to be a Working Man—or whether you want to be something better—bigger—richer—more successful.

After you have perfected yourself to be the **VERY** best Man in your line that it is possible to be—there's going to come to you an opportunity for Bigger Things.

If you are a Carpenter—and have years of training and experience—and you know that you have made out of yourself the very best Carpenter that you could make—the time will come when you may have the opportunity to be a Contractor.

If you are a worker in a Factory—and after years of training and experience can do more work—better work—than others—the opportunity is coming to you when you may own a Factory yourself.

When that Time comes for you—will you be prepared to seize it?

Will you have the money to take advantage of it?

THIS HAPPENS TO EVERY MAN

The man who is thoroughly trained—experienced—is given an opportunity to better himself—to mount the Ladder of Success. Opportunity knocks at every man's door not once—but many times.

All around you—you have seen men who started at the bottom of the ladder succeed—from working men they became employers—from poor men they became rich men.

They were able to do this because they had that Magic Key that unlocks the Door when Opportunity knocks—**MONEY!**

There is no record in Modern History of a Man who succeeded in life without **MONEY!**

Some of these days you are going to have the Opportunity to rise to better things. It is going to take money to take advantage of it.

Will you have the Money—will you have a Bank Account?

If you haven't—if you remain at the bottom of the ladder all your life—put the blame where it belongs—on yourself.

THIS IS POSSIBLE FOR YOU

It is possible for **you** to build up a Bank Account.

It is possible for **you** to have Money.

The first thing to do—as this Bank has told you over and over again—is **THE START.**

Monday will be Labor Day—won't it?

This Bank is closed on that day. All of us celebrate Labor Day—because we are all workers in one capacity or another.

But on Tuesday bring down to this Bank \$1.00. That's all you need to make the **START**. Open a **NATIONAL Savings Account** here.

Then every time you receive your pay put something in your Bank Account here. No matter how small the amount may be—no matter how trifling it may seem to you—the day you receive your money that day place some coin in your **NATIONAL Savings Account** here.

Do that. Keep at it. Train yourself in habits of thrift and saving. Buy yourself Experience—at no cost to you—for a Bank Account is the only way by which you can buy Experience and still have your money. Keep at it with a Bull Dog Grip—an absolute determination that nothing is going to turn you from your purpose—that you are **BOUND** to succeed—that you are **DETERMINED** to build up a big **NATIONAL Savings Account**—and the time is going to come when you **WILL** succeed.

Will you make that determination—on Tuesday—to join our Army of over **FIVE THOUSAND** Men, Women and Children who have started on the Road to Success?

Brother Worker—the decision is up to **YOU**.

This may be the turning point in **YOUR** life.

What will your decision be?

What Are You Living For?

While Portsmouth denies being a "boom" city, yet its period of growth during the last census period was pretty good idea to ask yourself that question highest in the once in a while. It brings more forcibly to your mind development that you are here—and that you are here for something. Excellent

In other words, IT MAKES YOU THINK, and thinking is good medicine. The older you get the more you think about life and in many instances you approach the future with greater caution.

When you are young, with the whole panorama of life painted upon life's canvas in glittering and bright colors, life is a dream to you and the future does not disturb you—in fact, you are care-free and happy.

You've got a good job, perhaps, and you're completely satisfied with present conditions.

You reason that there is no hill too steep to climb and no river too deep to cross. That's because you are full of "pepper" and hope.

Hope is a great anchor upon which to build your future, but unrealized hope is like a ship without a rudder—you're landed upon the rocks of despair sooner or later.

As said before hope is a pretty good asset, so long as everything is going right.

But, friends, when you grow old, and your earning capacity ceases—when you are all worn out—what then?

Have you been one who thought you would never grow old and that you would always be able to keep the wolf from the door?

Have you been one that lived a sort of hit and miss life and never laid aside anything for a rainy day?

If so, you may crave sympathy, with hope as bleak and as dark as midnight.

Of all men, you are to be pitied—but you brought it on yourself. Old, decrepit, infirm—down and out—no job and no hope.

The good times you had when you were young won't assist you now. You are face to face with a problem the solution of which you worked out as you went through life scattering your earnings to the four winds. You've nobody to blame but yourself. You were once blessed with health, a good job and you had your chance.

Now, it's too late.

WHAT DID YOU LIVE FOR? Why, a good time.

You builded wrong, old fellow, and you sowed to the wind and now you are reaping the whirlwind.

Ten to one, your wife did her best, but you laughed at her when she implored you to lay something aside for the future—for old age. You should be living in comfort off your surplus earnings, but you didn't stop to think!

And it is likely you never taught your children the habit of saving and unless they open their eyes to reason and take a quick jerk on the lines they may follow in your foot steps.

On the other hand, maybe you have saved. Maybe you put aside a certain sum each week and that you are enjoying the fruits of your labor and thrift.

TO BUSINESS MEN

Our special facilities for handling commercial accounts have made the Security essentially a "business man's bank." We invite additional accounts of responsible business men and houses, especially of the younger business element of the city.

THE INDEPENDENCE OF WOMAN

Begins not with the ballot but with her individual, private Check Book. With an account in a Bank she is master of her own destiny. Political storms cannot affect her, and social problems are made easier to solve.

SAVING AND EARNING

The man who earns a small salary and saves a part of it will be better off at the end of a year than the man who earns a large salary and spends all of it.

This bank welcomes Savings Accounts in any amounts from one dollar upwards, and pays compound interest thereon.

OPEN A SAVINGS ACCOUNT.

The average man or woman seldom develops the habit of saving until a Savings Account has been opened. The possession of such an account acts as an incentive—your natural desire to see the fund grow encourages that tendency to thrift so necessary to success. No matter how little you can afford to lay aside from the weekly wage, open an account here today.

MAKE FRIENDS WITH A GOOD BANK

There is more to a savings account than the dollars you put in it. A banking connection means a lot to a young man. He needs banking relations—financial friends—before he can launch himself into business. We have many young men banking here who will be powers in the Portsmouth business world some day. Why don't you join them? It will pay you more than one.

You smile as you think of your thoughtfulness, and your sleep is as peaceful as that of a child. **YOU LIVED FOR SOMETHING**, and you are to be congratulated—you did right.

Maybe you put your savings in our bank, where they drew compound interest three times a year. If so, we had some share in your prosperity. **AND WE ARE GLAD OF IT!**

Do You, Young Man, Want A Future?

WON'T you take heed from the want and misery you see on every side and resolve right now to put aside a part of your earnings? Don't allow yourself to be deceived. You won't always have that good job—the pay envelope is going to stop some of these days. It may be a long time, but just as sure as the sun rises and sets, pay day will stop. As you grow older, your efficiency will begin to dim just like your eyes. It is to you we like to speak—to you young men who will soon shoulder the entire responsibility in society, in business, in the church and in the home.

Good citizenship is produced through honest efforts, untiring energy, unselfish devotion to a good cause, giving value received for your wage and an exercise of thrift.

Save something each week—lay aside a certain sum—make this rule one of your fixed policies. It is a sure road to Higher Citizenship. It means that you will have lived for something.

And then when old age begins to sprinkle silver in your hair, you will wear a smile of contentment—one that won't wear off. You will have solved the problem, "WHAT ARE YOU LIVING FOR", and the future will have no terror for you.

Start an account at this bank—\$1.00 will do. Honestly, though, you will soon find that you can spare more, and after a while you will lay away more and as your deposits begin to mount upward you will manifest such an interest in your bank account that will add to the joy and purpose of living.

Saving Is Worth The Effort— THINK IT OVER!

Remember, we pay interest, compounded three times a year, and you'll be surprised at the rapidity of the growth of your deposits.

We would like to have you drop in any time and talk it over.

Open every business day till 3 o'clock and Tuesday evenings until 8 o'clock.

This Bank insures your Deposits and has the largest Resources in proportion to liability of any Bank in Scioto County.

Where Savings Are Safe

CONSERVATIONISTS PLAN ORGANIZATION OF THE COUNTRY'S
RESOURCES, THAT NATION MAY QUICKLY REPEL POSSIBLE FOE

(Continued on page seven)

THE BUILDING UP OF A BANK

The Central Savings Bank opened its doors for business on Monday of June 5, 1893, or a bit over 22 years ago.

Its capital stock was \$30,000 and, of course, to begin with, it had no other assets in cash.

It had, though, other assets to prove of just as much value in the future. These were its purpose to fill an honorable and useful place in the thrift and business life of the community, and at all times to hold the interests and monies of its patrons safe and secure.

Steadfastly in the passing years it has held true to its original policies. It has continued to consider them more valuable than possibly larger profits and bigger dividends, that might appear possible in a less exact course.

We believe our patrons and the public are pleased with our way of running a bank, because none have ever lost anything by us and our business has continued in a steady and substantial increase until now we can claim without any appearance of boasting to be a big bank. We know we are satisfied because we have that essential, especially desirable in a bank, the confidence of the public and the general reputation of being as solid and reliable a concern in its line as can be found anywhere in the country. Maybe we may be regarded a bit over conservative, but that is highly to our credit. It shows that we never varied in our principle of safety first and above all things, though adopting it long before the same became vitalized into a public and general movement.

Let it not be supposed our way was all easy and clear sailing. On the contrary there were obstacles to pass around and difficulties to overcome and often the course appeared hard and, perhaps, uncertain, but we had the courage that even at the worst all was safe with us and our friends and the confidence that the true compass would bring all right further along. And that has come true in another and more visible manner than we have already set out to some detail. Progress has been invariably forward. Of a truth, such was our development that it was thought this could be best maintained and characterized by change that would organize the bank from a state to a national.

This was done on June 21, 1905, and when the doors of the Central Savings Bank closed and those of its successor, the Central National Bank, opened, the books showed that whereas the Central Savings had begun business with a capital of \$30,000 and no deposits, the Central National started with a capital of \$100,000 and deposits of \$400,000.00.

In the period since, mindful of the policy of safety first, there has been added to the capital a re-enforcement in the way of a \$70,000 surplus. In other words we have put up just that much additional guarantee of our own money to our patrons and depositors that their monies will be safe in our care. They have appreciated and responded to this to an extent that now places our total assets at the handsome total of more than a million.

But the province of a bank is not solely to hold the monies of its patrons safe; it has a mission higher and better than that, which is to do its full part in promoting the general local thrift and prosperity. As a means to that end we inaugurated and have now under successful way a savings department. We can see every day the vast good this department is doing. It is teaching hundreds of persons to whom perhaps, the purpose would without it have never come, the value of thrift, the real, big thing that lies in saving, laying aside regularly some part of earnings or income as a preparation for the future and a provision to meet those bigger opportunities that may come at any time. It has been an exception where the start in the savings department was not small. Hundreds of depositors began with a single dollar. Some laid that by every week. Then they became fired with a desire to see their reserve fund growing faster. They cut out this and that unnecessary expense and increased their deposits. Now there are many who have hundreds of dollars laid by, not a few who have thousands, yet in all these the number who had anything saved at all, would be scant, if they had not availed themselves of the encouragement and help lent them by the bank's saving system.

We allow three per cent interest on savings deposits and compound that interest three times a year. Actually there isn't anything so all-powerful as interest. May be that has not occurred to you. Let us quote to you then the oft given illustration: Had a single penny been placed at ten per cent compound interest, at the time Columbus discovered America, and kept thereon uninterruptedly for the five centuries since, it would now amount to as much as all the wealth of the United States. Seems incredible, but approximately it is true. But to set before your eyes, just what interest will do, sit down with pencil and figure a hundred dollars at five per cent---the easiest interest calculated, because you can divide by two and add---compounded annually and see how quickly it will double, bearing in mind that principal and interest will double again at the elapse of the same number of years.

But we go further with our patrons than keeping their money safe and paying interest on savings and time deposits. We give them without charge and cheerfully our counsel and advice as to investments. Our business requires us to have a thorough knowledge of what stocks and securities are safe as investments and a clear judgment as to probabilities of success or failure in undertakings. This is all at the command of patrons in mutual confidence, as all dealings with us are.

Soon many of you who read this will be on the streets of Portsmouth to view the displays made by our manufacturers and merchants, the splendid exhibits made by the farmers of the greatest crops ever raised in this section and enjoying the diversions provided. You are one and all invited to at least walk through our bank, which has entrances on both Gallia and Sixth, and see what is unquestionably the most beautiful banking quarters in all this region. Their accommodations are at your disposal and ladies especially will find them adapted to privacy.

Your favor in any of our lines will be highly regarded and our most careful and courteous treatment will be extended.

NEW TRACTION LINE IS NEARING COMPLETION

Portsmouth And Ironton Will Clasp Hands With Completion Of Interurban

Long before the time for the next Kora Karnival rolls around, Portsmouth will be connected with Ironton by the first traction line to enter the city, the Ohio Valley Traction company, with offices in this city.

Work on the construction of the line from Sciotoville to Ironton is being pushed to rapid completion, and by January 1 next, cars will be operated as far as Hanging Rock, where connections can be made with another company entering Ironton. The full line from Portsmouth to Ironton will be in operation by March 1 next.

The Ohio Valley Traction company is owned by the same company that operates the Portsmouth Street Railway and Light company, and the present tracks from Portsmouth to Sciotoville will form a portion of the through line.

Orders have been placed for four regulation interurban cars of the most improved pattern, embodying every convenience and comfort possible for the patrons of the road. Cars will be run from Portsmouth and Ironton every hour, with stops at all intermediate points. Limited cars will also be run at certain hours during the day.

The operation of the traction line will open up a big trade market for Portsmouth firms, the road traversing a rich rural section, the inhabitants of which will be brought

within easy access to the Peerless City.

Conscientious and efficient service is insured, since the company will maintain the same policy as has made its local service the equal to any in the country.

Shrewd business men see in the construction of the interurban line from Portsmouth to Ironton the beginning of a network of traction service that will radiate from Portsmouth in all directions, in time making this city the hub of the southern Ohio business district, the big shopping center and the metropolis of southern Ohio.

Dickens' Opportunities.
Every writer knows how limiting the mere desire for popularity can be to creative work. By having constantly to keep in mind the importance of sustaining his success, of appealing to the popular taste, Dickens was continually kept back. If he could have worked for work's sake, he might have produced far greater masterpieces than those now associated with his name. In this way he might have helped to bring popular taste to a higher level.

Why We Count in Tens.
Because we have ten fingers we count in tens; therefore, for ease and quickness of reckoning all our measurements should be in tens. Then, in order to reckon, we should only have to use the very simple method which we learn when we study decimals.

WILL RUN BIG RIVER EXCURSION

The excursion steamer "Homer Smith" will run an excursion from Parkersburg to Portsmouth on Saturday, October 9, the last day of the Karnival. Stops will be made at all intermediate points, and between 2000 and 3000 are expected to be on board when the boat lands at the local wharf.

The boat has been chartered by officials of the Woodmen of the World Log Rolling Association, which holds its annual Log Rolling in this city on the last day of the Karnival. Every camp along the river is expected to send a delegation, and many of them will enter their degree teams for competition in the prize drills. The excursion will be open to all who want to come.

Don't let another sun set with your WANT untold. Use the **TIMES** which reaches over 9,000 homes every day.

Thirsty? Free Ice Water

Free ice water will be furnished Kora Karnival visitors all four days of the Karnival. E. W. Richard has secured six big barrels, and has made arrangements for plenty of tin cups. Ice will be furnished by the Stockham Ice company, while the city will donate the water from the new water works. The barrels will be kept filled all the time.

25,000 Cards Sold

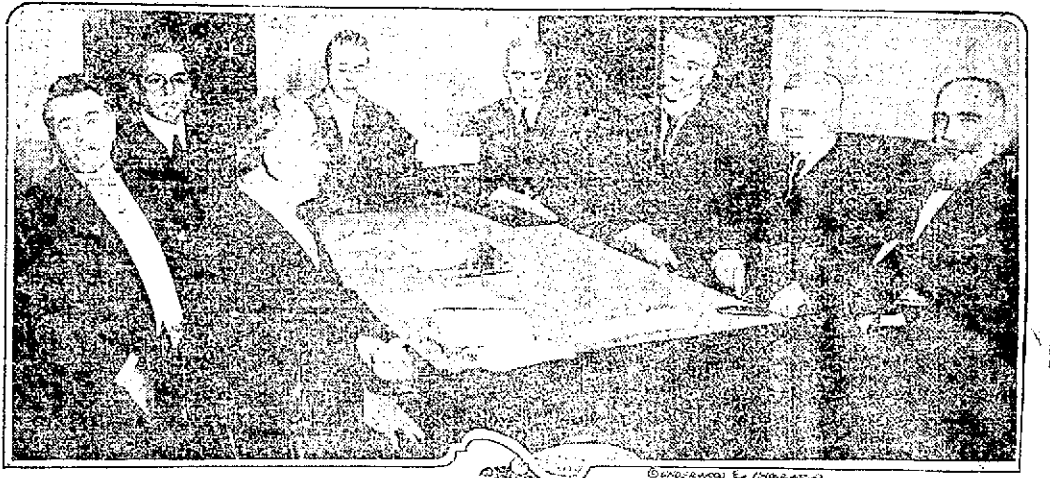

Upwards of 25,000 souvenir Kora Karnival post cards have been disposed of during the past month, only a few of the entire order being left for sale in the local stores. Some fear was felt at first that all of them would not be sold, but the reports from the dealers have shown that the order was not too large. Last year, 10,000 cards were ordered, and the supply was exhausted long before Karnival week.

ESTABLISH UNIVERSITY IN WARSAW

Warsaw, Poland, Oct. 1.—Less than a month after the occupation of Warsaw by the Germans, plans have been laid out for the creation of a Polish University, designed to attract the young Poles who heretofore have always sought foreign institutions of learning because they would or could not attend the old Russian university here.

The German authorities have readily agreed to the proposal of the citizens' committee which now is conducting the city's affairs, allowing the return to Warsaw of Poles, who now are in foreign countries. This includes scholars of all ages. Meanwhile it is arranged for all educational institutions up to the university to open on schedule time.

ENVOYS AND LANSING IN CONFERENCE LEAN TO RECOGNITION OF GENERAL CARRANZA

Left in right order at the table: Minister Calderon of Bolivia; Minister de Pena of Uruguay; Minister Mendez of Guatemala; E. C. Sweet, secretary of the conference; Ambassador Naun of Argentina; Ambassador de Gama of Brazil; Secretary Lansing; and Ambassador Mujica-Suarez of Chile.

This picture was taken on the occasion of the recent conference between Secretary Lansing and the Latin-American envoys in New York. The diplomats decided that the time is ripe for the recognition of a stable government in Mexico, and at their next meeting in Washington early in October will decide which party is to be recognized. The decision of the conferees is interpreted as the complete diplomatic triumph of General Carranza and his cause.

Assignment Of Church Booths

Assignment of church booths for refreshment purposes during the Kora Karnival is as follows:

First Baptist — Refreshment booth, Second and Chillicothe streets, Mrs. James Yeley.
Holy Redeemer — In front of London Shop on Chillicothe street, Mrs. St. Straus.

First Christian — Southeast corner of Fourth and Chillicothe streets, Mrs. James Wilson.
All Saints' Episcopal — Not assigned, Mrs. Harry Donnelly.

German Evangelical — In front of Bremer's store on Gallia, Mrs. John Wonne.

Allen Chapel — In front of Good on's barber shop on Chillicothe street, Mrs. Judson Whitfield.

Bible M. E. — In front of Fowler building on Second street, Mrs. Graham.

Fourth Street M. E. — In front of Erie theatre, Mrs. Charles Miller.

Manly M. E. — In front of Hall Brothers, Mrs. L. D. Jordan.

Trinity M. E. — In front of Reiss Brothers' store, Mrs. James Pfeiffer.

Central Presbyterian — In front of Decker's military store on Second street, Mrs. Frank Brown.

First Presbyterian — In front of W. H. Schwartz's store, Mrs. W. H. Schwartz.

Second Presbyterian — Southeast corner Sixth and Chillicothe streets, Mrs. Albert Manning.

Salvation Army — In front of opera house building, Capt. Ethel Robinson.

Sciotoville Christian — On Chillicothe street, Mrs. James Pfeiffer.

Old Ladies' Home — In front of Apd's jewelry store, Mrs. Albert Zoellner.

Y. W. C. A. — Rest room, in front of Salvage shoe store, Mrs. Henry Heer.

SAGE AND SULPHUR DARKENS GRAY HAIR

Brush this through faded, lifeless locks and they become dark, glossy, youthful.

Hair that loses its color and lustre, or when it falls, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair.

Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value their hair which is so attractive, use only this old-time recipe.

Knowing we get this famous mixture by asking at any drug store for a 50 cent bottle of "Witch's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Witch's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

WOMEN ON HORSEBACK WILL BE A FEATURE

Ladies on horse back will comprise one section of the Boosters' Parade on Wednesday evening of the Karnival. Portsmouth has a number of proficient horse-women, and all of them have been invited to enter their mounts in the parade.

Mrs. M. A. Coo, wife of the secretary of the Business Men's Association, will have charge of the section. A place has been reserved for it in the parade.

AUSTRALIAN CASUALTIES ARE GIVEN

Melbourne, Australia, Oct. 1.—The number of casualties among the 76,000 men that Australia has sent to war was made known by Premier Fisher in a statement to Parliament today.

The losses, including the men who died in Egypt and Europe since the embarkation of the first contingent in November, 1914, now total some 13,976, he said, of which he gave the following classification:

Dead—officers, 177; others, 2,855; total, 3,032.

Wounded—officers, 356; others, 8,756; total, 9,112.

Missing—officers, 11; others, 75; total, 736.

Sick—officers, 91; others, 992; total, 1,083.

Prisoners—officers, 2; others, 8; total, 10.

Total—officers, 640; others, 13,336; total, 13,976.

The Premier stated that 40,000 troops were now in preparation for the front, and that by early winter the Australian Expeditionary forces, not counting losses, would have reached a total of 117,000.

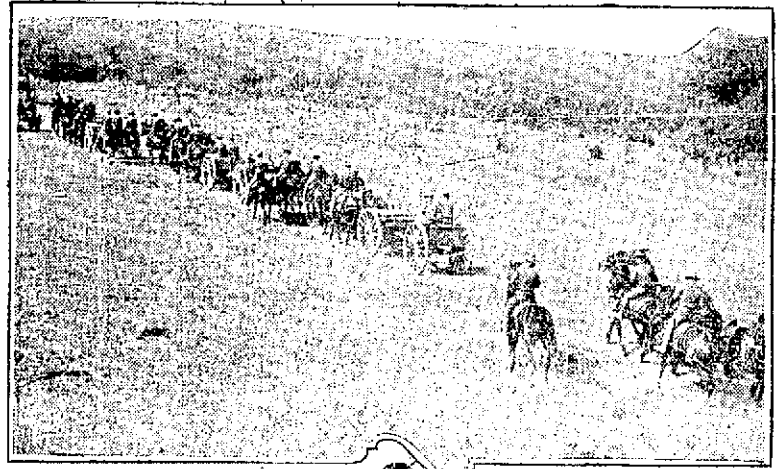

FIDDLERS' CONTEST

So much success attended the Ye Old Fiddlers' Contest last year that this feature will be repeated again this year, the contest to be held on the platform in government square on Saturday afternoon at three o'clock. Competition will be open to the world. Prizes of \$8, \$5 and \$3 will be awarded to the fiddlers winning the first, second and third prizes. St. Straus is chairman of this feature.

Optimistic Thought.

There is sometimes more to be learned from the physician than from the disease.

U. S. LENIENT WITH MEXICAN BANDITS; TEXAS RANGERS KILL ALL

Detachment of U. S. artillery patrolling Rio Grande.

There is a distinct difference between the methods employed by the United States troops on the Rio Grande and by the Texas rangers. While the policy of Uncle Sam is one of extreme leniency toward the bandits who cross the border, the Texas rangers are engaged in a war of extermination and spare none.

China May Go Back to Monarchal Rule

(Continued from page five)

element which a country usually possesses is for the most part determined by the necessities of practical life. Among the contributing causes which fix forms of government, one of the most important is force. Almost all monarchies thus trace their origin in last analysis to the exertions of some one man who has been able to organize the material power of the country in such a way as to overcome all competitors. He has able sons or male relatives, if he has ruled wisely and if the conditions of the country have been such as to favor monarchial rule, he may be able to establish a dynasty which will during a long period successfully govern the country.

Dr. Goodnow then goes on to explain the satisfactory arrangement for proper succession on the death of the King of England; he gives a resume of conditions which led to the establishment of the Republic of the United States; he tells of the French Republic; he describes how Central and South American Republics and American Republics came with a measure of success but frequently with disaster.

He then says: "Little hope may be entertained of the successful solution of the question of presidential succession in a country where the intelligence of the people is not

high and where the people do not acquire political wisdom by sharing in the exercise of political power under some form of constitutional government. Where such conditions do not exist a republican form of government—that is a government in which the executive is not hereditary—generally leads to the worst possible form of government, namely, that of the military dictatorship. The best that can be hoped for under such a system is periods of peace alternating with periods of disorder during which the rival claimants for political power are striving among themselves for the control of the government.

"At the present time, it may further be remarked, it is very doubtful whether the great powers of the European world will permit the government of the military dictatorship permanently to exist, if it continues to be accompanied by the disorder which has been its accident in the past. The economic interests of the European world have grown to be so comprehensive, European capital and European commercial and industrial enterprises have become so widespread in their ramifications that the governments of the foreign countries interested, although caring little what may be the form of government adopted by the nations with which they deal,

are more and more inclined to insist, where they have the power, that in the exercise of political power under conditions of peace shall be maintained in order that they may receive what they consider to be the proper returns on their investments. This insistence they are more and more liable to carry to the point of actual destruction of the political independence of offending nations and of direct administration of their government if this is necessary to the attainment of the ends desired.

"It is therefore becoming less and less likely that countries will be permitted in the future to work out their own salvation through disorder and revolution, as may have been the case during the past century with some of the South American countries. Under modern conditions countries must devise some method of government under which peace will be maintained or they will have to submit to foreign control.

"The question naturally presents itself: How do these considerations affect the present political situation in China?

"China is a country which has for centuries been accustomed to autocratic rule. The intelligence of the great mass of its people is not high owing to the lack of schools. The Chinese have never been accorded much participation in the work of government. The result is that the political capacity of the Chinese

people is not large. The change from autocratic to republican government made four years ago was too violent to permit the entertainment of any very strong hopes of its immediate success. Had the T'ang dynasty not been an alien rule which it had long been the wish of the Chinese people to overthrow, there can be little doubt that it would have been better to retain the dynasty in power and gradually to introduce constitutional government in accordance with the plans outlined by the commission appointed for this purpose. But the hatred of alien rule made this impossible and the establishment of a republic seemed at the time of the overthrow of the Manchus to be the only alternative available.

"It cannot, therefore, be doubted that China has during the last few years been attempting to introduce constitutional government under less favorable auspices than would have been the case had there been a royal family present which the people regarded with respect and to which they were loyal. The great problem of the presidential succession would seem still to be unsolved. The present arrangement cannot be regarded as satisfactory. When the president lays down the cares of office there is great danger that the difficulties which are usually incident to the succession in countries

conditioned as is China will present themselves. The attempt to solve these difficulties may lead to disorders which if long continued may seriously impair the independence of the country.

"What under these conditions should be the attitude of those who have the welfare of China at heart? Should they advocate the continuance of the Republic or should they propose the establishment of a monarchy?

"These are difficult questions to answer. It is of course not susceptible of doubt that a monarchy is better ruled than a republic in China. China's history and traditions, her social and economic conditions, her relations with foreign powers all make it probable that the country should develop that constitutional government which it must develop if it is to preserve its independence as a state, more easily as a monarchy than as a republic.

"But it is to be remembered that the change from a republic to a monarchy can be successfully made only on the following conditions: (1) That the change does not meet with such opposition either on the part of the Chinese people or of the foreign powers as will lead to the recurrence of the disorders which the present republican government has successfully put down. The

present peaceful conditions of the country should on no account be imperiled.

"Second: The change from republic to monarchy would be of little avail if the law of succession is not so fixed that there will be no doubt as to the succession. The succession should not be left to the Crown to determine for the reasons which have already been set forth at length. It is probably of course true that the authority of an emperor would be more respected than the authority of a president. The people have been accustomed to an emperor. They hardly know what a president is. At the same time it would seem doubtful if the increase of authority resulting from the change from President to Emperor would be sufficient to rectify the situation if the question of the succession were not so securely fixed as to permit of no doubt. For this is the one greatest advantage of the monarchy over the republic.

"Third: It is very doubtful whether the change from republic to monarchy can be successfully made only on the following conditions: (1) That the change does not meet with such opposition either on the part of the Chinese people or of the foreign powers as will lead to the recurrence of the disorders which the present republican government has successfully put down. The

present peaceful conditions of the country should on no account be imperiled. Her people will never develop the necessary patriotism unless they are given greater participation in the government than they have had in the past. The government never will acquire the necessary strength unless it has the cordial support of the people. This it will not have unless again the people feel that they have a part of the government. They must in some way be brought to think of the government as an organization which is trying to benefit them and over whose actions they exercise some control.

"Whether the conditions which have been set forth as necessary for such a change from republic to monarchy as has been suggested are present, most of course be determined by those who both know the country and are responsible for its future development. If these conditions are present there can be little doubt that the change would be of benefit to the country."

order to resist foreign aggression. Her people will never develop the necessary patriotism unless they are given greater participation in the government than they have had in the past. The government never will acquire the necessary strength unless it has the cordial support of the people. This it will not have unless again the people feel that they have a part of the government. They must in some way be brought to think of the government as an organization which is trying to benefit them and over whose actions they exercise some control.

"Whether the conditions which have been set forth as necessary for such a change from republic to monarchy as has been suggested are present, most of course be determined by those who both know the country and are responsible for its future development. If these conditions are present there can be little doubt that the change would be of benefit to the country."

"Still another phase of the situation is the comment that has been aroused on the part of the Peking newspapers. The Gazette, discussing officially the manifesto of the Society for Peace, accepts the doctrine somewhat suspiciously. The other Chinese newspapers, The Gazette says, in part:

"We venture to suggest for the consideration of the Society for Peace the necessity of looking at this grave question from the double view of internal peace and foreign opinion and possible action. It is not to be doubted that if the honorable men who are associated with the Society for Peace were convinced that a monarchial form of restoration in China would cut at the very roots of internal peace and order in the country and expose us to the not impracticable application of the Japanese doctrine of 'political bayonet,' they would be the first of our sagacious patriots to condemn the great change that is now the subject of their policy."

"And, knowing the country as they must, is there any reason to believe that the extinction of the republic on the morrow of the Japanese coup, with all its brutality and humiliation and the sinister rumors as to its origin, would not stir the country—particularly the south—in ways that might prove disastrous and fatal to a 'strong and united China'?" And then what about the promise which we as a nation gave to them that this country shall be ruled as a republic; and it is certain that, unless the mandate of the nation is clear on the subject, any reversal of that declaration will be resented by American, even though the theoretical basis of it rests on the alleged dictum of a distinguished American.

Run To The Kora Karnival October 6-7-8 and 9

There is a Tide in the Affairs of Men Which Taken at the Flood Leads on to Fortune!

Are You Prepared to Take Advantage of That Tide?

Opportunity only knocks once. The man with the extravagant taste is never prepared to meet opportunity nor is he prepared to weather misfortune.

Nothing is So Essential to the Happiness, Contentment and the Welfare of an Individual as a Bank Account!

Each day does not bring sunshine, but every cloud has a silver lining. Line your cloudy days with the silver easily accumulated through a savings account. Do not delay another day. Start with \$1.00 in this bank today and then you will be prepared when that "awful rainy day" comes.

Some people are "all in" all the time. The man without a checking account is. He is just like the man without an ounce of reserve power. If you are in this class and have never known the pleasure of having money in the bank, start at once and be convinced of the big pleasure in life you have been missing.

Start your account here. You are welcome.

The Man With A Savings Account

The man with a savings account is always ready to meet both public and individual panics. Wise men give thought to the future and increase their savings account. Join the long list of wise men and open a savings account with us today.

You confess both mental and business weakness when you acknowledge that you have not saved a part of your earnings. The qualities found in a man who saves are sure to lead him to success. Success comes largely from confidence we have in our judgment. Saving money gives us confidence. If we have not saved money we admit pure lack of judgment and therefore can have no confidence in ourselves.

We become wise through experience. The young folk profit by the experience of the older, who are in a position to advise. As we grow older and have not saved, we spend a lot of time wishing we had money. Here is advice. Start a savings account today.

The man who spends every cent of his money is like a horse working in a treadmill. He works hard all right but he never gets anywhere. Start a savings account to save, watch it grow and see how quick you get there.

Money is power and the lack of money is bondage. No one wishes to be a slave, subject to the dictation of others, yet that is what you are deliberately doing if you are not laying aside money each day or week. You begin to have power and influence the moment you begin to save.

Economy in youth assures you ease in old age. Saving a part of the money you earn and banking it in this bank where it is safe and is earning you interest is the surest way to increase your income.

Men who know say it is the first hundred dollars you save that counts. When you have saved your first hundred you have more than just the dollars. You have learned valuable principles. You have acquired the habit of thrift.

To be a good citizen a man should spend less than he earns. Are you a good citizen. Come start a savings account.

This Bank Welcomes It. \$1 Will Open It and You Will Be Surprised to See How Fast It Can Grow

The Portsmouth Banking Co.

PORTSMOUTH, OHIO. SECOND AND COURT STREETS.

Peerless City Known Far And Wide As "Home Owners" Place

Berlin, October 1.—The splendid country residence for the Crown Prince on the Jungfernsberg, a broad arm of the Havel at Potsdam, has now been completed in the rough and will be ready for occupancy by next spring. The erection of the palace was rendered necessary, it is explained, by reason of the increase in the Prince's family. The Emperor supplied the money for building it and it will remain the property of the Crown, to become the residence of future Crown Princes.

The palace is really a group of buildings centering upon not less than five courts and covering about 12,000 square yards. There are apartments for the Crown Prince himself, then for the Crown Princess and children, offices for the officials of the palace, and still others for the servants. Not less than four apartments for vehicles will be made—one for members of the royal family, which leads into the court of honor, a second for guests and the court officials, a third for the children of the royal couple, and a fourth for trades people and servants. The buildings will be surrounded by spacious grounds, partly terraced; there will be two so-called rose gardens, and these, as well as the rest of the establishment, will give beautiful views over the Havel lake. The buildings are rather low and of simple outline, with high roofs covered with red tiles. The palace will be just a good modern house, with an abundance of room and with modern comforts, which are rather scarce in the old palaces of Germany. There will be, for example, no less than twenty bath rooms.

An Enviably Reputation!

Did it ever occur to you that the Commercial Building & Loan Co., of this city, has, in the twenty-one years of its existence, made a record that, perhaps, cannot be approached by any similar institution of the kind in the state or nation?

**This Strong and Growing Financial Institution Has
NEVER LOST A DOLLAR and HAS NEVER
FORECLOSED A MORTGAGE!**

Isn't that enough to convince anyone that this institution is safe, honestly managed and a credit to the Peerless City, where since it was established it has grown from a small beginning to its present splendid proportion.

When the first annual statement of the Commercial Building & Loan Co. appeared in 1895, the assets were listed at \$17,410.07. The twentieth annual statement showed the assets at \$639,060.33,

**A Gain of \$622,650.26
And 1915 Will Show a Splendid Increase!**

These figures stand for progress, for conservatism, for right management, for a four-square deal with our patrons. They are the Gibraltar upon which many a home has secured a solid foundation. They represent not only the healthy growth of the Commercial Building & Loan Co., but the progress the city has made. We are proud of our thriving metropolis, the home of a contented people, citizens, many of whom, have learned the value of thrift by being our patrons.

ARE YOU A SAVER?

Are you laying aside something for the future, when the pay envelope will stop, and when you will have to step aside for younger men? If not, it is high time you were starting a savings account, for each day finds you 24 hours older and just that much nearer old age.

How We Handle Our Depositors' Funds

We never loan a dollar unless upon first mortgage security on real estate, and we must be assured not only that the realty is worth more than the loan by a fourth or a third, but that it is readily saleable, in a class for which there is always a steady demand. This policy may be characterized as conservative, but it is safe and it is fair all around. It helps him who would secure a modest home and it pays a reasonable return to him who invests his modest capital with us. It is successful and popular, as will be shown by our steady and healthy growth from year to year.

And this leads us right to a point that we would particularly impress upon the thrifty and small investors. If you are getting only three or four per cent on your money, why not increase your income by fifty or even a hundred per cent? You can do that by depositing your savings and your money with us. This company paid last year 6 per cent dividends—it never has in the twenty-one years of its existence, paid less. The investment is just as safe as government bonds and pays better by far. AND THINK OF IT, YOU CAN DEPOSIT AS LITTLE AS 25 CENTS PER WEEK AND YOU CAN BUY A HUNDRED DOLLARS WORTH OR MORE OF STOCK AT A TIME. In other words exactly fit the investment to your resources.

THE STEADY, SUBSTANTIAL GROWTH OF OUR BUSINESS AND THE CONFIDENCE MANIFESTED BY OUR LARGE ARMY OF PATRONS AND FRIENDS INDICATE A SOUND AND CONSERVATIVE MANAGEMENT BY OUR OFFICERS AND DIRECTORS.

The Commercial Building & Loan Co.

OFFICERS AND DIRECTORS

ADAM J. BUCH, President LAWRENCE F. NEUDOERFER, Vice President. GEORGE E. KRICKER, Secretary. JOHN R. HUGHES, Solicitor
W. A. WURSTER, PHIL M. STREICH, DR. G. H. WILLIAMSON, DR. S. S. HALDERMAN, WADE S. KENNEDY, WM. E. COOK.

THE PORTSMOUTH BUILDING AND LOAN ASSOCIATION offers one of the most profitable and one of the safest plans of installment investments available to the average person.

It is the most suitable to those who wish to build homes. Shares are sold and the proceeds used to loan on mortgage to members who wish to build. This is one of the few, if not the only, strictly co-operative form of investment. The Building Associations are local in character, and one of the essential elements is that members are known to each other and are familiar with one another's resources. This makes possible, a combination of safety and large profits.

Magnificent are the prospects of the Share-holder in a substantial Building Association. Men and women spend eight hours or more a day earning money and it is very essential in making their investment, where it will be absolutely safe.

The Building Associations of Ohio are under state supervision and are mutual in character and you are assured of the full earnings on your money. Millions and millions of dollars are lost every year because people go into the rankest kind of gambles and think they are investing their money.

The wise investor should be satisfied with 6 per cent Compounded Semi-annually, and this fact should be proclaimed in and out of season, that security considered, Building and Loan Associations pay the largest return, and that security is the first consideration.

The record of twenty-four years successful operation of this Company, is one that justifies the confidence of the public.

SAFETY -- SECURITY -- And SIX PER-CENT

Your patronage is wanted and will be appreciated.

Our assets now run over \$300,000.00.

MARVIN C. CLARK, Secretary.

PORTSMOUTH MOVING PICTURE HOUSES ARE ALL UP TO DATE; VISIT THEM DURING THE K. K.

Like hundreds of other cities in America Portsmouth willingly subscribes to screen magnetism.

In the vernacular it falls for the moving pictures.

Probably as many people go to the "movies" daily for a little wholesome recreation here as any city anywhere near its size in the United States. The fascination and small wonder that it has for the city boasts of a chain of moving pictures that is hard to surpass in the way of seating arrangements, ventilation and general excellence.

The Lyric and Columbia theatres are regarded as two of the finest theatres in Ohio devoted to the moving picture. Modern in every detail they are two exceedingly attractive play houses and no doubt will be inspected and admired by thousands of K. K. visitors.

Then there is the Arcana, just recently completely remodeled at a great expense, the convenient and cozy Exhibit on Gallia street, the new Majestic on West Second street, the handsome new Strand on Lauson street with its ornate front and excellent seating arrangements, the Seaside theatre on Eleventh street and the Temple theatre on Eleventh. This house is a model little picture show and offers a wide clientele.

Then there is the large and imposing Sun, which during the heated term houses some of the larger and more expensive pictorial features that are sent on tour to enlighten and amuse the countless number of movie lovers.

Portsmouth may well feel proud of its chain of picture houses. They are all conducted right up to the minute and each has its particular appeal. And no doubt each will do its quota of business during the K. K.

Her Choice.

"The man who can drive with one hand is the man for me," answered Rita gayly. "You're easily satisfied," replied her friend Ruth. "For my part, I prefer the man who asks me to leave."

MACKEREL SUPPLY GREATLY INCREASED

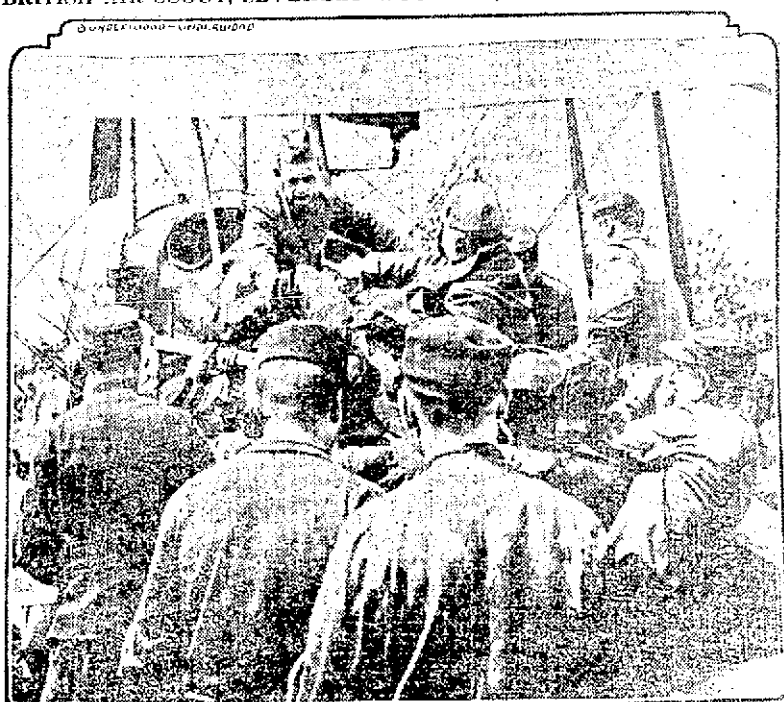

Berlin, Oct. 1.—Such schools of mackerel as have not been seen in German waters for many years are now visiting the seas coasts in both the North Sea and the Baltic, and the fishermen are making enormous catches. The fish are entering the Baltic through the Cattegat in great shoals, and the

Danes are also taking their part in the catch. The German fishermen are taking enormous hauls in the waters around Kiel, Eckenforde, and Fehmarn; and many shiploads of ice are coming down from Denmark and Norway for packing the fish for shipment into the interior.

Seek a position through TIMES WANT ADS. Employers of labor read them carefully.

To Match Hangings. The table scarfs for the turniture of your room may be made to match the hangings by cutting out single motifs of cretione and applying them to the scarf ends. Place them on the material in an attractive way and baste. They can either be sewed with an over and over stitch around the edge or buttonholed in place. If, however, you wish a quicker method, machine stitch close to the edge around the entire motif.

BRITISH AIR SCOUT, SEVERELY WOUNDED, GETS BACK TO LINES

In this photograph, with his back turned to the camera, an officer of the British Royal Flying Squadron is being removed from his aeroplane in a serious condition. Whilst making a reconnaissance flight behind the German lines in Belgium he was struck by a flying shrapnel and his leg was almost severed. He lost consciousness and the control of his machine. Had it not been that his machine was at a considerable altitude when he lost control of it, he would have been killed. Fortunately after the machine had made a wild drop to earth, he revived sufficiently to check its earthward drop and landed safely, although badly battered by the stray shrapnel which struck him.

PORTSMOUTH SCHOOLS ARE A CREDIT TO PROGRESSIVE CITY; AFFAIRS ARE IN CAPABLE HANDS

The character of a city is mirrored in its school buildings, some one has truthfully said, and Portsmouth has reasons to feel proud of the modern temples of learning in which its population of a school age is systematically schooled for the sterner realities of life.

Probably few cities can boast of having a better list of buildings devoted to education work than the River City. It has been said that a man is known by the company he keeps and a city is known by the class of school buildings it erects for the oncoming generation.

Topping the list is the magnificently appointed \$250,000 high school building, which is admired by all as the last word in high schools. The list also includes the beautiful new Garfield building built at a cost of \$90,000. It contains thirteen large and well ventilated rooms admirably suited for school purposes, a manual training room and a large room for kindergarten work. Situated as it is on a terrace overlooking the Gallia hills and the East End the new Garfield building is a marvel of beauty and is pleasing to the aesthetic eye. It is finished in a chocolate colored brick with its beauty enhanced with stone coping, spacious cement walks and lawns.

The Lincoln building on the hill top is a model of convenience. Built at a cost of \$75,000 it supplied a long felt want on the rapidly expanding hilltop. It contains ten rooms with a manual training department modern and equipped and a kindergarten room. Then there is the Fourth street Second Bend Union High and Elementary, Officers Lawson and Campbell avenue school buildings.

The total enrollment in the elementary grades of the public schools this year reached the gratifying figures of 4,500 and the high school enrollment was far in excess of that recorded in 1914, the enrollment this year being 559. There are 88 elementary students in the high school building, which is taken into the high school from the February term.

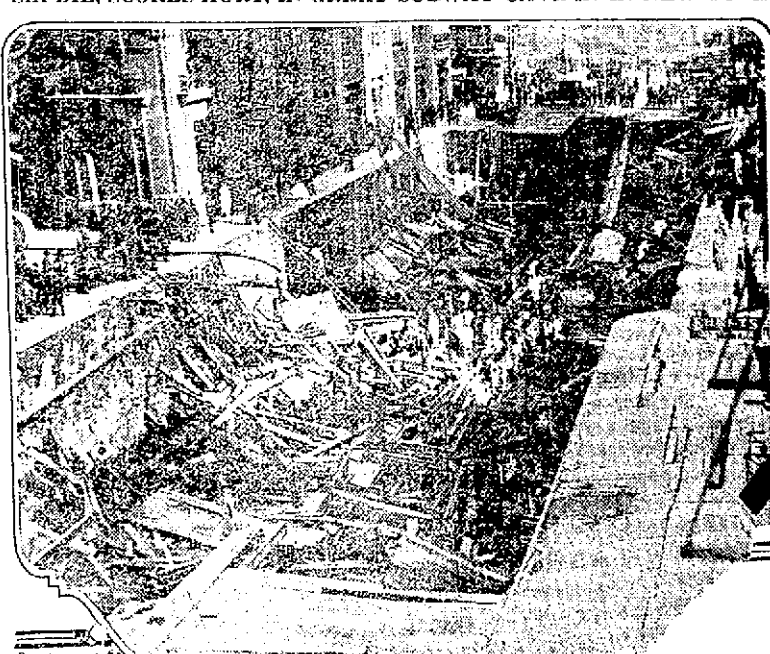

on the Accredited List of High Schools in Ohio and its graduates are privileged to enter the colleges of the North Central Association of the state without examination.

Its graduates are also privileged to enter practically all of the large colleges between the Alleghenias and the Rockies without an entrance examination.

Supt. Appel who so faithfully presides over the schools has directed their destinies since February 1, 1908. He has had an ideal administration, the schools being looked after very systematically and carefully. Mr. Appel is a splendid disciplinarian and he gives every moment of his time to the superintendency of the school. He loves his work and the results he has obtained during his regime speak glowingly of the successful methods he has pursued.

Members of the school board, who look after the duties incumbent upon them so cheerfully and conscientiously are: Dr. E. C. Jackson, president; C. E. Nourse, vice president; George D. Seidner, J. P. Purdum and J. I. Hudson. Wm. C. Hazlebeck has for years served as clerk and treasurer of the board. At present there are 130 school teachers on the pay roll.

SIX DIE, SCORES HURT, IN GREAT SUBWAY CAVE-IN IN NEW YORK

An entire block, running from Twenty-fourth to Twenty-fifth street on Seventh avenue, collapsed Wednesday morning, following a premature explosion of a large blast of dynamite construction work on the new subway at this point to give way. Those crowded centers in which were shop girls on their way to work, dropped into the chasm. Six people were injured.

The Citizens Savings and Loan Association Co.

Was Organized November 1st, 1891.

TWENTY-FOUR YEARS AGO

It has increased its business each year since organization until now it has over THREE QUARTERS OF A MILLION DOLLARS in ASSETS, all of which is loaned upon First Mortgage City of Portsmouth Real Estate, Conservatively Appraised by a Competent Committee, allowing the Association an absolutely safe margin against any possible loss. A record of which the officers of this company feel justly proud, is that

The Citizens has never paid less than a
— 6 PER CENT CASH DIVIDEND —
Nor has it ever suffered a LOSS.

Those desiring a PROFITABLE and SAFE INVESTMENT for their funds cannot find anything better than stock in this SOLID OLD COMPANY with a record second to none in the State of Ohio.

Subscriptions for stock can be made in any amount from ONE DOLLAR TO TEN THOUSAND DOLLARS, and interest starts from date of first payment.

Ohio Building and Loan Companies are now under strict supervision of State Department and are examined regularly by accountants, expert in this particular line of work.

This year will not be known as a GOOD YEAR, but The CITIZENS has maintained its past record of making an INCREASE EACH YEAR and will show, considering the hard times, A HANDSOME GAIN OVER 1914, which is certainly most gratifying. EFFICIENCY, ACCURACY and ECONOMY must be maintained in the successful management of any Company, but this especially applies to savings institutions of this character where its business is done on a small margin of profit as between the CHARGE MADE THE BORROWER and the DIVIDEND PAID THE DEPOSITOR.

Nothing has been done towards making PORTSMOUTH THE BEST TOWN OF ITS SIZE IN THE STATE; WHERE MORE PEOPLE OWN THEIR OWN HOMES, than the SAFE and SOUND BUILDING AND LOAN COMPANIES, which should be placed in the FRONT RANK OF HER SUCCESSFUL ENTERPRISES.

The CITIZENS has offices in the corner rooms, Nos. 21 and 22, Second Floor, First National Bank Building, where its officers will be pleased to impart any information desired to both the depositor and the borrower.

WHY TAKE 3 OR 4 PER CENT FOR YOUR MONEY WHEN 6 PER CENT IS AVAILABLE, secured by the best security on earth, FIRST MORTGAGE CITY OF PORTSMOUTH REAL ESTATE.

The Citizens Savings & Loan Association Co.

ARTHUR L. HAMM, Secretary.

With THE HUTCHINS & HAMM COMPANY.

SAVINGS ACCOUNTS

We solicit the deposits of those who wish a safe and profitable investment for their surplus earnings. You can start an account with us at any time by paying 25 cents or more. No initiation fee.

PAID-UP STOCKS

Certificates of paid-up stocks are issued in amounts of even hundred dollars, and participate in the regular dividends, being paid in cash twice a year.

CERTIFICATES OF DEPOSIT

To those who prefer a guaranteed or specified rate of interest on their money, we issue certificates of deposit for any amount bearing four per cent.

WE INVITE YOUR PATRONAGE

THE PORTSMOUTH GERMAN BUILDING AND LOAN ASSOCIATION CO.

SURPLUS FUND

This Association is managed by our Board of Directors in a safe, conservative and economical manner, which is proven by the fact that after paying our regular dividends every six months and the expenses of operation, we have accumulated a surplus fund of \$33,600.

DIVIDENDS

For twenty-three years this Association has paid dividends on savings accounts every 6 months, and the rate has never been less than six per cent per annum, compounded semi-annually. Since organization we have paid our patrons the sum of \$308,678.27 in dividends.

LOANS

All money deposited with us is loaned on first mortgage security on real estate in Portsmouth and immediate vicinity. If you want to buy a home and have not money enough, see us; as we have helped hundreds of others to secure their homes.

PORTSMOUTH KARNIVALS ARE ALWAYS CLEAN

One of the most commendable features of Portsmouth's Korn Karnival, and one that distinguishes it from many similar exhibitions, is the absolute guaranty given visitors that they will not be subjected to the wiles and schemes of dishonest merchants, fakirs, swindlers and operators of gambling contrivances of any kind. Directors of the Business Men's Association, under whose auspices the Korn Karnival is given, will not issue a single permit or booth space to any one operating a game of chance. Opportunity has been given them to realize enough money from privileges of this kind to pay all of the expenses of the Karnival. But to all of them, the directors have turned a deaf ear, and have resolved to keep the Karnival clean of such attractions so long as it is conducted. In this, they have the co-operation of the city administration, which has refused to issue permits of any kind until the Business Men's association has placed the stamp of its approval on them. The police power of the city is at the disposal of the directors in ridding the city of all such undesirable during Karnival week. The attitudes of the directors in this particular has had more to do with the continued success of the Korn Karnival than any other one thing since it assures visitors from adjoining cities, towns and farming communities that they can come to this city without fear of being separated from their money by questionable methods.

INTERESTING HISTORY OF BATTERY L

The following is a "History of Battery L," as written by Hon. William Field, and published in "Once in the War."

Battery L.
Battery L, First Ohio Light Artillery, was recruited at Portsmouth, Ohio, in October, 1861, by L. N. Robinson. It was reported to Camp Dennison, November 1, and remained in camp, performing drill until January 1, 1862, when it joined General Lee's command, at Patterson's Gap, West Virginia, arriving at that point on January 27th. It was with Lander to Pawnee, but did not take part in the Blomery Gap fight, which occurred shortly after.

On March 1st the Battery and the 1st Cavalry, under Winchester, were ordered to Martinsburg, but the death of Lander compelled a retreat. On March 7th, another retreat was made toward Winchester. On March 15th, General Shields in command. On March 20th the Battery had a skirmish with Ashby's Cavalry. On March 22nd it had another skirmish with Ashby's Cavalry. On March 24th, the Battle of Martinsburg was fought. The Battery was in several positions on the day, the last one being the right wing, which they were ordered to turn, but they were shot down. A few solid shots from the Battery, and a simultaneous attack by the infantry, closed the fight. The Battery lost one man killed and several wounded. The Battery was pushing up the river to Harrisonburg, after the Battle of Martinsburg, when the Battery crossed the

Massachusetts Mountains, and the Blue Ridge, and joined General McDowell at Fredericksburg on May 21st, 1862. It was ordered back, however, to intercept Stonewall Jackson on his return from his raid against General Banks.

In performance of this duty, the Battery crossed the Bull Run Mountains and the Blue Ridge, and on May 31st, was engaged at the Battle of Chantilly. It marched with General McDowell's forces on the Antietam campaign, and at Shepherdstown, September 19th, became engaged with the enemy. The Battery went into camp near Sharpsburg, Maryland, and remained there until November.

On the 1st of June the Battery marched up the South Branch of the Shenandoah, and on the 8th arrived at Port Republic. Captain Robinson, with one section of the Battery, dashed into the town with Colonel Carroll's cavalry. This opened the battle of Port Republic. The army of Stonewall Jackson at once attacked, and after a sharp fight, the National Forces were compelled to retreat. One piece of artillery was lost by Battery L. This piece under command of Sergeant James Gildea, was stationed in front of the covered bridge, double-shotted with canister.

When the bridge was filled with Rebels, making their way across, Sergeant Gildea pulled the lanyard, spiked the piece, and was severely wounded in escaping.

On June 9th the Battery became hotly engaged, and repulsed several stubborn charges, in which the gallantry of Sergeant P. Houser, and Corporal Sam Cochran were conspicuous. On June 5th and 9th the Battery lost two men killed and several wounded. Lieutenant C. H. Robinson and six men were taken prisoners. Thirty horses were

killed, and three pieces of artillery left on the field.

The Battery fell back through Luray and Front Royal to Alexandria, Virginia, where it went into camp to recruit and retrain. Captain Robinson went to Ohio on the recruiting service.

On August 29th, Battery L was again ordered to the front, and on that day took part in the Battle of Chantilly. It marched with General McClellan's forces on the Antietam campaign, and at Shepherdstown, September 19th, became engaged with the enemy. The Battery went into camp near Sharpsburg, Maryland, and remained there until November.

On November 1st the Battery moved with the Army of the Potomac, being attached to the Second Division of the Fifth Corps. It passed with the army into Virginia, and went into winter quarters near Stoneman's Switch, on the railroad between Aquia Creek and Fredericksburg.

On December 13th, the Battery crossed the Rappahannock, and remained in its streets under fire until the morning of the 14th, when it recrossed the river. It took part in another advance on Fredericksburg on February 21st, 1863, but was mud-bogged and returned to its old camp.

On April 20, 1863, the Battery entered on the Chancellorsville campaign, crossing the Rappahannock at United States Ford. It became actively engaged on the morning of the 3rd day of May at Chancellorsville, and at intervals during the day, losing Lieutenant Dorries and one man killed, and

a number of men wounded. One caisson was badly disabled, and several horses were killed. On the 4th and 5th of May the Battery had another engagement with the enemy in recrossing the Rappahannock.

On June 1st the Battery moved to Bank's Ford, on picket duty, and on the 13th of June started, with the Fifth Corps on the Gettysburg campaign, passing through Manassas Junction, and crossing the Potomac at Edward's Ferry, and then through Maryland to the field of Gettysburg, where it arrived on July 2nd, at about 4 o'clock a. m. The Battery was assigned position on the extreme right of the line, under a sharp skirmish fire.

About four o'clock a. m. it moved and parked on the Baltimore turnpike. Afterwards it followed the second division of the Fifth Corps on the front, taking position on the right hand side, and part of Little Round Top, where it became warmly engaged with Longstreet's Corps, which was making desperate efforts to turn the left. So close was the work that the guns were double-shotted with canister, and worked so rapidly that the men could not lay hands upon them. The Battery became the nucleus around which the hotly pressed division rallied and forced the enemy back to his lines. The Battery remained in the same position during the third instant. It lost several men wounded, but none killed. The battery in line near the Battery lost quite a number, killed and wounded.

It crossed the Potomac with the Fifth Corps into Virginia, going into camp at Beverly Ford, on the Rappahannock. Thence it marched to Culpepper, Va., and on the 12th of October, entered with the army on the celebrated race for Manassas Junction, between Generals Meade and Lee, and just missed the fight at Brimstone Station. It thereafter followed the fortunes of the army, and took part in the battle at Rappahannock Ford. On November 27th, the Battery crossed the Rapidan at Gold Mine Ford, and the next day became warmly engaged on the Orange Court House, Plank Road, where it lost one man and several horses killed, and a number of men wounded. The Battery recrossed the river with the army, and went into winter quarters at Warrenton Junction. On December 22nd five men of the Battery were captured by guerrillas.

On January 1, 1864, thirty-five men of the Battery re-enlisted as veterans. During the latter part of April it went to Camp Barry, Washington City, to recruit and retrain. Thence it went into the fortifications of Washington, occupying forts Phil Kearney and Sumner. After the fight at Fort Stevens on July 11th, 1864, the Battery was attached to Dwight's division, Nineteenth Army Corps, and marched with it into Maryland, Virginia, and participated in the Snicker's Ferry fight. Returning to Washington, it marched with its division in pursuit of Early's Rebel forces, and went into camp at Harper's Ferry.

On September 15th, 1864, the Battery reported to General Sheridan at Summit Point, Virginia, and moved with his army up the valley, taking part in the battles of Winchester and Fisher's Hill. The whole army went into camp beyond Harrisonburg for a few days, and then returned down the valley to Cedar Creek, where the Battery occupied the right of General Crook's command. During this march, three members of

the Battery were captured by the enemy. Battle of Cedar Creek. The Battery remained in Camp Russell, near Winchester, Virginia, until the latter part of December. Thence it went to Harper's Ferry, and took rail to New Creek, West Virginia, reaching that point on January 4th, 1865. It remained at New Creek in winter quarters until June 30th, 1865, when it was taken to Columbus, and there mustered out on July 4th, 1865.

Battery L. was in service three years and eight months, and during that time traveled 3,500 miles. It lost, in killed, one officer and six men, had fifty men wounded, and one officer, and fourteen men were taken prisoners. It also had one hundred horses killed in service, having during its campaigns had charge of four different batteries.

It took part in the battles of Winchester, March 23, 1862; Port Republic, Chantilly, Antietam, Fredericksburg, Chancellorsville, Gettysburg, Mine Run, Fort Stevens, and Winchester, September 1864; Fisher's Hill and Cedar Creek.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no yawning, snuffling, mucous discharge or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up any longer.

Run To The Korn Karnival October 6-7-8 and 9

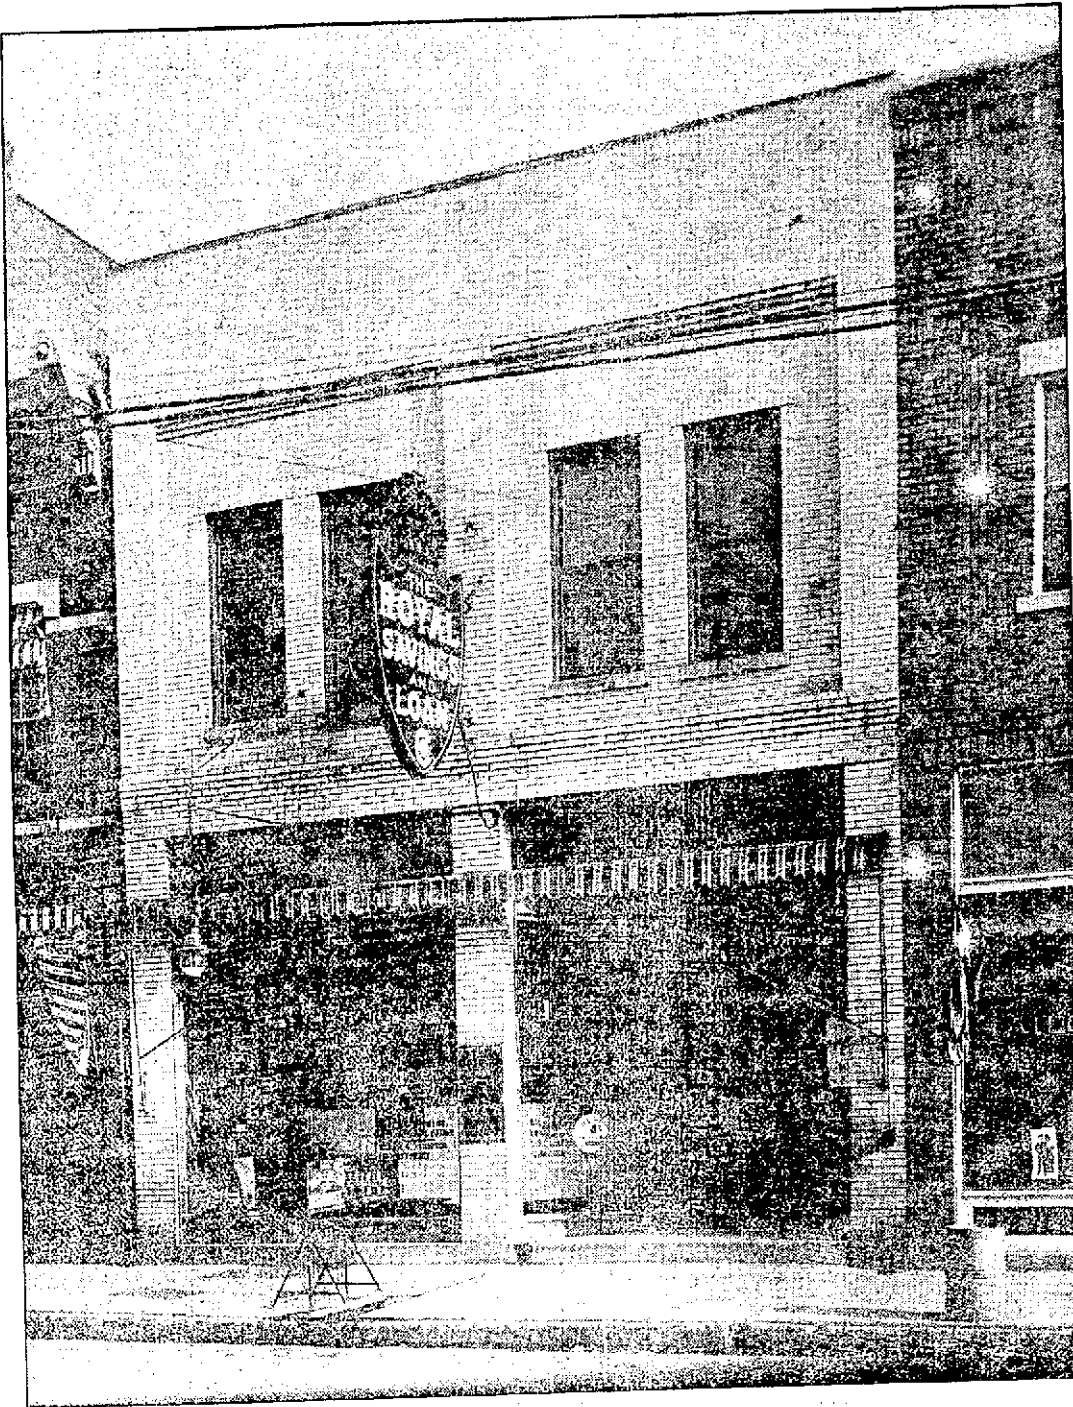

SOLID - SAFE - SUBSTANTIAL - STRONG!

THE ROYAL SAVINGS AND LOAN COMPANY has recently erected an electric sign which equals in forcefulness and attractiveness any sign in the city. This sign is emblematic of the institution. The crown being the emblem of greatness, and the shield the emblem of protection, signifies the great protection which safeguards the savings of our patrons. It is a true emblem of safety and it carries a message of security and good will to the people of Portsmouth and vicinity.

The Royal has provided every possible safeguard for the funds which hundreds of people in this community have entrusted to it. For almost twenty-five years this company has provided a splendid investment for savings in any amount and has been in the fore in promoting the growth, development, and prosperity of this city and community. Our aim is to receive the savings and idle funds of the thrifty, and loan them on first mortgages on real estate, thus earning for our depositors a good rate of interest and protecting their savings by the best security known to the investing world. Our large Paid-in Capital, Surplus and Undivided Profits guarantee the safety of your deposits. We are under State Supervision. Our methods are safe and all we ask is an opportunity to serve you.

Savings Accounts

You should have your savings account with the Royal. We pay four per cent interest on Book Savings. This interest is paid every three months on the first day of November, February, May and August and if not withdrawn draws interest from the date credited. All savings deposited before the tenth of the month draws interest from the first of the month. These accounts can be started with as small an amount as \$1.00 and you can deposit what ever you please each pay day. Come in and get a book and you will be amazed at the quick growth of your savings account. You know it's the little drops of water that make the oceans, and it's the small savings that soon grow into a big sum. Start a savings account at \$1.00 per week. It will surprise you how interested you will become in your bank account. Then you will not be satisfied with one dollar, but you'll add another. You will take a real interest in the vital part of life---preparing for the future. A savings account may be the means of owning your own home. And you know that we welcome the chance to assist you in the construction of a home for you. Think it over---you can't do a better act than becoming a Royal depositor. Resolve right now that you'll begin a start on the "ROYAL" road to success.

EXTERIOR VIEW OF THE ROYAL SAVINGS AND LOAN COMPANY.

BE A ROYAL DEPOSITOR

Place your money where it will grow---it makes life worth while---puts you on the road to higher citizenship and makes safe the future. We welcome all accounts and the same courtesy is afforded all depositors. More fortunes are made by saving than through investment.

Interest Grows

Your interest will be delivered to you by mail if you have your money invested in Royal Certificates of Deposit.

How many times have you been delayed in calling at the office of a financial institution to get the interest due on your Certificate of Deposit? Every day of delay meant profit to the institution, whereas, if you would have received the interest on the day it was due, you would have had the use of it and the profit would have been yours.

We give Royal patrons this additional profit by giving them use of their interest from the day it is due. We mail the interest unless requested not to send it.

These certificates draw FIVE PER CENT if left six months, interest being payable semi-annually.

These certificates afford a convenient form of investment for those who desire to use interest as it becomes due.

We can't impress upon you too strongly that you receive your interest here when it is due---not the next day. We make it a fixed rule to never deviate from that policy.

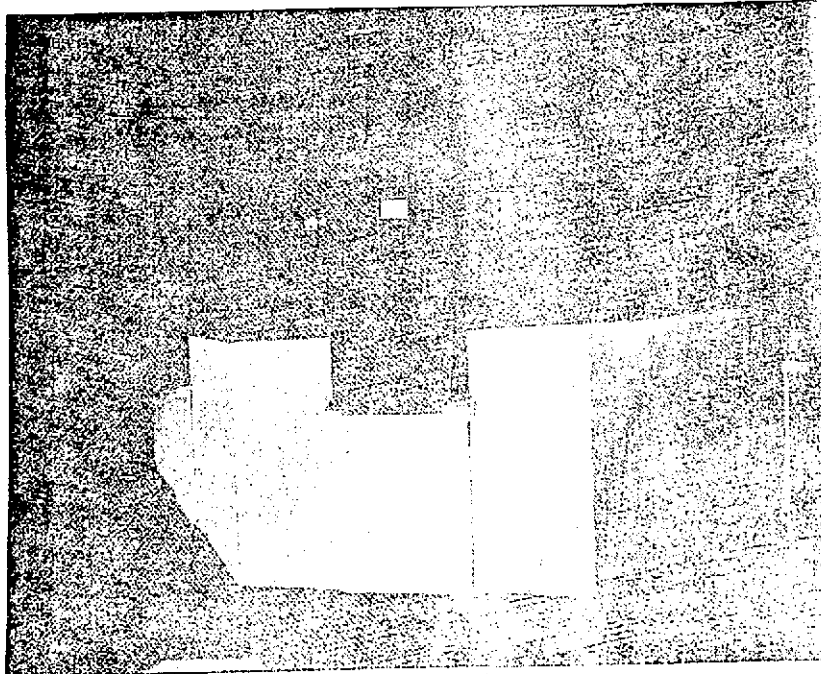

You Are Invited

To call around and inspect our handsome, light, partitioned office. We believe you will say you never saw a better arranged savings bank. It is the pride of our patrons and so conveniently arranged that it is a pleasure to transact business. Come and see us during the Korn Festival---it will add to the pleasantness of the happy occasion.

OWN A HOME!

Why continue to pay rent and have nothing to show but a receipt at the end of the year?

It's up to you. We have property, large and small, that a small payment will swing, balance as rent. Homes ranging in price from \$800 to \$10,000 in all parts of the city and suburbs.

We are now laying out an addition to Wheelersburg, spending over \$3,000 on a fine macadam roadway through the same, this road starts off the main street in Wheelersburg, above all floods. These lots will be 1 acre or more. Fine orchard in the addition. This is part of the J. B. Fullerton estate which is noted for its fine soil. Will grow anything, so the farmer tells us, fine water, less than 5 minutes walk from schools, churches, stores of all kinds, also new traction line.

If the city does not agree with you or you wish a small place to raise poultry, fruit or garden it will pay you to look this addition over. Small payment down, balance long time.

Real Estate Increases Show The Prosperity Of Portsmouth; More Activity Is Predicted

Real estate valuations in some parts of the city have been doubled the past three years, according to Charles V. Wertz, one of the city's most enterprising and successful real estate men. Hilltop property especially has shown a tendency toward a heavy increase. Hutchins street and Franklin avenue have been increased one third while Timmonds avenue has been doubled within the past five years and Kinney Lane property doubled within the past three years.

Real estate conditions while in a slump for a few months this year have taken a decided change for the better and local real estate men predict a splendid growth in their business from now on. They say money is plentiful and people are anxious to invest.

There is a steady increasing demand for good homes and as a result there are very few vacant houses in the city.

Suburban additions near the city are also progressing under the arduous hand of the contractor and the real estate man. Many new houses are being erected on them while more new additions are being laid out and lots prepared for the real estate market. The Nirvana Wiggard and Wertz additions near Wheelersburg are all well developed. Houses are being erected on them and the additions well patronized. Many Portsmouth people are buying the lots and erecting houses as investments.

Lots in the Farney addition and the Long Meadow which several years ago were selling at average are now selling at handsome figures per front foot.

Along the Boulevard and Scioto Trail property is also demanding pretentious figures.

The Jesse Johnson addition on the Boulevard has twenty-five select lots. A number of them have already been sold.

J. E. Shump is preparing to open up a new addition known as City View on the West Side just at the terminus of the towpath with sixty choice lots. Messrs. George E. Kricker and Harry Miller and Philo Clark have or-

dered Contractor Kelley to lay out seventy additional lots at Nirvana as the original fifty have been sold. Messrs. Turkey and Jordan are much encouraged over the interest shown in their splendid addition. Likewise, just completed near New Boston. Messrs. Labolt and Turkey have disposed of practically all the lots in Sunnyside addition and many magnificent homes have been erected there such as the F. L. Marting, P. V. Davidson and Dr. A. R. Moore homes.

J. E. Shump has also disposed of practically all of his lots in Sunset addition on the Scioto Trail while Cropper and Jordan have built a small city at Longmeadow.

Charles V. Wertz has just let the contract for a \$300,000 road through the Wertz addition at Wheelersburg and with many ideal lots to be had a number of splendid dwellings will no doubt be erected.

H. A. Biedley has contracted for the erection of ten modern homes in the city. With these and other enterprising real estate men promoting the interest of Portsmouth prospects are indeed bright and all real estate men predict next year as a banner year for home building in Portsmouth.

ITALIANS SUFFER WITH FROST BITE

Rome, Oct. 1.—Even at this season of the year there are many of the Italian soldiers suffering from frost bites, and the gangrene which follows. These cases are among the men serving as outposts on mountain summits, some of them 12,000 feet above sea

level, where they stand practically motionless for hours at a time. The danger of freezing will increase with the approaching winter, and appeals have been made to all classes, besides factories, to hasten the preparation of warmer garments of every description for these exposed sentries. By private initiative 5,000 warm garments are being made daily.

Violin Varnish.
Dissolve twelve parts of sandrac, six parts of shellac, six parts of music, three parts of elem gum in one hundred and fifty parts of alcohol, warm when dissolved and add six parts of Venice turpentine. Color to match the old varnish with Brazil wood and dragon's blood gum.

HOLDS WORLD LAW
FIRM, DESPITE WAR

James Brown Scott.
"The recurrence of war affords no more reason for losing faith in international law than the recurrence of private crime would be a justification for abolishing domestic law and substituting a reign of internal anarchy," says James Brown Scott, secretary of the Carnegie Endowment for International Peace, in the 1915 year book of the endowment recently published.

City View, New Suburban Addition For The West Side

With the completion of the new bridge spanning the Scioto river a new suburban addition will be thrown open to the public adding to the growth of the city's many attractive additions of this type.

City View is the name of an addition on the West Side at the end of the towpath which offers some exceptionally fine building lots. J. E. Shump, a local real estate man,

is to have charge of disposing of the lots. Sixty lots in the addition have a depth of 150 feet and a frontage of 50 feet. An excellent view of the city is to be had from the addition.

**WAR BONUS WILL
COST JUST \$25,000,000**

London, Oct. 1.—The award of a war bonus to British Postoffice employees, which was made by the arbitrator appointed to consider the men's demands, will cost the government not less than \$5,000,000 a year, according to postoffice officials.

Nirvana Addition Wheelersburg

offers fine opportunities for homes on investments. Lots are 50x200 feet. On new traction line, above high water.

**CALL
George E. Kricker
General National Bank**
(Arrangements will be made for an automobile trip to view the lots.)

Buy Real Estate where Values Grow

A wise man needs no advice. 'Tis said! However, that statement is not always true, for you yourself have known of several opportunities that the wisest of wise men allowed to pass them by. Especially is this true, sometimes, in the matter of real estate. You can recall when you, perhaps, criticised the judgment of men who bought Chillicothe street or Gallia street real estate—bought it at a time when they paid less than fifty dollars per front foot! And now the same property is worth twenty times that amount. You simply overlooked a golden opportunity, the same as others will who allow to pass them by the present opportunity to purchase lots in

Long Meadow and Garden City

Why, friends, there is no chance to lose in the purchase of a lot in either of the above additions. Don't you realize that the city is growing eastward? Within ten years and less, Portsmouth will extend far beyond the limits of Long Meadow and Garden City. The traction line, which skirts the land will soon be in active operation, and even now those living there have all the advantages of a progressive city—good water, free schools, good churches—and all within a few minutes ride to Portsmouth.

In Garden City the proposition is most alluring. Why for less than the price of a city lot, yes, even one-third as much, you can own a lot two hundred feet square, big enough for a farm, and as big as six ordinary city lots. The land lays beautifully—as high and dry, and overlooks one of the prettiest spots in the county. Many have purchased lots therein and many of these fortunate people have refused twice what they paid for them.

We have 150 choice farms in Southern Ohio also desirable residence property in the city of Portsmouth.

Now is the time to buy—while the price is low. Within a short time the price will advance and then you will have regrets.

We will be pleased to talk the matter over with you. Look at our plats and better still, accompany us to the two additions, where we will trust to your judgment. Phone any time, we are at your disposal.

\$50 First Payment Buys An Improved Lot That Should be Worth \$200 More in one year, \$200 on \$50 equals 400 per cent---Idlewild---(Just west of New City Water Works.)

REAL ESTATE MEN ALWAYS BOOSTERS

Real estate men are as much a distinctive profession, with distinctive characteristics, as artists or actors, minus, perhaps, many of the eccentricities of the latter. Every real estate man, however, has some little eccentricity all his own. Its a characteristic, despite which real estate men are red-blooded and lovable.

The business of the real estate man is to sell real estate, which consists of chunks of terra firma, either with or without artificial improvements. Adam and Eve, of course, were not only the original, but the largest property-holders the world has ever known; while they were not enabled to enjoy their possessions outside of the Garden of Eden to any great extent, the whole globe had been deeded to them and it was all theirs; but Adam and Eve left their property to their children, and Portsmouth, Ohio, came in for a mighty good share.

With millions and millions of children scattered over the face of the earth, there can be found none worthier of the name of "Boosters" than those who fell in the valley of Portsmouth. Here they have bartered and traded. That's why they are real estate men.

When a man wants ground to build a new house he must consult a real estate man. If he wishes to acquire a lot, be it in the Desert of Sahara, or if he wants to purchase a Mosque in Constantinople, a snow hut in Alaska, a ten on the prairie, or an adobe building in Mexico, he must find THE REAL ESTATE MAN. Precisely upon no other profession of business does the future of a city, town, or community depend so much as upon these good fellows. The real estate men of Portsmouth are making this city—there is no doubt about this. They are on the lookout morning, noon and night. Most have "real estate motor cars" and scout you around in the twinkling of an eye, showing you good investments and putting you on to things worth while.

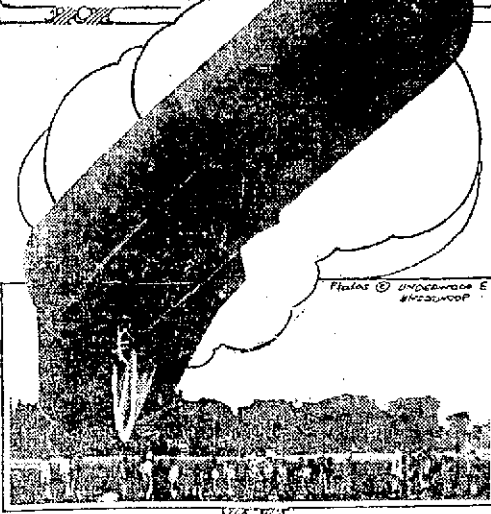

They are successful financiers, also; they are affable, courteous and pains-taking, ever ready to look to your interests with the same consideration as they would look to their own. Their offices are equipped with modern methods in handling real estate properties. The "latch string hangs out for you," if you are looking for rental properties; they keep both head and hand in touch with the demands and desires of profitable tenants. They eliminate dirt, see that papering is done—in fact they do everything possible in the interests of both owner and tenant.

After all the real estate man is a most valuable asset in a growing, ambitious city can have. As a sincere realtor, we all join hands with the City Fathers and the citizens of this community in stating that Portsmouth owes a debt of gratitude for her expansion and growth to the real estate men here.

TELLS ABOUT PREMONITION

Bournemouth, England, Oct. 1.—Miss Mathilda Tennyson, last surviving sister of the poet Tennyson, who died recently at her home here, aged 98 years, was very proud of telling how she had a curious premonition of the death of Arthur Hallam, Tennyson's great friend, in whose honor "In Memoriam" was written. Miss Tennyson was at the Tennyson country home in Lincolnshire at the time. Only a few days before news was received of the death of Hallam, in Vienna. Miss Tennyson "saw a tall figure clothed from head to foot in white, and followed it down a lane, where she saw it pass through a hedge where there was no opening." She reported the vision to the family as a warning of the approach of some great tribulation.

WITH THE RUSSIANS ON EASTERN FRONT

Clearly concealed Russian artillery; British balloon prevented to Russian air squadron starting on observation trip.

FOR THE HOME-SEEKER

A man worth his salt is worth a little together uplifting. Naturally as his business interests grow, his place is salable and he can advance on, buying up a couple of lots here and there in growing localities, thereby enhancing other interests which spell "Prosperity, Opportunity, Profits, Good Citizenship, Good Morals," and which when summed up means "Happiness."

No young hustling, aggressive city offers better opportunities for home building than Portsmouth. There is in this city, a consideration of interest and pride, coupled with good principle, on the part of the real estate men, in opening up, and laying out attractive real estate holdings.

No less authority than Thomas A. Edison having pronounced it during his investigation of the problem of expensive and sanitary home building, when resulting in 1888, for instance, of the modern houses of small cost.

The Portsmouth home of the present day working man contains all the comforts and conveniences enjoyed by only the very wealthy a few years ago. Nowadays sanitary bath rooms, gas and cold water, and electric lighting are necessarily included in the specifications of a modern home. The "easy payment plan" now makes possible for every man to own his own free home. Presently the payment of lots in monthly installments or such like so that by a time you put up your house, you would pay in rent, say, \$10.00 a month, and in the end, it is yours and not the bank's.

Any operative lander in the city will gladly go into further details on this subject. Any sensible purchaser looking for a home is going to look for the spot that is best located to your needs, and in the end, it is yours and not the bank's. Any operative lander in the city will gladly go into further details on this subject. Any sensible purchaser looking for a home is going to look for the spot that is best located to your needs, and in the end, it is yours and not the bank's.

TEXTILE FACTORIES ARE BUSY

turning out winter garments for the armies. Large orders have been placed with Swiss manufacturers of heating appliances for the German army. A Berlin automobile manufacturer is said to have discovered a system of curtains for motor cars, which not only protects from the rain but also from the cold and permits a ready change of the color to accord with the foliage of the country.

The winter campaign seems to be looked forward to without much apprehension in Germany as the measures taken to economize food supplies have been so effective that no lack of provision is feared. In Austria, however, according to reliable reports the situation will be more serious as the same precautions were not taken and their application is not so easy as in Germany.

WON'T TAKE CENSUS

Berlin, Oct. 1.—The Imperial Ministry of the Interior has decided that no census of the empire will be taken until after the close of the war. A general census was due in December this year.

Forgotten for the Moment

People who profess to be tender-hearted are quite as selfish as others. The man who says he couldn't stand it to kill a chicken does his full share to a chicken dinner, just the same.

PRINCE HENRI KILLED IN BATTLE

FRENCH MAKE MORE GAINS

Paris, Oct. 1.—2:37 p. m.—In the great battle in the Aisne district the French have made further progress by means of attacks with hand and grenades on German trenches. Announcement to this effect was made today by the war office.

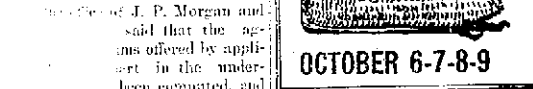

In the Champagne a German counter attack near Maisons de Champagne was checked. The Germans violently bombarded French trenches near Soupir, north of the Aisne but made no infantry attack.

STORM WIPES OUT TWO ENTIRE TOWNS

Mobile, Tenn., Oct. 1.—A severe storm, with high winds and heavy rain, visited the city today, wiping out two entire towns. The Louisville and Nashville railway station agent and section foreman at Dunbar were killed. It is impossible to reach these towns from Mobile now, except by boat.

BANKERS RUSH TO BUY LOAN STOCK

York, Oct. 1.—Members of the syndicate of banks, trust companies and private banking houses, which will manage the \$300,000,000 loan, rushed to the market today to buy the bonds. The price of the bonds, which were offered at 98 1/4, rose to 99 1/4. The syndicate of banks, which includes the Anglo-French loan, had received today applications from banks and individuals for permission to subscribe. The subscription, which had not yet been opened, is expected to be very large. The syndicate of banks, which includes the Anglo-French loan, had received today applications from banks and individuals for permission to subscribe. The subscription, which had not yet been opened, is expected to be very large.

Paint Men Close National Convention

Cleveland, Oct. 1.—The twenty-eighth annual convention of the National Paint and Varnish Association closed here last night with a banquet, attended by 500 delegates and friends. Former Senator Theodore E. Burton, in an address presided still heavier emphasis on the importance of the paint industry to Europe by American manufacturers after the war.

The election of officers in the afternoon resulted as follows: P. P. Chessman, New York, president, succeeding W. D. Foss, Wooster, Ohio; P. D. Waggoner, Kansas City, first vice president; H. J. Greens, Providence, R. I., second vice president; W. D. Foss, Wooster, Ohio, third vice president; Charles J. Caspar, Pittsburgh, secretary-treasurer.

HAVE YOU REGISTERED?

THE WEATHER

Ohio—Rain tonight, Saturday partly cloudy.

Worth While Quotation.

One is a sort of smoke that comes from the mouth of the man who is full of himself.

CHOLERA RAGING IN GALICIA

Amsterdam, Oct. 1.—(Via London, 9:23 a. m.)—Cholera is raging in Galicia, the Telegraph says, and, according to the home office, three hundred cases have been reported.

U. S. WINS "MOVIE" ACTION

Philadelphia, Oct. 1.—The United States district court today decided the anti-trust dissolution suit against the Motion Picture Patents company in favor of the government.

STATE BOARD TO BE VACCINATED

Columbus, Oct. 1.—In order to practice what they preach, officials of the state board of health today demanded that all members of the staff be vaccinated for typhoid fever and smallpox, if they have not been already so vaccinated. It was said a large number of inspectors and investigators of the department would be affected by the order.

Adjust Labor Disputes By Arbitration Now

Bridgeport, Ohio, Oct. 1.—Labor disputes are being adjusted by arbitration for the first time in the local industrial history. In accordance with the agreement reached at Cleveland which ended the strike of 15,000 miners in the Eastern Ohio fields, C. J. Albin, president of the miners' union in the district, J. J. Roby, representing the operators, and Thomas P. Wangler, Columbus, named by the former two, are hearing the testimony of operators and employees regarding certain grievances which in former days would have meant a strike. One of the questions being considered is the placing of a fine on the men at one of the mines for striking without having first submitted the matter to arbitration.

STATE TO EXAMINE GAS METER TESTERS

Columbus, Oct. 1.—Indications of early cold weather and heavy use of gas today lead officials of the Public Utilities Commission to prepare to examine gas meter testers owned by gas companies over the state. This work will be started within ten days and continued until all such apparatus has been examined and found accurate.

Each gas company has an apparatus used to test meters. Herebefore the examination of this testing machinery was done by the state sealer of weights and measures, but the last legislature passed a law transferring the responsibility to the Utilities Commission. C. V. Critchfield, of the commission, will have charge of the work.

Tells Of Mutilation Of American's Body By Mexican Bandits

Washington, Oct. 1.—A report from Captain McCoy, commanding United States troops at Mission, Texas, on the mutilation of the body of Private Richard J. Johnson, by bandits from the Mexican side of the border was transmitted today to the war department by Major General Funston. It was sent to the state department by Secretary Garrison. It is under date of September 29 and reads:

"On suggestion of Deputy Sheriff J. Mayfield, I interviewed one Guadalupe Cuellar, at Pharr under civil charge, who stated what occurred in the fight near El Progreso, September 21, 24, in substance as follows: Under the command of the Carranzista officer stationed at Las Paladas with his troops recently arrived from Nacozari, a crossing was made during the night in their boats. A detachment of American soldiers at Crossing shot up and over the powered one, presumably Johnson, made prisoner and taken across to the Mexican side where he was without provocation shot five times in ears and head cut off and carried away as souvenirs and the remains thrown into Rio Grande. The horses and arms captured from the American detachment were taken across and held in the Cuarta of the Carranzista soldiers at Las Paladas, which is only a quarter of mile from the crossing and scene of the fight. The foregoing is embodied in a sworn statement which I turned over to the commanding officer at Pharr to be forwarded in today's mail."

In transmitting the report General Funston said:

"The attack in which Private Johnson was captured was that reported on 21st in my Number 69 B. Private Johnson was one of two men who were on guard at the time the attack was made; the other man was killed."

Asks England Not To Invest In Loan

London, Oct. 1.—The financial columns of the London morning papers depreciate as unpatriotic any investment in the American loan by British investors. The Morning Post even calls for an issue of a memorandum by the government reminding police that such applications should not be made. The paper asks bankers all over the country to discontinue investments of this kind by every means in their power. The Times says:

"No respectable banking or financial house in the city of London will give facilities for such investment."

The Times adds that it believes every obstacle will be put in its way by the American bankers issuing the loan. The newspaper protests against the Manchester Guardian's criticism of the loan as utterly perverse, adding: "Taxation is a separate matter altogether, and nobody could propose to make the Americans pay our income tax in the United States."

G. A. R. TO ELECT OFFICERS TODAY

Washington, Oct. 1.—Ceremonies in connection with the laying by President Wilson of the cornerstone of the Arlington Memorial amphitheatre was the most important event on today's program of the annual reunion of the Grand Army of the Republic. Hundreds of Civil War veterans set out early today for Arlington National Cemetery for participation in the services, despite threatening weather.

Second only in importance to the Arlington exercises was the election of officers. Nominees for commander-in-chief included: Elias H. Munsford, of Cincinnati; Frank O. Cole, of Jersey City; William J. Patterson, of Pittsburgh; and Captain Patrick Conroy, of Topeka. The choice was said to rest between the last two men.

Kansas City was the unanimous choice as the next encampment city.

THROW MATES OVERBOARD IN HUNT FOR DEVILS

Grimsby, Sept. 22.—(Correspondence of the Associated Press)—The Norwegian steamer Jonas Rein has just brought into port ten demented survivors of the crew of thirteen belonging to the Dutch lugger Nordzee. As far as can be learned from their dispirited statements, they had a desperate fight with the Nordzee, which was picked up by ten men all insane, presumably through overexposure to the sun and the sea. The Nordzee was picked up by ten men all insane, presumably through overexposure to the sun and the sea. The Nordzee was picked up by ten men all insane, presumably through overexposure to the sun and the sea.

COMPLETES LARGEST BRIDGE

New York, Oct. 1.—More than seventy-three German submarines have been destroyed or captured by the British, chiefly through the aid of electrical detectors installed along the coast of England, Scotland and Ireland, according to William Dubilier, an American engineer, who arrived here today on the steamer St. Paul.

Dubilier, who has been installing various electrical devices for the British and French governments during the last four months, says the electrical detectors has proved to be the most efficient means of locating hostile submarines. He said that although only the highest admiralty officers know the exact number of German submarines that have been destroyed, he learned on good authority that the number exceeded seventy-three.

Dubilier installed numerous small wireless equipments along the French front to replace telephone systems which frequently broke down on account of interference with the wires.

GAS RATE CASE ATTRACTS MANY

Columbus, Oct. 1.—Hearings before the state Public Utilities Commission continued today with an audience of gas producers and engineers from all parts of the state.

Representatives of gas companies in states as far distant as Texas were present to hear the first case ever presented to the commission in which an estimate of the cost of production had to be made by commission experts.

BAY STATE BATTLE INTERESTS NATION

Gov. David Walsh (top) and Samuel W. McCall.

The whole country is watching with deep interest the fight for governorship now being waged in Massachusetts. David Walsh, Democratic challenger, and Samuel W. McCall, Republican incumbent, are again pitted against each other. Walsh won last year.

WAS CAPTAIN IN FRENCH INFANTRY

Paris, October 1.—Captain Prince Henri Marie Joseph of Polignac was killed in the fighting in Champagne on September 25. He was 37 years old and was an officer in an infantry regiment.

Prince Henri Marie Joseph was the second son of Heraclius fourth Duke of Polignac, the head of the French house of Chalenion. Prince Henri was born in Paris in 1878. In 1904 he was married to Diane, countess of Polignac. The prince was a captain in the 103rd infantry regiment.

London, Oct. 1.—Captain Harold T. Cawley, member of Parliament for the Haywood division of Lancashire, has been killed in the Dardanelles fighting. Captain Cawley is the third member of parliament who has been killed in action.

GIVES THRILLING STORY OF SOUCHEZ BATTLE

Paris, Oct. 1.—Seven mines, each claiming sixteen hundred pounds of powder, were exploded with a terrific roar as soon as the signal was given for the French advance at Souchez, according to the story of an eye-witness of the battle.

"Simultaneously," he said, "our men leaped out of their trenches and made for the German trenches before a forest."

"The Germans halted through the woods, pursued by our first wave." Section one of the second wave exploded the ruined trenches and under-ground shelters, which often were 20 feet deep. As they had no desire to go down into these holes, whence it seemed unlikely they would come out alive, our men dropped bombs and fired shot-guns through the openings, which effectively prevented the occupants from coming out and taking us in the rear.

"The bulk of our men followed the Germans, who were running like hares through the woods. They soon captured the second line of trenches in the middle of the forest."

"During the night the Germans fortified themselves in the woods, but at daybreak our artillery stopped their work by a furious bombardment. One after another the trees were mowed down, and soon the woods were transformed into a field of stumps rising from a jungle of brambles."

"The German artillery fired, either, but sent at us a stream of shells, which did much harm. Explosions were varied occasionally. This fire was borne bravely, for since they have new steel helmets our men were not so much hurt by the shells. But their fore-sight that he escaped with a scalp."

"At one o'clock in the afternoon the guns ceased firing and the Germans ordered to attack again. Our guns, which the Germans had fired on their flanks, soon were put into action and we drove the Germans out of the woods, which remained in our hands."

Kuropatkin To Head Russian Grenadiers?

London, Oct. 1.—General Alexei Kuropatkin has been appointed chief of the Russian Grenadier corps, according to a Reuter dispatch from Petrograd.

When Emperor assumed charge supreme command of the Russian military forces in succession to Grand Duke Nicholas, it was reported from Berlin that the actual control of the army had been placed in the experienced hands of General Kuropatkin and General Polivanoff, minister of war.

If the report from Petrograd regarding General Kuropatkin is true, it means a somewhat remarkable reversal of public opinion in Russia regarding military leader who was disgraced because of the failure of Russian arms in the war with Japan.

His poor success as commander of Russia's great Manchurian army in that conflict, while it seemed astonishing to military men, was regarded by the public as a disgraceful failure. Kuropatkin was born in 1848, entered the army at the age of 16. In the war with Turkey he gained a great reputation. In 1882 he was made a major at the age of 34. Eight years later he became a lieutenant general and later a general. He was in command of the Russian army in Manchuria.

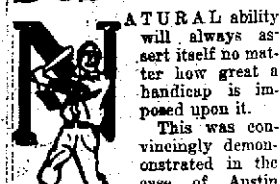

After the defeat at Mukden the retirement of the Russian army to Tieling, Kuropatkin resigned the command of the Russian army, taking the blame for the defeat at the head of one of the armies in Manchuria.

FLASHES FROM THE REAL CENTERS OF SPORT

Gifted With Natural Ability Austin McHenry Reds Win One

NATURAL ability will always assert itself no matter how great a handicap is imposed upon it.

This was convincingly demonstrated in the case of Austin McHenry, brilliant left fielder of the Portsmouth team the past season. Gifted with native ability, but inexperienced in the art of playing ball successfully, it looked for a while that McHenry would be turned back by the local management last spring.

McHenry flashed now and then, but the general impression prevailed that the sunny disappointment led from the classic hills of old Adams county needed another year or two on the town to burn the village blacksmith shop. Apparently he was not on speaking terms with the finer points of the national game. But he was eager, earnest, enthusiastic and energetic and was determined to succeed. There was not a fiber of indifference that sends so many players back to the stacks in his compact frame. He was out there hustling all the time. McHenry kept trying. Now and then he would travel afar and haul in a lofty lift with the ease and grace of a Delahanty. The fans began giving him the once over and the club owners slowly began to realize that they had a jewel in the rough.

Manager Spencer had confidence in McHenry. This confidence soon amounted to genuine hope. After being shifted to the outfield from second base, his native position, McHenry began to shine with much brilliancy. He caught fly balls with the surety of a Ty Cobb, had an arm of steel, and was gifted with the intuitive faculty of playing for the batters. He gradually developed into one of the most valuable players on the team. Why? Because McHenry had confidence in himself and was fired with ambition. Finally the sunshine began to break through and he grasped his opportunity.

Steadily he developed in all departments of the game. He proved to be a veritable demon at the bat, hitting all kinds of pitching, was fast on the bases and displayed intelligence every time the situation demanded the exhibition of grey matter. McHenry became popular. To many he was the favorite of Spencer's well balanced, high powered scoring machine.

When the blistering hot days of July rolled around it was conceded all around the Ohio State league that McHenry had won his spurs and Manager Spencer's judgment in retaining him was handsomely vindicated. McHenry had arrived, baseliably speaking. Whether he is drifted or not

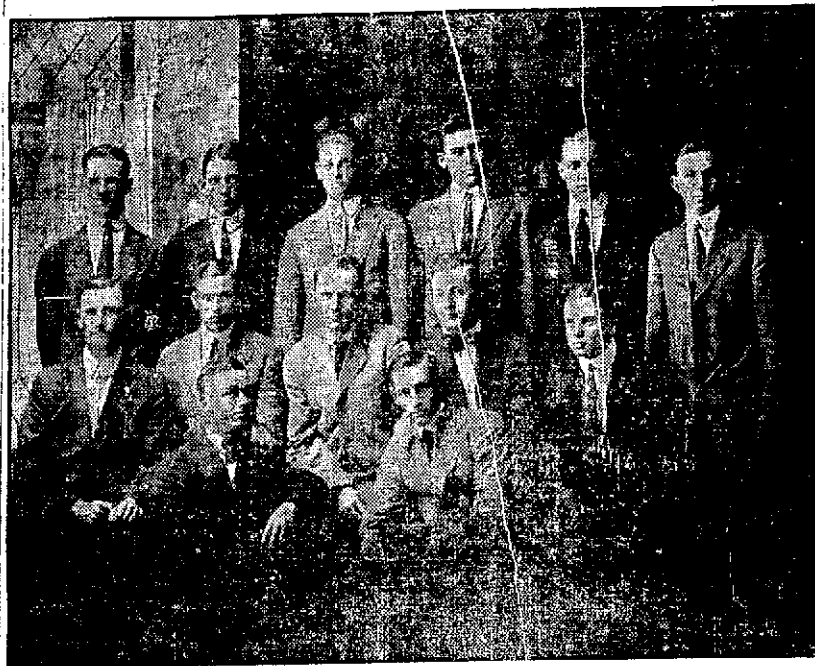

many well posted fans believe and believe conscientiously that the Adams county lad is destined to shine in baseball's most alluring sky, the sky of the big show, that of the major leagues.

A cleanly built athlete with but

one desire uppermost in his mind, to make good, Austin McHenry is climbing the baseball ladder of fame. And as he goes up rung by rung he will have a host of well wishers here boosting him upward.

The fans like a willing and hustling young ball player. To this class attach the name of Austin McHenry, 18, a resident of the tranquil and ancient village of Blue Creek, Adams county.

Ohio State League Champions

Top row, reading left to right: Outfielder McHenry, Catcher Johnson, Pitchers Jacobus, Test and Ferguson and Catcher Hubert, middle row, reading left to right: Pitcher Hancock, Outfielder Dills, Manager Spencer, Outfielder Sherman and Third Baseman Dillhoefer; bottom row, reading left to right: Shortstop Howdy Eaton and Second Baseman Bush.

This is the team that stepped out and won the first half pennant in the Ohio State league for Portsmouth and defeated Mayville in the post season series, by winning four games out of six. Students of the game firmly believe that the above team as it lined up was one of the best that ever represented the River City on the diamond. Well balanced in all departments it was a splendid piece of baseball machinery and much credit of bringing Ohio State league championship to Portsmouth is due to Manager Ches Spencer, who proved himself an able and resourceful leader.

A FEW MINUTES WITH SPORTING EDITOR

"Irish Camwell, who recently returned from the Texas league, is just drifting along these days. He expects to make a 'landing' shortly."

Charley Riehl, the famous slugger Charley is still eluding the ball for Columbus semi-prof teams. The other day he almost hit one over the Capital building.

Connie Mack's ailment has been diagnosed. He is suffering from "tail end fever". It is oft-

en produced by staying at the bottom too long.

Great old world. Thirty prize fights are pulled off every night in New York. Some people just have to be wallowed, that's all.

Over in the New England league this year they had a player named Nuda. There was something on his playing just the same. The lad has been deafened. Last night he was awful to draft a Nuda person!

So Manager Herzog is willing to exchange wallows with Tom Clark. Well, much too. The Reds have failed to produce any players this year, who knows but this little scrap will produce an ultimate title holder. One can never tell how far an ear can toss you.

The Federal League has engaged a business manager for its New York team. Pretty soft job, that. Evidently Boone Zimmerman is with a half million and is bound going to take a vacation.

No need of a "Marquard day" in Brooklyn, for it is evident Reuben has had his day.

The enmities of the winter league will soon be roaring. Then the phenoms will be made in a day and all games will be won.

Oh yes, base ball is fixed. What would the Reds have given to have won all their games from Chicago and finish in the first division? Why a couple of Gary Hermann's city blocks of course.

So the A. A. held a poverty social the other day. So will the big boys if they don't quit carrying around 30 and 40 players.

Just as soon as Red Doon was kicked out of Philadelphia the peppery, tempestuous Phils just naturally stepped down and embraced Miss Penman and grimly held onto the coveted little creature.

Roger Bresnahan says he will try out 20 youngsters next spring. Evidently Boone Zimmerman is going to take a vacation.

South High Will Play Turkey Day

Portsmouth High School's schedule of home games is now complete.

Bushnell Manager Phil Robert Hooks has called a game with South High of Columbus for Thanksgiving Day at Mulholland grounds. The Red and Blue lads will be on the field for four of its scheduled games. Following is the complete schedule:

Oct. 2, P. H. S. at Gallipolis.
Oct. 9, P. H. S. at Wellston.
Oct. 16, Huntington here.
Oct. 23, Jackson here.
Oct. 30, Gallipolis here.
Nov. 6, P. H. S. at Ironton.
Nov. 13, Ironton here.
Nov. 20, P. H. S. at Jackson.
Nov. 25, South High here.

St. Louis Woman Drives Trotter to Victory

Among the feature events at the Illinois state fair at Springfield last week was the appearance of a woman competing with the men drivers in a regular race meeting.

Mrs. W. E. Dunt, East St. Louis, Ill., drove Bud C. to a division of first and second money in the 2:25 trot. She is the only woman driver competing on either the Grand or Great Western circuits.

Only Two Records To Shoot At

New York, Oct. 1.—The fracturing of the records for single game attendance and receipts—those are about the only marks the coming world series combatants can shoot at. The performers in the other years since 1903 when the world series began have hung up some records that never can be beaten and others that

never may be equalled. The Red Sox, by using the new Braves' park probably will smash the single game attendance mark that was made in New York on October 14, 1911, when 38,231 fans paid \$77,359 to see the Giants win a 2 to 1 victory over the Athletics. But only by such a procedure does it seem possible that

any record busting can be done. The new park of the Boston Nationals seats 43,500 normally and may be increased to 45,000 before the series begins. With the Hub City delicious with base ball fever every seat undoubtedly will be sold. The receipts ought to total over \$90,000.

P. H. S. WILL OPEN FOOTBALL SEASON AT GALLIPOLIS SATURDAY

The team will average about 145 pounds. Nutter at end took part in the majority of the games last year. Brandt at right end is a letter man and with Nutter will make a pair of end expected to carry forward passes for large gains. Captain Duwell and Quinn at tackles are lettered men and two of the biggest on the team. Lewis and Coleman, guards were substitutes last season and took part in several of the regular games. Mar-

ting at center played in the backfield last season but will make a good man for center. Dee York, a lettered man who was to have been the regular quarter back will be greatly missed. Vance Morris, the midget of the team, has taken York's place as quarter. Morris was second team man last year. Wilson who broke into several regular games last season will be the regular fullback and his weight and speed are counted on for large gains through the line. Shoemaker and Thomas as half backs are small but mighty. Both were substitutes last season.

Tom Williams, Perkinson, Ball, Anderson, Clayton, Swavel, Edwards and Trone are the extra men from which four will be picked as substitutes for Saturday's trip.

MARSHALL WILL PLAY Ironton

Marshall College Reserves of Huntington, will be the attraction at Beechwood park and will furnish the Ironton H. S. team its second game of the season. The Marshall Reserve team is composed of a bunch of big, yet unseasoned men, and it is expected that they will give the locals a good run for their money.—Irontonian.

So Long, Ping

Just when big league fans were looking forward to seeing Ping Bodie's smiling face with the Yanks next year Bill Donovan announces he didn't draft the fat boy. Someone's always taking the joy out of life.

SPENT \$60,000 FOR "PHENOMS"

Since taking hold of the Yanks Ruppert and Houston have spent \$60,000 for new players. It ain't enough! It ain't enough! Two more nickels might get them a real ball player.

Chance Boys To Gather

'Tis said former Cubs who worked under Frank Chance are to hold a reunion in Chicago this fall. Yankies who worked under Chance will not be admitted to the doings.

Elberfield Has the Same Old Ginger

Norman Elberfield is the same old spunky kid he always was and age has not quelled his spirit. In a game at Nashville recently some over-excited fan cracked him on the head with a pop bottle. Elberfield went into the stand after his assailant, facing a hostile mob, and had to be held from doing violence to the cowardly wretch who tried to put him out of business.

PLAYERS ARE GOING TO LOGAN

(Ironton Register). Eddie "Shockey" Taylor late manager of the Ironton Nailors, and now at home since closing of the season, received a telegram today from W. E. Cook, of Logan, W. Va., wanting to know if he could be there Saturday with a pitcher and catcher. "Shock" wired back that he would be on the dot Saturday with Chuck McDaniels and Lefty Black.

WILL MAKE TRIP IN AUTOMOBILES

Weather permitting the P. H. S. pigskin eleven will make the trip to Gallipolis in automobiles Saturday. A large number of the high school students have arranged to attend the opening game and P. H. S. will be well represented on the Gallipolis field.

THIS IS TOUGH

Some players have slipped out of the spotlight in a hurry but none have gone much faster than old Chief Bender. A world series pitcher last year, he'll have to stand in line for a ticket this fall.

Say, Hick Cut This

Anyway the Braves didn't win all their games with the Red Birds this season. Herzog's bunch stopped them in great fashion, taking 7 of the 22 games played with the Champs.

TO PLAY UNTIL HE IS 50

Honus Wagner, the grand old man of the game says he will not put his baseball togs away until he has reached 50. Wagner has been dubbed "perpetual motion" in baseball. The Flying Dutchman is always on the move.

Hunter Bitten By Bug, Is Laid Up

One day last week Fred Hunter, first baseman of the Ft. Worth, Texas league team went fishing. While wading around in the water a bug bit him on the left toe. He scratched the bite and is now laid up with a case of blood poisoning at his home in Columbus. He may have to have his foot lanced.

CLAIM PHILLIES WILL NOT WIN BIG SERIES

Over East, where the so-called wise fans have their meal tickets punched they are betting even money that the Phils will not win more than two games in the world's series with bumps of wisdom proper.

In other words these ginks with bumps of wisdom protruding from their beanlets have it all figured out that the Bostonians will win four of the first six games and thereby cinch the series. Certainly sweet of these fans to dope it all out for us, but we wonder if they are correct. And after scanning the dope sheet rather intently and analytically we are rather of the opinion that Eastern fans may be right this time.

BEGIN WITH MANAGERS

Johnny McGraw says the National league club owners are paying too high salaries to their players. Right here we may say that McGraw for bossing the Giants hands down \$20,000 per year. If a general slashing order is to be issued why not have it start with the over-paid, haughty and arrogant managers? Yes, why not.

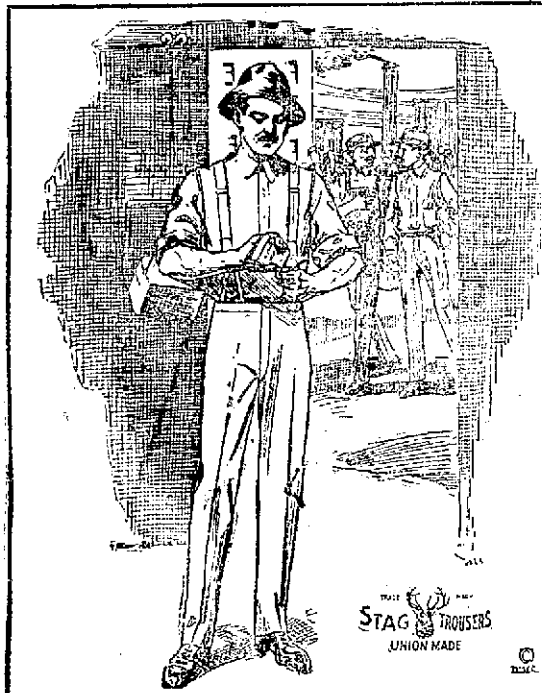

COUNCIL REGRETS CLARKE'S LEAVING

Pittsburgh, Oct. 1.—A resolution expressing appreciation for the services to the city of Fred C. Clarke, retiring manager of the Pirates, has been drawn up by Councilman Robert Garland, and will be presented to Council at its session next Tuesday. The resolution has been signed by all the members of Council and the city controller.

BUY THAT SEASON BOOK

Do not fail to buy your season ticket for the Portsmouth High School football games. There will be five big games at the park, for which the season ticket can be used. Five games, and probably more, for \$1, the best bargain of the season.

Arrangements are being made to book games with out-of-town schools who have a second team in the field. Several games could be booked and played while the local team is away. If 400 tickets are sold, the season tickets will be good for admission to the second team games.

A NEW PAIR OF STAG TROUSERS FREE IF THEY RIP

No use in feeding your hard-earned money to the birds. Save that for the future. You may need it when you get old. Buy a pair of STAG TROUSERS. They are made of the best material and are guaranteed to last. Nothing like them for price or quality in any city. You will be pleased when you see them in our store. We have the exclusive agency for this county. They are made by Union American Labor in a sanitary work room, so you need not be afraid of contagious diseases. Come in and let us show them to you. We are positive there is nothing as good for the money in Portsmouth.

GEORGE M. TAYLOR, Managing Editor.

ABOUT OURSELVES.

The Times will tonight present to its readers its annual Korn Carnival edition, printed on yellow paper, typical of the Carnival which is to be observed during the coming week.

We are proud of the edition, proud of the enterprising business men who are represented in it, because they helped to make it possible as they have helped to make Portsmouth what she is, and so daily helping the town to grow great and prosperous. And also we are proud of the fact, and pardonably so, that the work represents the energy and skill of our own organization. The work on this edition was done by Times people in The Times office, and it represents our best efforts in the way of executive and mechanical excellency.

Elsewhere in these columns space is devoted to Portsmouth, her enterprises, her merchants, her prosperity which will be exemplified in the Carnival, her future which is fair and bright. Here we want to tell you a little bit about The Times itself, about the newspaper which has always stood for Portsmouth and for Portsmouth people against the world, and which has grown steadily with the town, ever trying to do its part in upbuilding and uplifting the community. Sometimes we may not have reached the limit expected by some of our friends, certainly we have never been fully satisfied with our own efforts, but we have always done the best we could, and each time we have tried to do a little better than we did before. And above all, day in and day out, we have devoted our best efforts in a determination to give Portsmouth a great little newspaper, one that could be depended upon to print the news fairly and honestly. We feel that we have succeeded, in a measure, as our steady growth in circulation and business indicates. Still we are not satisfied with what has been done. We do not want to stand still and we do not intend to do so. We hope to keep on growing and improving with the town and when Portsmouth reaches the 50,000 class, we hope to be there with a newspaper equal to any published in a 75,000 or 100,000 population city in the country.

The Times is in its 22nd year, the first issue of the daily being issued March 23rd, 1894. Before that there had been a weekly edition which dates back to 1860 and from the first issue of the weekly there have been but four men in active ownership of the paper. James W. Newman, who started the weekly, J. L. Patterson, who started the daily edition, and Vallee Harold and Harry E. Taylor, the present management. Most of the staff have been with the paper for years, growing up with it and by their splendid work helping to make the paper what it is today.

When The Times was in its first year, it had a staff, in all departments of 12, with eleven newsboys. Today, in all departments there are employed steadily 34 adult persons, while in the newsboy department to care for the evening edition there are 103 newsboys, and on the Noon Edition there are an average of 50 boys selling on the streets every day. In wages alone the paper pays an average of \$44,000 a year, so that you can see that The Times is a factor of its own in the industrial activity of the town, small it is true, compared with some of our great industries, but it is doing its share.

It has been the policy of The Times to get high class men and women in every department, and our wage limit is equal to that in papers located in towns many times the size of Portsmouth. It has ever been a source of greatest gratification that extreme loyalty has characterized every department of the paper, all working together in harmony and with the most cordial feeling for each other. We have been getting along together like a happy little family and it is a condition of affairs that we hope will continue so long as we have anything to do with the paper.

One of the features upon which The Times has prided itself, has been careful attention to the local news field. We have a competent, high class staff of news writers, careful, considerate and enterprising. We believe that any one of them could hold a job on any newspaper in the land, and they see to it that every item of local interest, is gathered in. Sometimes the boys may get an item too that is not published and occasionally we may be criticised for that. We use our judgment in this, and we may make a mistake once in a while. There never yet was a newspaper that printed everything that came to it, and there never will be. One thing sure is that no unworthy influence ever has or ever will keep an item out of The Times. Consideration of the possible effect upon innocent people, upon the wives and the little ones, have been the dominating influences in the cases where there has not been publicity, and in the years we have been running a newspaper there are not many families in the community who would not have been touched if we had printed everything that came to us in a news way.

We have tried to print everything of public moment, there is no deviation there, but in private matters we have exercised some latitude, where we thought good might come out of it. It may have been a mistake, in the opinion of some to ignore the pleadings of women whose husbands had gotten into police court, and to have their burdens and those of their families by publicity, do not think so. And it is from the police court that come the "please give me another chance, keep my name out of it."

Telegraphic department is another big feature of The Times through which patrons of the paper are kept in close touch with world events. One year ago, in our Carnival edition, and the installation of the Associated Press leased wire, his has met our greatest expectations. It gives us the Press news over our own leased wire, with our own operators. We are on the wire from 7 o'clock in the morning in the afternoon with newspapers in the big cities of the nation, and in cases of emergency the wire is kept open as desired. We get a daily average of from 13,000 to 15,000 words and this is handled and edited by an expert telegraphic department so that The Times readers are always sure of getting the news while it is news. The Times is the only paper in Southern Ohio, outside of Dayton and Springfield and Cincinnati, that receives the full leased wire service. It is an expensive proposition, but it gives the news and that is enough for us.

In addition to the news service, The Times has a number of general features that add to its attractiveness. There is the delightful and unique Daily Weather column, our daily cartoon feature by our staff artist who with his Billy Butt in The Times weather man, is

A ROYAL WELCOME AWAITS YOU.

as much an institution locally as the paper, the "Polly and Her Pals" comic strip, and the illustrated news service of the Central Press Association which supplements the wire service with pictures. A daily pattern service and a weekly embroidery pattern service also appeal to women readers, while the Doc Koko column, appeals to those who enjoy a little fun.

Then too, there is the attractive daily New York Letter, which is so thoroughly enjoyed by readers, and the weekly health feature article which was added only a short time ago. All of these go to round out the paper and make it attractive from every standpoint.

In our mechanical departments we have the latest machinery designed to get out a modern newspaper, linotype machines, perfecting press, up-to-date stereotyping machinery, etc. It is a plant equal to emergencies, and it insures subscribers getting their papers on time all the time. When you subscribe for The Times you can rest assured that you are going to get your paper, that our circulation department will serve you to the best of its ability, and that every one on the paper will do his best to see that you get your money's worth.

The Times is housed in its own building at the corner of Front and Chillicothe streets, having been on this corner for the past 17 years. Following the 1913 flood, the building was remodeled, a concrete building being constructed inside the walls of the old structure, and an extensive addition also erected. This gives us plenty of room and room to grow, if occasion requires. Our office is comfortable and commodious and our machinery is so located that it cannot be touched by floods, unless we have a few feet more than we had the last time. This insures the operation of the paper in flood time as well as in fair weather and under normal conditions.

We do not often write about ourselves and we hope you will not be inclined to find fault with us for talking now. We would like to have you come down and see us, during the Carnival and at any other time you care to come. We are always glad to have visitors and pleased to show a newspaper in the making.

We hope to merit the patronage of the reading and advertising public and above all to continue to have what an expert auditor of circulation, sent here by foreign advertisers, said was "One of the very cleanest and best circulations he ever had the pleasure of auditing."

And in concluding, just always bear in mind that Portsmouth is a good old town, a growing town, a town with a future. It is the one town in this section that is sure to land in the 100,000 class. It is a town of home owners, a town of workers. Everybody works here, and everybody is happy and contented. We are building for the future as well as for the present, paving, sewerage, expanding in every direction. Shipping facilities are of the best, and in every way Portsmouth holds out promise to the investor and to those seeking locations.

We are proud to be located in and to be a part of Portsmouth. We hope the town will keep right ahead and that its growth will be record-breaking.

Years ago we christened this town "Peerless Portsmouth". We stand by that. It is a good name, a significant name. All join hands and boost. Peerless Portsmouth.

Hats off to Tollesboro, Kentucky. It has the champion gum chewer in this section according to a correspondent of the Vanceburg Sun who says, "We stand ready to back our opinion that we have, in our town the champion gum chewer in the county. She chews not only at home, but on the street and in the church and evidently never gives her poor jaws a rest. Who is she?" Being desirous of a little excitement we call upon the correspondent to name names. We are sure that the "champion" will make things interesting in the town.

That's all right. Talk little rain till it makes a good foundation for the fall weather we are going to have the latter part of next week.

NEW-YORK-DAY-BY-DAY.

O-O-MENTYRE.

New York, Oct. 1.—The latest news from the front has been posted in Monquin's two French restaurants. When the war broke out thirty-three writers and cooks from the two cafes returned to France to fight for their country.

Jean Marie Tapie, who used to be the wine steward at the downtown restaurant, has passed on. He was killed in action. Alphonse Fourans, one of the waiters, has lost both arms in the fighting. Two others, George Benoit and Jean Riviere are missing.

When Elie Dales announced that he was going to the front he was urged not to do so. He had lived in America for fifteen years and had a wife and two children who needed him. Nothing could dissuade him.

"I hope the Germans will capture you," Jules, the head-waiter, told him. Jules got his hope for Elie was captured during his first charge and is now a prisoner in a German camp in Hanover.

It is sometimes difficult to create the proper "atmosphere" in a play, especially if one of the scenes is laid in a barber shop. When the curtain rises on the barber shop scene in "Hit-the-Trail Holiday," George Cohan's new farce comedy, the audience catches the scent of bay rum and other commingled barber shop odors.

"By jove, it smells like a real barber shop, doesn't it?" a score of men remark to each other. Of course it does. For just before the barber shop scene the air is sprayed with bay rum from a giant hidden atomizer.

What's the use anyway of having a barber shop on the stage if it doesn't smell like one?

This is the story of how Paul T. Lawrence fell for the fill-in. When he came to New York he had thirty-four suits of clothes, a private haberdashery, a full grown savoir faire, \$15,000 a year and some ambition. He went to work in the Eastern agency of his rich father's business and had

a big mahogany desk to rest his patent leathers on.

But he was not content—a restless soul is Paul. So he sought to relax and that is how he became an actor for the movies. Paul dropped into the studio one day with a friend. A director saw his face, liked it and he went right to work.

Now he is acting as leading man with Ethel Barrymore in a feature film. When his father hears of the change of jobs there is likely to be some fireworks and the screen will lose a young leading man.

There are twelve page girls in the Martha Washington Hotel. They all dress alike in white aprons and little caps and when not answering to the call of "Front" they sit in a row near the information desk and chat in an undertone just like the hall boys do.

Paging women is in some respects more difficult than paging men. Of course the girls do not have to go through bar rooms and cafes, but they do have to go down the corridors to the milliners, the dressmakers, the hair-dressers and the manicures.

They page by room number and name in the Martha Washington. Using the two together helps fix the identity quicker than to use only the name.

This is the open season for lithe limbed, athletic youths who know how to skate. Theatrical managers are putting them. While the mercury hovers around 90 skating ponds are being frozen in New York theatres.

It looks like it will be a busy season for young men who can cut the Philadelphia twist, the Pittsburgh stogie, the Cincinnati pretzel and do other stunts on the ice in the shadow of canvas Alps and glaciers.

The ice palace idea has broken out simultaneously in several places in New York and seems to be spreading.

Doc Koko's Column

The Hands of Womankind
O childish hands of womankind,
So greedy now for play,
What will you seek, what will you find
Through life's dragging day?
Ah, little hands, in many lands,
Now treasures wait for you,
When mother hands and teaching hands
Shall cast the ballot too.

O plighted hands of womankind
That cling on eager souls
The flimsy links of love and bind
To base or worthy goals,
New duties crown the heights
That sing
This message unto you:
The hands that wear the wedding ring
Should cast the ballot too.

O mother hands of womankind
In travail sorely wrung,
Twisted in pain, in prayer entwined,
In agony upflung,
The yearning heart of mother earth
Foresees a balm for you,
When hands that guard the gates of birth
Shall cast the ballot too.

O toiling hands of womankind
That shape a world to be
And from the everlasting mind
Build up a destiny.
The brooding justice overhead
Will pay this debt to you:
The hands that earn the daily bread
Should cast the ballot too.

O toiling hands of womankind
That lift for Christ to see
By sorrow lined, by pain decayed,
A new Gettysburg,
The touch that shall old age assuage
Draws nearer unto you,
When hands that lead and love
and toil
Shall cast the ballot too.
—Exchange.

Notice to K. Winter, J. Frost,
Onc Boreas, Et Al.
Furnace cleaned.
Coal bin full.
Fruit cellar full.
Go ahead and do your dirtiest.
—Detroit News.

Not as Green as He Looked
A farmer went into a hardware store in Canal Dover to buy some tools. Before he got away, the enterprising young salesman tried to sell him a bicycle.

"I consider I'd rather put the money in a cow," the farmer declared.

"No more foolish'n I was makin' a bicycle," was the retort.—Hawford.

What Are You?
One who works with hands only is a laborer.

One who works with head and hands is a mechanic.

One who works with heart, head and hands is an artist.—Minneapolis Journal.

Be Keerful Bernie
"Mr. Bernard Gibson was almost decapitated while swinging with his girl Sunday evening."—Ironton Register.

Lookout!
Philo—Did you say window or widow?
Sophie—I said widow; but they are both very much alike.

Philo—How so?
Sophie—When I get near either of them I always look out.—Judge.

Society Note
The bridesmaid wore a gown of black tulle over an aria bouquet of Killarney roses.—Marquette, Mich., Chronicle.

New Way of Fixing Lettuce
Newlywed—This lettuce is something fierce! Did you wash it?
Mrs. Newlywed—Of course I did! And I used perfumed soap, too!—Chicago Herald.

Splendid Scheme
Mother (of her son)—He has a beautiful voice and we have had him taught the flute so that he can accompany himself.—Exchange.

Please Answer
How much would a wood-chuck chuck,
If a woodchuck would chuck wood?
And how much sap could a sapsucker suck,
If a sapsucker sucked all the sap could?
And what kind of a bee can a sweet-hee be,
If a sweet-bee be a bee?
These queries queer may be quite clear—
But they're not quite clear to me.
—Marion Star.

A Matter of Position
Photographer—Why don't you bring your candidate up here for a photograph?
Minister—He says he won't stand for a sitting.
Photographer—I believe he's lying.—Farm Life.

MANY FARMS INUNDATED; DAMAGE WILL BE SMALL

The steady downpour Thursday afternoon and evening has caused the creeks near Wheelersburg to swell and overflow their banks, a number of farms along Lick Run and Pine Creek being inundated. Lick Run, about two miles from Wheelersburg, was higher at two o'clock Friday morning than ever before in the history of the creek. Several inches of water is the normal stage, but at two o'clock the water was over eight feet deep. More land was covered Friday than ever before. At no time during the big floods was the creek so high and as much land covered. Water rose on the surrounding farms to a depth of four feet, the water being up to the band on earthenware. The John Staker, George Staker, Adam Rose and George Stacker farms were also inundated, but it is not believed any great amount of damage resulted. Pine Creek, which is fed by water from Lick Run, reached one of its highest stages Friday morning when the crest of the Lick Run water arrived.

GERMAN CROWN PRINCE WATCHING ENEMY

Crown Prince Friedrich Wilhelm.

Crown Prince Friedrich Wilhelm, who has been in command on the Verdun front since the war began, is seen here studying the French position through a periscope. Cable dispatches report that he may lose his command because his costly failures to smash the enemy lines have brought about a mental breakdown. It is rumored that Field Marshal von Mackensen will replace him.

CITY IS DRENCHED BY A RECORD RAIN

The heaviest rainfall that has fallen in the city since Weather Observer Dr. Harry Schirmann was placed in charge of the local weather bureau was recorded between 12:30 Thursday afternoon and 7 o'clock Friday morning, the unprecedented rainfall amounting to 3.43 inches. This means that almost three and a half inches of rain fell in the city within eighteen hours and a half. The rain started in very mildly and gently Thursday afternoon, and with each succeeding hour that was clipped off it increased in intensity and came down in torrents practically all night. There was no let up until 7 o'clock this morning, when the rain slackened into a misty drizzle. This great volume of water is sure to cause many creeks to go on a rampage and will cause a sharp rise in the Scioto and Ohio rivers. No wind or lightning accompanied the rain and no serious damage so far has been reported. It was just an old-fashioned steady rain that did not let up for a minute after it got well under way.

Baesman, If Elected, Intends To Install Bridal Chamber

Prospective bridegrooms are sure to vote for Fred W. Baesman, public safety department clerk, who is a candidate for justice of the peace on the Democratic ticket. Baesman is a firm believer

in the dignity of marriage and has made quite a hit with his announced policy of treating bridal couples with the respect that is due them, should he be elected.

Mr. Baesman means to fit up a regular bridal chamber

in connection with his office, with a canopy, neat looking chairs, potted plants and everything that will tend to give the place a most inviting appearance. "Take it from me I'll tie the knot as she should be tied," Mr. Baesman said Friday.

JITNEY HEARING DEFERRED UNTIL AFTER K. KARNIVAL

The matter of a final hearing on the "jitney" ordinance before council decides upon some definite policy with regard to the proposed legislation has, by mutual agreement, been deferred until after the K. K. Carnival.

"The people are so completely carried away with the Carnival spirit already that we deemed it inadvisable to take any further steps just now," said one of the lawyers, Thursday night.

Judge A. Z. Blair, speaking for the "jitney" people, said that they were absolutely willing to be regulated and to be put under proper restrictions that "they seem fit to impose in order to safeguard the public, but we do not wish to be driven out of business." The jitney people, said he, were not willing to give indemnity bonds, for no other business has been bonded.

"Jitney" buses made their appearance in Portsmouth since the last K. K. Carnival, and from all indications seemed to have become a fixed common carrier on the streets of this city.

NOTICE

Ben Hurn takes notice. We will meet in our own hall, Fifth and Chillicothe streets, Friday night, at 7:30. Initiation.

CHAS. SPRATT, Chief.
THOS. McLAUGHLIN, Secy.
adv 30-2 ex fri

**WILL ATTEND
FUNERAL**

Henry E. and Albert Burling left Thursday for Wheelersburg, Mo., to attend the funeral of their sister, Mrs. J. J. Kellison, who died Wednesday morning. Miss Margaret Burling has been in Wheelersburg for sometime nursing Katherine Kellison, who has been ill with typhoid fever.

**PAT MORAN HAS
DELIVERED GOODS**

It looks as though George Stallings will have to hand over that Miracle Man crown to Pat Moran. Pat's worked a few miracles that are not in George's book.

BARGES SWEEP AWAY, WERE SOON RECOVERED

The Little Scioto river at Sciotoville was turned into a raging torrent by the heavy rain Thursday. The strong current tore away an empty sand barge belonging to the Dravo Contract-

ing company that was moored near the mouth of the Little Scioto on the Ohio side. A barge on the Kentucky side was also swept down stream. Both barges were caught a short distance below Sciotoville.

Verdict Of Guilty

A jury in common pleas court Thursday afternoon returned a verdict of guilty in the case of Bernice Brown against George Sparks, a paternity suit, after deliberating but a short time.

Attorneys for the defendant gave notice that they would file a motion for a new trial. Attorney N. B. Gilliland represented the plaintiff, and Blair and Kimble the defendant, who is married and resides in this city.

BETTER SIDEWALKS NEEDED ON GALLIA ST.

The mayor has called the attention of the public service department to the need of sidewalks the entire length of the north side of Gallia street, from Young street to East Portsmouth.

The completion of the new Garfield school makes this improvement needed more than ever, says the mayor, for otherwise children are compelled to use the street. The solicitor will be asked to go over the matter with property owners.

Has Finished
Roy McElhenny, former county clerk of courts, who has been assisting the present incumbent, John W. Hull, since he assumed the office, finished his work Thursday evening.

In the future he will devote his entire time to the office of district manager of the Woodmen of the World.

THIS BILL TIPS OLD BEAM AT 214

One of the youngest as well as biggest Bills in the Famous Bill parade will be none other than Bill Bierley of Chillicothe, Ohio. He is only nine years old, yet he tips the beam at 214 pounds.

Seek a position through TIMES WANT ADS. Employers of labor read them carefully.

114 REGISTER ON FIRST DAY

With reports from two precincts missing, the total registration on Thursday, the first registration day, was 114. Of this number 42 were women, who registered to vote for candidates for member of the board of education. Supporters of the candidacy of Mrs. Ethel Cotton Schwartz have conducted an active campaign for the past week to induce women voters to register.

Three more registration days will be held before election: Thursday, October 7th, and Friday and Saturday, October 15th and 16th.

OBITUARY

Mrs. Byra C. Smith
Mrs. Byra C. Smith, aged 65 years, wife of Frank A. Smith, a retired merchant, formerly of Round Lake, Va., died at their home, No. 1011 Robinson avenue Thursday night, at 9:35 o'clock, from the effects of a surgical operation which she underwent for peritonitis at Hempstead hospital five weeks ago.

Mrs. Smith was brought back home from the hospital three weeks ago and has been steadily sinking ever since. She passed away surrounded by her loved ones.

Mrs. Smith's maiden name was Mitchell. She was a faithful wife, devoted mother, kind neighbor, a true friend and a good Christian woman, who was liked and respected by all who knew her. The family moved to this city from Virginia four years ago. Besides the husband, Mrs. Smith is survived by four sons and six daughters. They are: James Mitchell, Smith, of this city; Frank, Jr. and J. W. Smith, of Round Lake; N. A. Smith, of Pocahontas, Va.; Mrs. J. R. Black, of Pocahontas; Mrs. P. L. Killen, of Kansas City, Mo.; Mrs. R. E. Hatcher, of Round Lake; and Frank Hatcher, of Washington, D. C. Mrs. Smith previous to coming to Ohio, was affiliated with the Baptist church.

The remains will be removed on

REPUBLICANS NAME WARD PRESIDENT

Republican leaders of the Second Ward met at the offices of Osborn and Gustin in the Turkey building Thursday evening, and organized the Second Ward Republican Club for the coming municipal campaign.

George Koerner was elected president, Henry Becker, secretary and Hartzel Evans, treasurer. Each precinct in the Second Ward will be divided into blocks and workers will be assigned to each block. The next meeting of the club will be held at the Osborn and Gustin offices on Monday evening, October 11.

Lack of Education.
You are not really well educated if you do not possess the knowledge which is essential in making a home what it ought to be. The girl who would stand against if asked to build a fire in the kitchen range, and would be as helpless to prepare a dinner as a shirtwaist, as if she were called upon to translate from the Hebrew, has serious lacks in her education.—Exchange.

Electric Power for Whole State.
The government of Tasmania is damming a large lake and will construct a hydro-electric plant from which current for light and power will be distributed throughout the state.

Local Unions Will Be Well Represented At Labor Meet

Ten union men will represent Portsmouth local unions at the Ohio State Federation of Labor Convention, which convenes in Mansfield, O., on October 11 and closes on October 16.

William Abrahams will accompany the ten to Mansfield as a delegate from the Scioto County Labor Home Rule League. He will attend the Ohio Labor Home Rule League Convention which convenes on the tenth of this month. The majority of the other

delegates are also delegates to the latter convention. The greater part of the work to be transacted at the State Labor Convention will be in the form of resolutions. Following are the locals and delegates: Central Labor Council, E. E. Hise; Bartenders International League, Louis Uerder; Brewery Workers' Union, Local No. 140, Henry Kuhn; Carpenters' and Joiners' Union, No. 437, Harry Strong; Electrical Workers' Union, No. 475, George Koerner; Machinists' Union, No. 349, Fred Landerman; Pipe Fitters' Union, No. 451, F. W. Burdick; Stationary Engineers' Union, No. 77, George Ditty; Street Railway Employees' Union, No. 455, George Clegg; Journeymen Plumbers' Union, Fred Burkhardt.

Have You Babies? Bring Them Along, Nurseries To Be Opened

Mothers with young babies should not worry about being bothered with their "dear sweet things" while they are sight-seeing during the K. K. Carnival.

The Day Nursery on Third street, between Bond and Union, will be ready to take care of all babies left there, as Mrs. Grace Allison, the matron in charge, will have plenty of extra help to look after this work.

In order to take care of more babies, a second Day Nursery will be established during the four days of the K. K. Carnival in the old George Newman home on the south side of Second street, just west of the Public Safety department's office. The large double parlors have been donated to the Day Nursery Association and the members will see to it that every comfort is provided for the babies. A corps of young girls from various parts of the city have volunteered their services as "little matrons," and they will be placed in charge of the Second street nursery. Visiting mothers to the K. K. Carnival, who have to carry their little ones, should remember that places are provided to take care of the tots.

They will be just as safe at the

nursery as in their mother's arms. The first Day Nursery was established in Portsmouth last March, and since that time the organization back of this commendable work has made rapid strides in this field.

The Day Nursery Association is composed of Mrs. Howard Sellards, president of the Federation of Women's Clubs, president; Mrs. George Small, chairman; Mrs. Fred J. Baker, secretary; Miss Norma Mayer, treasurer; Mrs. George Small, Mrs. Howard Sellards, Mrs. Adolph Goodman and Mrs. D. A. Grimes, executive board.

The work is carried on and paid for by the proceeds of different kinds of entertainments and donations of many who are deeply interested in the work.

A novel scheme has been decided on to raise money during the K. K. Carnival. Baby rattlers will be sold for ten cents, and for any price above that which one wants to pay.

World's Largest Reptile.
The largest reptile in the museum, salt-water crocodile of southern Asia and Australia. It measures 30 feet in length from end of nose to tip of tail.

One of Nature's Wonders.
A feature worthy of note is the grand canyon of the Rio Grande, which has been given the name of the Canyon of Santa Helena. It is of the box type, with solid, perpendicular walls. At the head of the canyon these walls are 500 feet high, at the mouth 1,600 feet, showing a surface slant of 1,000 feet.

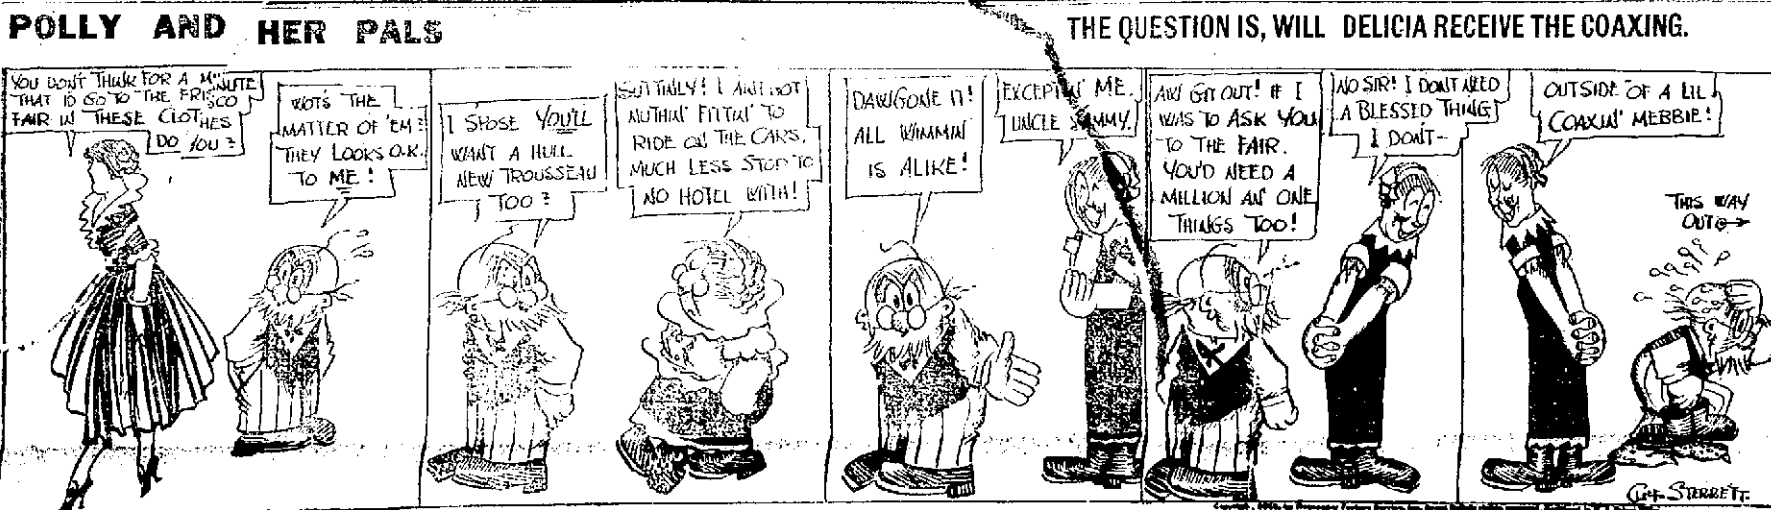

Bed Table for Invalid.
If a bed-table is not available for the invalid, the leaf of the sewing machine will make a good substitute, or a sewing table, two legs resting under the floor, the other two turned under. A few books placed upon the bed will prop up the other end of the table and prevent it from pressing upon the patient.

Laugh and Grow Well.
Gloom is not a virtue, any more than filth. The "odor of sanctity" does not necessarily involve a long face and a long black frock coat and infrequent bath. Laughter is good medicine, both for the body and the mind. The man who laughs is likely to be a healthy man, and a happy man, and he is rarely a villain.

Hanging Hard Wood Shelves.
Instead of the usual wooden pegs for assembling the parts of hard wood shelves, a substitute which will serve the purpose equally as well consists of wire nails driven into one board, the heads filed off, and these protruding ends plugged into holes in the other board.—World's Advance.

Be Generous in Praise.
There are occasions when speech is golden, rather than silence, and when an encouraging word would be of more value than the richest material gift. Some persons are far too much afraid of the effect of a little generous and well-thought praise. They would keep all their flowers in an icehouse. Letting a little sunshine upon them at times would not be amiss.—Dr. A. Thomson.

Swimming Grindstone.
Some of the fishermen on the River Tyne, in England, are not only ignorant but stupid. On one occasion two of these fishermen were caught by a heavy freshet and driven out of the river to sea. As the story goes, "one of the men saw, in the dusk, a hoop floating by. The hoop was full of foam. 'We are saved!' exclaimed the man. 'Here's a grindstone swimming!'"

THE QUESTION IS, WILL DELICIA RECEIVE THE COAXING.
